

# 100 Ejercicios De Vectores

Mike Jess

**Correct use of "circa" - English Language & Usage Stack Exchange** Aug 11, 2011 · I understand the use of circa / c. as it applies to approximating dates. However, I have a writer who (over)uses the word in other contexts. Examples: ... from circa early 1990s up until circa 8 y... *The meaning of 0% and 100% as opposed to other percentages?* Aug 29, 2015 · If soap A kills 100% and soap B kills 99.99% of bacteria, the remaining amount of bacteria after applying A (0%) is infinitely smaller than the remaining amount of bacteria after applying B (0.01%). Therefore A is much, much better. You can see from these examples that 0.01% gap behaves differently across the percentage scale. *Does a percentage quantity take singular or plural verb* ... Sep 12, 2015 · Does a percentage require a singular or plural verb, for example, do we say ten percent "go" or "goes"? *Why is "a 100% increase" the same amount as "a two-fold* ... Nov 15, 2012 · 24 Yes, the correct usage is that 100% increase is the same as a two-fold increase. The reason is that when using percentages we are referring to the difference between the final amount and the initial amount as a fraction (or percent) of the original amount. **Mixing use of K for thousands and MM for millions** Jul 3, 2014 · In the general environment of municipal government, for dollars we use K for thousands, M for millions and B for billions. However, I often see where those who are dealing with financing (banks and investment houses for bonds) use the MM for millions of dollars. That being said, I think the most appropriate usage is using one alpha symbol consistently so that ... **"a 100" vs "100" - English Language & Usage Stack Exchange** Aug 24, 2016 · The flow rate increases 100-fold (one hundred-fold) Would be a more idiomatic way of saying this, however, the questioner asks specifically about the original phrasing. The above Ngram search would suggest that a one hundred has always been less frequently used in written language and as such should probably be avoided. Your other suggestion of by one ... **word choice - Choosing between "100%" and "cent percent"** 2 Use 100% when you are stating mathematical thought like statistics. Use "one hundred percent" when you are stating non-mathematical thought like a story. **Correct usage of lbs. as in "pounds" of weight** May 4, 2013 · Assuming it's not casual usage, I'd recommend "All items over five pounds are excluded," instead. Most style guides recommend spelling out numbers of ten or less, and in such a case I'd spell out the unit, too. *How to write numbers and percentage? - English Language* May 20, 2019 · [Relevant examples;] 1% [;] 45% [;] 100% In discussions involving infrequent use of numbers you may spell out a percentage or an amount of money if you can do so in three words or fewer (five dollars, forty-five percent, two thousand dollars, sixty-eight cents). **Why is the plural of**

**"aircraft" not "aircrafts"?** Jun 29, 2015 · I came along this sentence: Today, we have used a large number of assets, comprising of 34 aircraft, 40 ships, hundreds of men, thousands of man-hours has been deployed I consulted dictionaries and
