Stubblebine, 2015-06-08 This work, a companion to the author's Broadway Sheet Music: A Comprehensive Listing of Published Music from Broadway and Other Stage Shows, 1918 through 1993 (McFarland 1996), provides information about all sheet music published (1843-1918) from all Broadway productions--plus music from local shows, minstrel shows, night club acts, vaudeville acts, touring companies, and shows on the road that never made it to Broadway--and all the major musicals from Chicago.

Beyond Grief Cynthia Mills, 2014-09-23 Beyond Grief explores high-style funerary sculptures and their functions during the turn of the twentieth century. Many scholars have overlooked these monuments, viewing them as mere oddities, a part of an individual artist's oeuvre, a detail of a patron's biography, or local civic cemetery history. This volume considers them in terms of their wider context and shifting use as objects of consolation, power, and multisensory mystery and wonder. Art historian Cynthia Mills traces the stories of four families who memorialized their losses through sculpture. Henry Brooks Adams commissioned perhaps the most famous American cemetery monument of all, the Adams Memorial in Washington, D.C. The bronze figure was designed by Augustus Saint-Gaudens, who became the nation's foremost sculptor. Another innovative bronze monument featured the Milmore brothers, who had worked together as sculptors in the Boston area. Artist Frank Duveneck composed a recumbent portrait of his wife following her early death in Paris; in Rome, the aging William Wetmore Story made an angel of grief his last work as a symbol of his sheer desolation after his wife's death. Through these incredible monuments Mills explores questions like: Why did new forms--many of them now produced in bronze rather than stone and placed in architectural settings--arise just at this time, and how did they mesh or clash with the sensibilities of their era? Why was there a gap between the intention of these elite patrons and artists, whose lives were often intertwined in a closed circle, and the way some public audiences received them through the filter of the mass media? Beyond Grief traces the monuments' creation, influence, and reception in the hope that they will help us to understand the larger story: how survivors used cemetery memorials as a vehicle to mourn and remember, and how their meaning changed over time.

The Winner's Kiss Marie Rutkoski, 2016-03-29 War has begun. Arin is in the thick of it with untrustworthy new allies and the empire as his enemy. Though he has convinced himself that he no longer loves Kestrel, Arin hasn't forgotten her, or how she became exactly the kind of person he has always despised. She cared more for the empire than she did for the lives of innocent people--and certainly more than she did for him. At least, that's what he thinks. In the frozen north, Kestrel is a prisoner in a brutal work camp. As she searches desperately for a way to escape, she wishes Arin could know what she sacrificed for him. She wishes she could make the empire pay for what they've done to her. But no one gets what they want just by wishing. As the war intensifies, both Kestrel and Arin discover that the world is changing. The East is pitted against the West, and they are caught in between. With so much to lose, can anybody really win?

Illuminated Paris S. Hollis Clayson, 2019-05-31 The City of Light. For many, these four words instantly conjure late nineteenth-century Paris and the garish colors of Toulouse-Lautrec's iconic posters. More recently, the Eiffel Tower's nightly show of sparkling electric lights has come to exemplify our fantasies of Parisian nightlife. Though we reflect longingly on such scenes, in *Illuminated Paris*, Hollis Clayson shows that there's more to these clichés than meets the eye. In this richly illustrated book, she traces the dramatic evolution of lighting in Paris and how artists responded to the shifting visual and cultural scenes that resulted from these technologies. While older gas lighting produced a haze of orange, new electric lighting was hardly an improvement: the glare of experimental arc lights—themselves dangerous—left figures looking pale and ghoulish. As Clayson shows, artists' representations of these new colors and shapes reveal turn-of-the-century concerns about modernization as electric lighting came to represent the harsh glare of rapidly accelerating social change. At the same time, in part thanks to American artists visiting the city, these works of art also produced our enduring romantic view of Parisian glamour and its Belle Époque.

Reading the Juggler of Notre Dame Jan M. Ziolkowski, 2022-07-25 In this two-part anthology, Jan M. Ziolkowski builds on themes uncovered in his earlier *The Juggler of Notre Dame and the Medievalizing of Modernity*. Here he focuses particularly on the performing arts. Part one contextualises *Our Lady's Tumbler*, a French poem of the late 1230s, by comparing it with episodes in the Bible and miracles in a wide variety of medieval European sources. It relates this material to analogues and folklore across the ages from, among others, Persian, Jewish and Hungarian cultures. Part two scrutinizes the reception and impact of the poem with reference to modern European and American literature, including works by the Nobel prize-winner Anatole France, professor-poet Katharine Lee Bates, philosopher-historian Henry Adams and poet W.H. Auden. This innovative collection of sources introduces readers to many previously untranslated texts, and invites them to

explore the journey of Our Lady's Tumbler across both sides of the Atlantic. Reading the Juggler of Notre Dame: Medieval Miracles and Modern Remakings will benefit scholars and students alike. The short introductions and numerous annotations shed light on unusual beliefs and practices of the past, making the readings accessible to anyone with an interest in the arts and an openness to the Middle Ages.

Springfield Road Salena Godden,2024-05-02 This is the story of a home. A story rooted in love. The story of a poet born of an Irish jazz musician and a Jamaican go-go dancer, an absent father and a resilient mother. In Springfield Road, Salena Godden evokes an era when oranges seemed bigger and summers were longer, a world of half-penny sweets, free school milk, hand-me-downs and Thatcher's Britain, for those too young to remember and for those old enough to know. For Salena, it was a time for learning that life can be brutal with first betrayals and first losses, but also that there are endless riches to uncover in the world. In equal parts powerful, tender and fearless, Springfield Road shows us where, in a world full of shadows, hope is to be found.

Structured around the principles of time, space and practice, and including a detailed general introduction, the five sections look at: Gothic Histories Gothic Spaces Gothic Readers and Writers Gothic Spectacle Contemporary Impulses. The Gothic World seeks to account for the Gothic as a multi-faceted, multi-dimensional force, as a style, an aesthetic experience and a mode of cultural expression that traverses genres, forms, media, disciplines and national boundaries and creates, indeed, its own 'World'.
