Myanmar's Transition Nick Cheesman, Monique Skidmore, Trevor Wilson, 2012 With the world watching closely, Myanmar began a process of political, administrative and institutional transition from 30 January 2011. After convening the parliament, elected in November 2010, the former military regime transferred power to a new government headed by former Prime Minister (and retired general), U Thein Sein. With parliamentary processes restored in Myanmar's new capital of Naypyitaw, Thein Sein's government announced a wide-ranging reform agenda, and began releasing political prisoners and easing press censorship. Pivotal meetings between Thein Sein and Aung San Suu Kyi led to amendment of the Election Law and the National League for Democracy contesting by-elections in April 2012. The 2011 Myanmar/Burma update conference considered the openings offered by these political changes and media reforms and the potential opportunities for international assistance. Obstacles covered include impediments to the rule of law, the continuation of human rights abuses, the impunity of the Army, and the failure to end ethnic insurgency.

Understanding World Regional Geography Erin H. Fouberg, William G. Moseley, 2017-12-27 Understanding World Regional Geography (UWRG) is a course designed to teach students to think and apply geographic concepts long after the course is over. Author Erin Fouberg draws from her expertise in geography education and research in student learning to create a product that has a strong pedagogical framework designed to engage students and deepen their understanding of the world by having them “DO” Geography. UWRG includes features that help students learn to read cultural and physical

landscapes, ask geographic questions, apply geographic concepts, and make connections. It integrates 25 threshold concepts and teaches students how geographers apply these concepts and asks them to apply these concepts themselves. This enables them to grasp the complexities of the world and provides them with the knowledge and thinking skills necessary to understanding it. UWRG is the first introductory course to integrate ESRI ArcGIS Online thematic maps, enabling students to engage with course materials, see patterns, and answer geographic questions.

Capital Cities: Varieties and Patterns of Development and Relocation Vadim Rossman, 2018-03-12 The issue of capital city relocation is a topic of debate for more than forty countries across the world. In this first book to discuss the issue, Vadim Rossman offers an in-depth analysis of the subject, highlighting the global trends and the key factors that motivate different countries to consider such projects, analyzing the outcomes and drawing lessons from recent capital city transfers worldwide for governments and policy-makers. Capital Cities studies the approaches and the methodologies that inform such decisions and debates. Special attention is given to the study of the universal patterns of relocation and patterns specific to particular continents and mega-regions and particular political regimes. The study emphasizes the role of capital city transfers in the context of nation- and state-building and offers a new framework for thinking about capital cities, identifying six strategies that drive these decisions, representing the economic, political, geographic, cultural and security considerations. Confronting the popular hyper-critical attitudes towards new designed capital cities, Vadim Rossman shows the complex motives that underlie the proposals and the important role that new capitals might play in conflict resolution in the context of ethnic, religious and regional rivalries and federalist transformations of the state, and is seeking to identify the success and failure factors and more efficient implementation strategies. Drawing upon the insights from spatial economics, comparative federalist studies, urban planning and architectural criticism, the book also traces the evolution of the concept of the capital city, showing that the design, iconography and the location of the capital city play a critical role in the success and the viability of the state.

Myanmar's Changing Political Landscape Makiko Takeda, Chosein Yamahata, 2023-04-05 Myanmar has faced numerous divisions that hinder its democratization and peacebuilding processes since emerging out of decades of military dictatorship. The coup d'état in 2021 terminated Myanmar's limited and nascent democratization under the civilian leadership of the National League for Democracy (NLD); not only did the coup regime resurface old struggles, but also created new ones. Against the backdrop of Myanmar's changing political landscapes from military to quasi-civilian to civilian rule in 2016, and back to military rule in 2021, the book discusses the various forms of interconnected struggles, both old and new. In this process, the contributed chapters come together to highlight the changing dynamics of stakeholders, relations between agents and beneficiaries, and the generated evolutionary processes in Myanmar's democratization and its reversal. This book brings an even mix of researchers both within and outside of Myanmar to critically discuss how different agents and their interactions, in the form of center-periphery as well as state-non-state relations, continuously shape today's political landscape. Its interdisciplinary composition also invites readers from various backgrounds to grasp with engaged research that identifies the various challenges and addresses ways in which to facilitate change from local and international perspectives.

Language, Education and Nation-building P. Sercombe, R. Tupas, 2014-09-02 This volume tracks the complex relationships between language, education and nation-building in Southeast Asia, focusing on how language policies have been used by states and governments as instruments of control, assimilation and empowerment. Leading scholars have contributed chapters each representing one of the countries in the region.

A Diplomat's Handbook for Democracy Development Support Jeremy Kinsman, Kurt Bassuener, 2016-10-17 In recent decades, the conduct of international relations among and within states has been very considerably altered. Today, the content of these relations relies as much on international professional and civil society networks as it does on state-to-state transactions. The role of the Internet has been fundamental in widening communications opportunities for citizens and civil society, with a profound effect on democracy transition. In consequence, diplomacy has taken on a much more human and public face. Twenty-first century ambassadors and diplomats are learning to engage with civil societies, especially on the large themes of democratic change — an engagement that is often resisted by authoritarian regimes. *A Diplomat's Handbook for Democracy Development Support* presents a wide variety of specific experiences of diplomats on the ground, identifying creative, human and material resources. More broadly, it is about the policy-making experience in capitals, as democratic states try to align national interests and democratic values. The Handbook also documents the increasingly prominent role of civil society as the essential building block for successful democratic transitions, with each case study examining specific national experiences in the aspiration for democratic and pluralistic governance, and lessons learned on all sides — for better

or for worse. While each situation is different — presenting unique, unstructured problems and opportunities — a review of these experiences bears out the validity of the authors' belief in the interdependence of democratic engagements, and provides practitioners with encouragement, counsel and a greater capacity to support democracy everywhere.

Spiderweb Capitalism Kimberly Kay Hoang, 2024-04-23 In 2015, an anonymous source leaked the so-called Panama Papers, 11.5 million documents detailing financial and attorney-client information and connecting over 140 ultra-wealthy individuals across 50 countries to offshore companies in 21 tax havens. Journalists and scholars have attempted to chart these complex networks in the wake of various scandals but have learned very little. The focus on high-profile cases of egregious theft leaves a shroud of uncertainty over the mechanics behind the invisible, mundane networks of people who facilitate illicit activities by conducting transactions across multiple sovereigns. *Playing in the Gray* focuses on the constant and quiet movement of money through offshore shell corporations, the primary motor of global capital. Hoang takes a deep-dive into the emerging markets of Vietnam and Myanmar. Over the course of two years, she travelled more than 350,000 miles to conduct ethnographic observations and interviews with 300 individuals who facilitate the movement of capital around the world. Her research subjects include private wealth managers, fund managers, chairpeople, local entrepreneurs, high-level executives, lawyers, bankers, auditors, and company secretaries, each playing an essential role in circulating concealed capital through global markets. She draws on this data to develop a new framework for understanding what she calls spiderweb capitalism, which she defines as a system that features a complex web of subsidiaries that are interconnected across multiple sovereigns and are virtually impossible to quantify. She argues that legal and illegal activity are in fact deeply connected in this web and provides an account of how financial elites make markets in the new globalized economy--
