How to Draw Anime Perfect Hair Meru ILLUSTRATIONS,2020-12-08 Anime hair is drawn using thick, marked sections rather than individual strands. This can result in spiky, variable-looking hair, or hair that appears smooth and straight. Drawing anime hair may seem complicated at first, but by parting the hair into different sections and working one step at a time, it is quite simple! Before you begin, decide if you want to draw short or long anime hair since the process is a little different depending on the length. Hair is a bit of a tedious element, because it is like a substance that can take many forms. That is why manga artists have developed a special method to simplify hair. In manga or anime, you can draw hair as a mass or weave. This way you can draw it very quickly, with an exaggerated shading that covers up the lack of detail. In this tutorial I will teach you how to draw various manga hair styles: straight hair, wavy hair, with pigtails and short hair. I will also explain the method it is based on, so that you can draw your own anime hairstyles from scratch.

While special effects gained prominence, the raw and gritty power of live combat emerged as an audience favorite, spawning Asian stars Bruce Lee and Jackie Chan and martial arts-trained stars Chuck Norris and Steven Seagal.
