

Trastorno Limite De La Personalidad Wikipedia

Mariela Andrea Borgo

La psicosis del trastorno límite de la personalidad Diego E. Cohen,2023-05-30 La psicosis del trastorno límite de la personalidad (TLP), ofrece al lector, una visión actualizada del episodio psicótico agudo que puede corresponderle al TLP. Se inicia con la propia investigación del autor, que fue parte de su tesis doctoral para adentrarse en la historia y en las investigaciones más modernas acerca de esta apasionante y controvertido tema. El objetivo es precisar criterios de diagnóstico de la psicosis aguda no tóxicas de los pacientes limítrofes. Con esa finalidad el autor realiza una extensa revisión de la relaciones entre TLP y psicosis y el probable trastorno de la personalidad que le corresponda al Babel de las psicosis agudas desde la visión de pioneros argentinos, hasta las investigaciones de la psiquiatría americana y continental europea. Los lectores se pueden beneficiar de un estudio en profundidad que discurre por dos vías: la investigación empírica con un grupo de pacientes hospitalarios y el intento de unificación de las psicosis agudas no tóxicas, intentando estudiar la personalidad subyacente con la finalidad de prevenirlas y tratarlas en forma más efectiva. Es por eso que en la parte teórica se aborda el complejo problema del alto riesgo para el desarrollo de psicosis con la finalidad de determinar si algunos de esos pacientes evolucionarán a un estado psicótico con un solo episodio que forme parte del TLP o se encaminaran a psicosis más severas.

Manual para entender a Mariela Mariela Andrea Borgo,2018-12-28 -¡Doctor, es urgente!, ¿puede dejar lo que está haciendo y venir, por favor? Es la Marielita Borgo, que otra vez intentó suicidarse. Gracias. Lo espero.La enfermera telefoneaba desde la guardia a mi médico, mientras yo me iba despertando de un prolongado sueño. No tenía voz, sí el esófago y el estómago quemados. Recuerdo que me asusté y lloré por seguir viva, pero a la vez me juré que, si sobrevivía, ya nunca más buscaría quitarme la vida. Hallaría la ayuda que fuera necesaria, ya que, evidentemente, tenía que vivir. El trastorno bipolar, también conocido como trastorno afectivo bipolar (TAB) y antiguamente como psicosis maníaco-depresiva (PMD), es un conjunto de trastornos del ánimo que se caracteriza por fluctuaciones notorias en el humor, el pensamiento, el comportamiento, la energía y la capacidad de realizar actividades de la vida diaria. La persona afectada por este trastorno alterna su estado de ánimo entre la manía o hipomanía —fase de alegría, exaltación, euforia y grandiosidad— y la depresión —con tristeza, inhibición e ideas de muerte—. Mariela Andrea Borgo es Licenciada en Comunicación Social y se ha dedicado a la docencia en su ciudad natal, Monte Caseros, Corrientes. En esta obra sincera, cruda y amena, destinada a personas

afectadas por esta enfermedad mental —y a aquellas que las aman—, cuenta su experiencia como paciente de trastorno bipolar. Revela a través de las vicisitudes emocionales de su vida cómo, con el tratamiento médico y psicológico interdisciplinario adecuado, sumado a un entorno social favorable, es posible para un bipolar vivir con alegría y estabilidad.

TARTAMUDEZ INFANTIL Y JUVENIL (COMPRENSIÓN, PREVENCIÓN Y TRATAMIENTO) Eduardo Gallego Calvo, 2019-12-05 Dirigido a quienes tartamudean, a los padres de niños con disfluencias y a los profesionales que trabajan con personas disfémicas. Este libro ofrece una explicación del porqué de la tartamudez, aportando una serie de reflexiones, pautas, ejercicios y medidas para prevenirla y tratarla, proponiendo la existencia de una relación de interdependencia entre los factores neurofisiológicos y psicoevolutivos, así como un enfoque que permita abrir nuevas expectativas terapéuticas y de evolución personal.\r\nEn el texto se revisan los tratamientos convencionales de la tartamudez, proponiendo la existencia de un «perfil» psicológico/social característico de las personas que tartamudean, derivado de las numerosas similitudes, tanto a nivel de la personalidad y el carácter como de la identidad, consecuencia de determinados déficits madurativos.\r\nResaltando la importancia del período comprendido entre los 0 y los 3 años de edad para la adquisición y desarrollo del lenguaje, se aborda la necesidad de una estimulación equilibrada, describiendo la importancia de las podas sinápticas para la conformación de un aparato multisensorial eficiente, entendiendo que la tartamudez deriva de la persistencia de factores emocionales propios de la primera infancia.\r\nLa persona que tartamudea no cesa en su intento de «vivir en espejo» con los demás, centrando su atención en ser aceptada o, mejor, en evitar sentirse rechazada, haciendo de ello su verdadero leitmotiv.\r\nA la vista de la escasez y desfase de los estudios e investigaciones existentes sobre la tartamudez, se expone la necesidad de realizar estudios epidemiológicos amplios y rigurosos, así como de investigar a fondo algunos aspectos claves de la misma.\r\n

Rostros de madera Juliana Lanza, 2016-12-01 Las personas expuestas desde su infancia a múltiples eventos traumáticos y/o a vínculos disfuncionales (o traumáticos) presentan una sintomatología que está entramada en su personalidad y se manifiesta como un mosaico complejo de fragmentos diversificados. Sus manifestaciones clínicas son coincidentes con cuadros que incluyen desregulación emocional y disociación de origen traumático. El trabajo inicial con el Mapa de Estabilización (PIE-TC/TLP) integra en un modelo de espectro amplio a la educación sobre trauma y diferentes recursos terapéuticos, con psicoterapia EMDR, propiciando registros escalonados y progresivos de intervención acordes a la conceptualización de caso.

Las ocasiones Rubén Lardín, 2025-06-23 Sinopsis: una persona de Barcelona se muda a Madrid. Fin. El ciudadano Rubén Lardín escribe sobre cine y costumbres, conduce el mejor podcast de España (La mano contra el sol), traduce tebeos, novelas y cuentos, murmura, pasea, visita a sus amigos de Logroño. En suma, PACE. Agradecido como un perro, se complace en invitar a ustedes a acompañarlo en este jaleo que es vivir y, en concreto, en este vagar montuno tras del oscuro significado

de la dicha.

Trastornos de la Personalidad Fuente Wikipedia,2013-09 Fuente: Wikipedia. Paginas: 33. Capítulos: Trastorno límite de la personalidad, Trastorno de pánico, Acosador, Psicopatía, Trastorno antisocial de la personalidad, Trastorno esquizoide de la personalidad, Historia del trastorno límite de la personalidad, Trastorno de la personalidad por evitación, Trastorno de personalidad, Trastorno histriónico de la personalidad, Comportamiento pasivo-agresivo, Trastorno paranoide de la personalidad, Trastorno obsesivo-compulsivo de la personalidad, Trastorno esquizotípico de la personalidad, Trastorno narcisista de la personalidad, Trastorno de la personalidad por dependencia. Extracto: El trastorno límite de la personalidad, o borderline, también llamado limitrofe o fronterizo, abreviado como TLP, es actualmente definido por el DSM-IV (DSM-IV 301.83) como un trastorno de la personalidad que se caracteriza primariamente por desregulación emocional, pensamiento extremadamente polarizado y relaciones interpersonales caóticas. El perfil global del trastorno también incluye típicamente una inestabilidad generalizada del estado de ánimo, de la autoimagen y de la conducta, así como del sentido de identidad, que puede llevar a periodos de disociación. Se incluye dentro del grupo B de trastornos de la personalidad, los llamados dramático-emocionales. Es, con mucho, el más común de los trastornos de la personalidad. El término borderline para referirse al trastorno está ampliamente extendido, incluso fuera del mundo anglosajón. Las razones son de índole histórica (véase Apartado I), debido a la popularización del concepto en psiquiatría por C. H. Hughes y posterior adopción por el psicoanalista Adolph Stern en 1938 para caracterizar afecciones psiquiátricas que superaban la neurosis pero que no alcanzaban la psicosis (muchos autores califican los síntomas del TLP como pseudopsicóticos). Bajo esta concepción se establecía un continuo gradual entre uno y otro extremo, situándose el trastorno en el...
