LALKITAB in Vedic Astrology Saket Shah,2020-02-26 Lal Kitab, originally published in urdu language, enshrines such effective astrological principles and remedial measures that it has rightly been termed as The Wonder Book of Astrology. The science of palmistry too has been explained in such an exquisite manner that each of the 42 divisions of the human brain have been related to the different houses of a man's birth chart in such a scientific manner that the sketch of the human

brain reflects accurately on the lines of the palm. On the basis of these lines of the palm one can draw the actual horoscope of an individual and can do the placement of planets in various houses of the birth chart. The date of birth and the birth ascendant can be found out by reading the lines and mounts of the palm, which means that an individual's accurate birth chart can be drawn by seeing the lines of his palm. Similarly, by studying the different aspects of a man's residential house his birth chart can be accurately prepared on the basis of the sutras explained in the Lal Kitab
