**Digital Food** Tania Lewis, 2020-02-20 Tania Lewis offers the first critical account of the impact of digital information, media, and communication technologies on the topic of food. Lewis critically analyzes how our relationship to food consumption, production, and politics is being re-mediated through digitally connected electronic devices, practices and content. By drawing together the world of food and the digital, the book speaks to a number of pressing contemporary themes including the tensions around digital engagement in increasingly commercialized spaces; the changing nature of politics in a social media context; the growing naturalization of digital devices and related practices of data monitoring; and the role and impact of digitization on social relations. At the forefront of critical new research, and written with a student readership in mind, this text is essential for scholars interested in media studies, cultural studies, food studies, and cultural geography.

Clean plates don't lie. —Dan Barber Great chefs are not self-effacing or meek—there's no room for indecision in the professional kitchen, where the slightest stumble can send an entire restaurant into the weeds. The Chef Says invites readers to the ultimate food-lover's dinner party, where cooks from ancient Greece rub shoulders and talk shop with today's rising stars. These unruly culinarians compliment, compete, and disagree with one another as they discuss childhood and training, taste preferences and trends, the quest for perfection, and the grueling but exhilarating business of opening a restaurant. *A Time of Change in Hospitality Leadership* Chris Sheppardson,2020-10-16 This book is an introduction to the challenge of modern leadership. Leadership has changed from the traditional perspective to be one which is far broader based, with more expected and asked. Leaders today need to consider their stakeholders, their employees, the communities and society in which they operate, the environment, culture, and trends. The world has changed so much in the last ten years and many are lagging behind in their understanding. At the same time, we are about to witness a change in generations and the question arises as to whether industry is ready to empower and pass on the baton of leadership? The main goals are to help students to understand what will be asked of them as they become leaders. It is aimed to challenge perceptions, thinking, and knowledge. Also, it aims to prepare students to identify how leadership has changed people's lives and help develop critical thinking about the role of leaders in business and in society.

**The Cultivation of Taste** Christel Lane, 2014-02-14 After many decades, if not centuries, of neglect of fine food and high-level restaurants in Britain, we are seeing a massive explosion of interest in food, cooking, and dining out. Christel Lane's book charts the process of this transformation and examines top contemporary restaurants and their chefs. The Cultivation of Taste presents a comparative study of Michelin-starred restaurants in Britain and Germany, focusing on two countries without an indigenous haute cuisine but which nevertheless have developed internationally reputed fine-dining sectors, and comparing their development to the fine-dining culture in France. Written from a sociological perspective, chefs are portrayed as part of a complex network, in their relationships with their employees, their customers, gastronomic critics, suppliers of food, and even their financiers. It will appeal to academics in the areas of economic and cultural sociology, and those with an interest in small entrepreneurial firms and their work relations, but also to all those who have an interest in fine-dining restaurants and the chef patrons at the centre of them. The book draws on a large number of interviews with renowned chefs, diners, and Michelin inspectors to provide an unprecedented insight into what goes on in Michelin-starred restaurants—what makes their chefs tick, intrigues their critics, and beguiles or annoys their customers. Restaurants are viewed not simply as businesses but as cultural enterprises that shape our taste in food, ambience, and sociality.

Whether you are a long-term luxury hotel addict, or just fantasising about a visit to one of the world's great hotels, this book is for you. This book features stories about great, grand and famous hotels sourced from history, legend and the occasional snippet of gossip. Take a peek inside and discover a treasure trove of famous or forgotten anecdotes. See the dramas unfold in lobbies, dining rooms, bars and ballrooms, or behind the closed doors of guest rooms and Presidential Suites. Marvel at those who made these hotels what they are: daring financiers, visionary owners, inventive architects, cutting-edge designers, devoted hoteliers and renowned chefs. Remember the great, grand and famous celebrity guests and meet the new breed of visionaries who are creating the great hotels of the future. Visit historic hotels, including The Ritz, Paris; the Waldorf-Astoria, New York; the Beverly Hills Hotel, Los Angeles; the Savoy, London; the Hassler, Rome; The Peninsula, Hong Kong; Raffles, Singapore; Mena House, Cairo; Taj Lake Palace, Udaipur; Chateau Lake Louise, Alberta; the Cipriani, Danieli and Gritti Palace, Venice; Reid's Palace, Madeira; and the Baur au Lac, Zurich, alongside modern masterpieces such as The Burj al Arab, Icehotel and other futuristic hotels. The book is intended to give the traveller a better understanding of, and greater insight into, the hotels they admire and love. It is also a reference book for the passionate hotel professional and provides knowledge for young hoteliers, helping them to understand the history and the development of their industry. Combining four years of research, assisted by many students in various hotel schools around the world, and with contributions by six travel writers, it is hoped this book will entice more people to seek out the world's great, grand and famous hotels, and to stay in them for an unforgettable experience, not just as a place to spend the night.

Animal Subjects 2.0 Jodey Castricano, Lauren Corman, 2016-12-10 *Animal Subjects: An Ethical Reader in a Posthuman World* (WLU Press, 2008) challenged cultural studies to include nonhuman animals within its purview. While the “question of the animal” ricochets across the academy and reverberates within the public sphere, *Animal Subjects 2.0* builds on the previous book and takes stock of this explosive turn. It focuses on both critical animal studies and posthumanism, two intertwining conversations that ask us to reconsider common sense understandings of other animals and what it means to be human. This collection demonstrates that many pressing contemporary social problems—how and why the oppression and exploitation of our species persist—are entangled with our treatment of other animals and the environment. Decades into the interrogation of our ethical and political responsibilities toward other animals, fissures within the academy deepen as the interest in animal ethics and politics proliferates. Although ideological fault lines have inspired important debates about how to address the very material concerns informing these theoretical discussions, *Animal Subjects 2.0* brings together divergent voices to suggest how to foster richer human-animal relations, and to cultivate new ways of thinking and being with the rest of animalkind. This collection demonstrates that appreciation of difference, not just similarity, is necessary for a more inclusive and compassionate world. Linking issues of gender, disability, culture, race, and sexuality into species, *Animal Subjects 2.0* maps vibrant developments in the emergent fields of critical animal studies and posthumanist thought.

*Culinary Linguistics* Cornelia Gerhardt, Maximiliane Frobenius, Susanne Ley, 2013-07-04 Language and food are universal to humankind. Language accomplishes more than a pure exchange of information, and food caters for more than mere subsistence. Both represent crucial sites for socialization, identity construction, and the everyday fabrication and perception of the world as a meaningful, orderly place. This volume on *Culinary Linguistics* contains an introduction to the study of food and an extensive overview of the literature focusing on its role in interplay with language. It is the only publication fathoming the field of food and food-related studies from a linguistic perspective. The research articles assembled here encompass a number of linguistic fields, ranging from historical and ethnographic approaches to literary studies, the teaching of English as a foreign language, psycholinguistics, and the study of computer-mediated communication, making this volume compulsory reading for anyone interested in genres of food discourse and the linguistic connection between food and culture. The Global Architect Donald McNeill, 2009-06-02 *The Global Architect* explores the increasing significance of globalization processes on urban change, architectural practice and the built environment. In what is primarily a critical sociological overview of the current global architectural industry, Donald McNeill covers the star system of international architects who combine celebrity and hypermobility, the top firms, whose offices are currently undergoing a major global expansion, and the role of advanced information technology in expanding the geographical scope of the industry.

Organizational Behaviour and Work Fiona Wilson, 2010-01-21 This edition provides a critical approach to the study of
