Christ and the Critics Hilarin Felder, 1924

Did Jesus Rise from the Dead? Matthew Levering, 2019-02-07 The Resurrection of Jesus is at the very root of Christian faith; without belief in Jesus Christianity dies. In this thought-provoking work, Matthew Levering defends the credibility of the claim that Jesus rose from the dead. Drawing on the work of N. T. Wright, Levering shows that the historical evidence vindicates this assumption, and reveals that the Gospels were backed by eyewitnesses who were living and telling their stories even during the time of the writing of the Gospels. The author also emphasises the importance of evaluating the Old Testament to validate Jesus' Resurrection. By highlighting the desire—both in the ancient world and now—to make the Resurrection more comprehensible by spiritualizing it, Levering argues that the fact that the disciples themselves did not do this provides a further clue to reliability. Finally, the author addresses the question of why Jesus does not continue to show himself in his glorified flesh after his resurrection, which is often seen as a strong case for scepticism. However, he shows that Jesus' entire mission is predicated upon helping us to avoid cleaving to the present world over God. He is leading us to where he is—the kingdom of God, the beginning of the new creation at the Father's right hand. By developing these arguments for the historical reality of Jesus' Resurrection, this ground-breaking study expertly draws together historical and theological reasons for believing that Jesus' Resurrection happened.

Words of the Living God Pim Valkenberg, 2000 The aim of this book is to find an answer to the question: how did St. Thomas Aquinas (1224/5 - 1274) use Holy Scripture in his theology? Distinguishing between a quantitative method for determining the place of Scripture in a theological text, and a qualitative method for determining its functions, the author of this study concludes that Aquinas does not only use Scripture in several functions in his theology, but first and foremost regards Scripture as source and framework of theology itself. While an analysis of Aquinas' texts on the resurrection of Christ shows the functioning of Scripture as a factor within the text, but also as a precondition for the text, a series of comparisons between different subject matters, literary genres and sources show that the importance of Scripture is a characteristic of Aquinas' theology in its entirety, even at places where Scripture is not quoted at all. This conclusion does not only show the ecumenical importance of Aquinas' theology, but also the relevance of his theological manner of reading Scripture for modern theologians.

Arthur Hugh Clough Michael Thorpe,2013-01-11 The Critical Heritage gathers together a large body of critical sources on major figures in literature. Each volume presents contemporary responses to a writer's work, enabling students and researchers to read the material themselves.

The Doubt of the Apostles and the Resurrection Faith of the Early Church J. D. Atkins,2019-08-02 Why do the Gospels depict the risen Jesus as touchable and able to eat? J. D. Atkins challenges the common view that Luke 24 and John 20 are apologetic responses to docetism by re-examining the redaction of the appearance stories in light of their reception among early docetists and church fathers.--Page 4 of cover.

A Critical and Historical Enquiry Into the Origin of the Third Gospel P. C. Sense,1901

The Return of Glory Neville,2022-03-10 In books, radio, TV, recordings, and lectures, Neville revealed the law of imagining—creating wishes fulfilled by using certain imaginal techniques. The year 1959 added a new dimension: six major visions told of the scriptural promises to transform every man into God, eventually, and the signs it has been completed.

A critical and historical enquiry into the origin of the Third gospel, by P.C. Sense Bernard J. Sage,1901

The Resurrection of Jesus Dale C. Allison, Jr.,2021-03-11 The earliest traditions around the narrative of Jesus' resurrection are considered in this landmark work by Dale C. Allison, Jr, drawing together the fruits of his decades of research into this issue at the very core of Christian identity. Allison returns to the ancient sources and earliest traditions, charting them alongside the development of faith in the resurrection in the early church and throughout Christian history. Beginning with historical-critical methodology that examines the empty tomb narratives and early confessions, Allison moves on to consider the resurrection in parallel with other traditions and stories, including Tibetan accounts of saintly figures being assumed into the light, in the chapter "Rainbow Body". Finally, Allison considers what might be said by way of results or conclusions on the topic of resurrection, offering perspectives from both apologetic and sceptical viewpoints. In his final section of "modest results" he considers scholarly approaches to the resurrection in light of human experience, adding fresh nuance to a debate that has often been characterised in overly simplistic terms of "it happened" or "it didn't".
