Robert C. Clark

Bright Lights, Big City Jay McInerney, 2011-08-10 With the publication of *Bright Lights, Big City* in 1984, Jay McInerney became a literary sensation, heralded as the voice of a generation. The novel follows a young man, living in Manhattan as if he owned it, through nightclubs, fashion shows, editorial offices, and loft parties as he attempts to outstrip mortality and the recurring approach of dawn. With nothing but goodwill, controlled substances, and wit to sustain him in this anti-quest, he runs until he reaches his reckoning point, where he is forced to acknowledge loss and, possibly, to rediscover his better instincts. This remarkable novel of youth and New York remains one of the most beloved, imitated, and iconic novels in America.

Bright Lights, Big City Jay McInerney, 1992 It is six am, the party is over and reality is threatening to intervene in the power-fuelled existence of a young man who should have everything but who might just end up with nothing at all. His wife has left him, his job is in jeopardy, and his social life is about to end.

Bright Lights, Big City Jay McInerney, 2008 Une jeune homme déambule dans le New York des années 1980, ce New York flamboyant qui semble ne vivre que la nuit. Il est vérificateur dans un journal prestigieux et son travail l'ennuie, l'amour de sa vie vient de le quitter. Dans le dédale de Manhattan, dans la chaleur des clubs, dans l'ivresse des drogues et des excès en tout genre, il cherche une issue qui ressemble à l'oubli.

Literature and the Peripheral City Jason Finch, Markku Salmela, 2015-05-27 Cities have always been defined by their centrality. But literature demonstrates that their diverse peripheries define them, too: from suburbs to slums, rubbish dumps to nightclubs and entire failed cities. The contributors to this collection explore literary urban peripheries through readings of literature from four continents and numerous cities.

Landscapes of Power Sharon Zukin, 1993-03-12 The momentous changes which are transforming American life call for a new exploration of the economic and cultural landscape. In this book Sharon Zukin links our ever-expanding need to consume with two fundamental shifts: places of production have given way to spaces for services and paperwork, and the competitive edge has moved from industrial to cultural capital. From the steel mills of the Rust Belt, to the sterile malls of suburbia, to the gentrified urban centers of our largest cities, the creative destruction of our economy--a process by which a way of life is both lost and gained--results in a dramatically different landscape of economic power. Sharon Zukin probes the depth and diversity of this restructuring in a series of portraits of changed or changing American places. Beginning at River Rouge, Henry Ford's industrial complex in Dearborn, Michigan, and ending at Disney World, Zukin demonstrates how powerful interests shape the spaces we inhabit. Among the landscapes she examines are steeltowns in West Virginia and Michigan, affluent corporate suburbs in Westchester County, gentrified areas of lower Manhattan, and theme parks in Florida and California. In each of these case studies, new strategies of investment and employment are filtered through existing institutions, experience in both production and consumption, and represented in material products, aesthetic forms, and new perceptions of space and time. The current transformation differs from those of the past in that individuals and institutions

now have far greater power to alter the course of change, making the creative destruction of landscape the most important cultural product of our time. Zukin's eclectic inquiry into the parameters of social action and the emergence of new cultural forms defines the interdisciplinary frontier where sociology, geography, economics, and urban and cultural studies meet.

Contemporary American Fiction Kenneth Millard, 2000-09-21 Contemporary American Fiction provides an introduction to American fiction since 1970. Offering substantial and detailed interpretations of more than thirty texts by thirty different writers, Millard combines them in an innovative critical structure designed to promote debates on cultural politics and aesthetic value. The book is the first of its kind to offer a wide-ranging survey of recent developments in the fiction of the United States. Recent novels by established writers such as John Updike and Philip Roth are analysed alongside the fiction of younger writers such as Gish Jen and Sherman Alexie. The book's innovative structure encourages new ways of thinking about how American writers might be configured in relation to each other, while providing an analysis of how contemporary fiction has responded to changes in central areas of American life such as the family, the media, technology, and consumerism. Contemporary American Fiction is a substantial critical introduction to some of the most exciting fiction of the last thirty years, an eclectic and thorough advertisement for the extraordinary vitality of American fiction at the end of the twentieth century. This is an excellent introduction to the subject for undergraduate students of modern American literature.

American Literary Minimalism Robert C. Clark, 2014 Many of the authors Robert Clark discusses have yet to be recognized for their individual contributions to the emergence and continuing vitality of the movement. School of Images is organized based on chronology and lines of influence. In the introduction, Clark offers a definition of the mode and then describes its early stages. He then explores six works that reflect the core characteristics of the mode: Ernest Hemingway's *In Our Time*, Raymond Carver's *Cathedral*, Susan Minot's *Monkeys*, Jay McInerney's *Bright Lights*, *Big City*, Sandra Cisneros's *Caramelo*, and Cormac McCarthy's *The Road*. In the conclusion, he discusses contemporary authors and filmmakers whose work represents the ongoing evolution of the category-- Provided by publisher.

The Theater Will Rock Elizabeth L. Wollman, 2009-11-10 A much-needed study of the impact of rock music on the musical theater and its resulting challenges, complexities, failures, and successes. Anyone interested in Broadway will learn a great deal from this book. ---William Everett, author of *The Musical: A Research Guide to Musical Theatre* As Wollman

weaves her historical narrative, she compellingly returns to . . . the conflict between the aesthetics and ideologies of rock music and the disciplined and commercial practices of the musical stage. ---Theatre Research International This well-written account puts the highs and lows of producing staged rock musicals in New York City into perspective and is well worth reading for the depth of insight it provides. ---Studies in Musical Theatre The tumultuous decade of the 1960s in America gave birth to many new ideas and forms of expression, among them the rock musical. An unlikely offspring of the performing arts, the rock musical appeared when two highly distinctive and American art forms joined onstage in New York City. The Theater Will Rock explores the history of the rock musical, which has since evolved to become one of the most important cultural influences on American musical theater, and a major cultural export. Despite the genre's influence and fame, there are still some critics who claim that the term "rock musical" is an oxymoron. The relationship between rock and the musical theater has been stormy from the start, and even the comparatively recent success of *Rent* has done little to convince theater producers that rock musicals are anything but highly risky ventures. Elizabeth L. Wollman explores the reasons behind these problematic connections and looks at the socioeconomic forces that underlie aesthetic decisions. She weighs the influence on the rock musical by mass media, sound, and recording technology, and the economic pressures that have affected New York theater in general over the past three decades. Finally, Wollman offers a meditation on the state of the musical, its relation to rock, and, ultimately, its future. Packed with candid commentary by members of New York's vibrant theater community, *The Theater Will Rock* traces the rock musical's evolution over nearly fifty years, in popular productions such as *Hair*, *The Who's Tommy*, *Jesus Christ Superstar*, *The Rocky Horror Picture Show*, *Little Shop of Horrors*, *Rent*, and *Mamma Mia!*—and in notable flops such as *The Capeman*. Elizabeth L. Wollman is Assistant Professor of Music at Baruch College of the City University of New York.

Literature of New York Sabrina Fuchs-Abrams, 2020-07-13 *Literature of New York* is the first collection of critical essays to look at historical and contemporary images of New York through an examination of works of literature by New York writers about New York. New York City is a study in contradictions; it offers at once a sense of possibility, cultivation, self-realization and a fear of corruption, decay, and despair. The literature of New York is representative of American national identity and of the unique nature of the metropolitan, urban experience. The essays are arranged chronologically to reflect the changing significance of the city in relation to various movements in American literary and cultural history. It includes essays on the relation of urban public space to various editions of Walt Whitman's *Leaves of Grass*; the theme of surveillance in the literature of New York by Herman Melville, Edith Wharton, and Ann Petry; fear of the cultural Other within modern New York in Henry James' *The Jolly Corner*; use of the setting of New York City to emphasize both the dynamic energy and increasing anxiety of the modern American cityscape in Dos Passos' *Manhattan Transfer* (1925); the satiric portrayal of New York society in the 1920s and 30s in Dorothy Parker's recently collected stories and sketches; the response to post-WWII New York City in fictionalized autobiography in the personal narratives of Audre Lorde and Diane di Prima; the poetics of second generation New York School poet Ted Berrigan in relation to his predecessors; the representation of New York in postmodern fiction, depicting at once a sense of loss at the inability to return to the old neighborhood of the past in Don DeLillo's *Cosmopolis* and the possibility of reasserting order and meaning amidst the chaos and terror of post-9/11 New York in Jay McInerney's *The Good Life* (2006). Whether expressing nostalgia for the past, hope for the future, fear of the unknown, or the possibility of self-actualization, the literature of New York continues to draw inspiration from its locale and is as complex, contradictory, and creative as the City itself. Contributors include Karen Karbiener, Mark James Noonan, Jonathan Readey, Heidi E. Bollinger, Sabrina Fuchs-Abrams, Kirsten Bartholomew Ortega, Michael Angelo Tata, Jessica Maucione, and

Sonia Baelo-Allué.
