Outlander and Lord John as Crime Fiction Erin E. MacDonald, 2025-01-13 Fans across the globe are familiar with Diana Gabaldon's bestselling Outlander series and the Starz television series that adapts it. Combining science fiction time travel and historical romance, the Outlander universe has captivated millions with its detail and complexity. However, few readers or viewers realize how large an influence the mystery genre has had on Gabaldon's plots, characters, and writing style. Her Lord John series of novels and short stories is obviously rooted in the crime fiction tradition, although it doesn't play by all of the traditional generic rules. Even the larger Outlander novels, though, contain at least one mystery in every book. This inclusion of the murder-mystery and other crimes is no accident: the author has stated her love of the genre and her deliberate use of it many times. This collection of scholarly essays delves into the many connections between the world of Outlander and the world of crime fiction. It analyzes in depth, for the first time, the ways that crime and punishment, vigilante justice, and murder and mystery are represented in both the Outlander and Lord John series. Moving beyond the stereotypical romantic focus, this book demonstrates the variety and complexity of Gabaldon's universe.

Spanish Women Authors of Serial Crime Fiction Inmaculada Pertusa-Seva, Melissa A. Stewart, 2020-09-23 With its focus on recent detective series featuring female investigators, this collection analyzes the authors' treatment of current social, political and economic problems in Spain and beyond, in addition to exploring interrelations between gender, globalization, the environment and technology. The contributions here reveal the varied ways in which the use of a series allows for a deeper consideration of such issues, in addition to permitting the more extensive development of the protagonist investigator and her reactions to, and methods of, dealing with personal and professional challenges of the twenty-first century. In these stories, the authors employ strategies that break with long-standing conventions, developing crime fiction in unexpected ways, incorporating elements of science fiction, the supernatural, and the historical novel, as well as varied geographical settings (small towns, provincial cities, and rural communities) beyond the urban environment, all of which contributes to the reinvigoration of the genre.

Popular Fiction Ken Gelder, 2004-12-17 In this important book, Ken Gelder offers a lively, progressive and comprehensive account of popular fiction as a distinctive literary field. Drawing on a wide range of popular novelists, from Sir Walter Scott and Marie Corelli to Ian Fleming, J. K. Rowling and Stephen King, his book describes for the first time how this field works and what its unique features are. In addition, Gelder provides a critical history of three primary genres - romance, crime fiction and science fiction - and looks at the role of bookshops, fanzines and prozines in the distribution and evaluation of popular fiction. Finally, he examines five bestselling popular novelists in detail - John Grisham, Michael Crichton, Anne Rice, Jackie Collins and J. R. R. Tolkien - to see how popular fiction is used, discussed and identified in contemporary culture.

German Feminist Queer Crime Fiction Faye Stewart, 2014-02-07 A marriage of mystery fiction and queer concerns, queer crime literature celebrates the pairing of the political and the sexual. Queer crime fiction is a subgenre in which sex, gender and sexuality are among the mysteries to be solved. Its writers use boundary-crossing identities and desires to express social critique, inviting readers to interpret queer narratives as literary incursions into cultural traditions. From androgynous investigators and serial killer housewives to closeted lesbians and transgendered lovers, the characters in queer mysteries are metaphors for changing social and political relations. This book reads German-language crime stories as allegories about 20th- and 21st-century upheavals, raising questions about human behavior and justice, the horrors of extremism, the changing shape of the nation, and the possibilities of democracy. Anchored in the historical contexts of protest cultures and countercultures of the last three decades, this study examines novels by popular feminist writers Pieke Biermann, Edith Kneifl and Ingrid Noll, and unexplored works by Susanne Billig, Gabriele Gelien, Corinna Kawaters, Katrin Kremmler, Christine Lehmann and Martina-Marie Liertz. An analysis of recent debates through the lens of genre fiction serves as the foundation for telling the cultural history of contemporary Germany, Austria and Europe as a whole from a new perspective.

Native American Mystery Writing Mary Stoecklein, 2019-04-04 Though mystery, crime, and detective fiction are some of the most popular genres in the world, little scholarship currently exists regarding Native American writers and how they add new dimensions to this widely read literary form. Rather, the majority of scholarship examines the depiction of Native characters from the perspective of non-Native authors. Native American Mystery Writing: Indigenous Investigations analyzes how Native authors use the genre to foreground centuries of settler-colonial crimes and comment upon the ways in which these acts continue to impact Native individuals and communities today. Considering fourteen novels and two made-for-TV films, this book surveys a spectrum of settler-colonial crimes: the Osage oil murders, sexual assault against Native women, missing and murdered Indigenous women, the California mission system, suppression of spiritual beliefs, theft—of land, children, and cultural items—and, of course, murder. Examination of these texts shows how Native authors working with the mystery, crime, and detective fiction formats are able to entertain readers while also sending strong social, cultural, and political messages that argue for strengthened tribal sovereignty and illustrate the resilience of Indigenous peoples—all in order to promote discussions about creating a more just system for Native Nations.

Spanish and Latin American Women's Crime Fiction in the New Millennium Nancy Vosburg, 2017-11-06 Crime fiction written by women in Spain and Latin America since the late 1980s has been successful in shifting attention to crimes often overlooked by their male counterparts, such as rape and sexual battery, domestic violence, child pornography, pederasty, and incest. In the twenty-first century, social, economic, and political issues, including institutional corruption, class inequality, criminalized oppression of immigrant women, crass capitalist market forces, and mediatized political and religious bodies, have at their core a gendered dimension. The conventions of the original noir, or novela negra, genre have evolved, such that some women authors challenge the noir formulas by foregrounding gender concerns while others imagine new models of crime fiction that depart drastically from the old paradigms. This volume, highlighting such evolution in the crime fiction genre, will be of interest to students, teachers, and scholars of crime fiction in Latin America and Spain, to those interested in crime fiction by women, and to readers familiar with the sub-genres of crime fiction, which include noir, the thriller, the police procedural, and the "cozy" novel.

Phraseology and Style in Subgenres of the Novel Iva Novakova, Dirk Siepmann, 2019-09-09 This edited book represents the first cohesive attempt to describe the literary genres of late-twentieth-century fiction in terms of lexico-grammatical patterns. Drawing on the PhraseoRom international project on the phraseology of contemporary novels, the contributed chapters combine literary studies with corpus linguistics to analyse fantasy, romance, crime, historical and science fiction in French and English. The authors offer new insights into long-standing debates on genre distinction and the hybridization of genres by deploying a new, interdisciplinary methodology. Sitting at the intersection of literature and linguistics, with a firm grounding in the digital humanities, this book will be of particular relevance to literary scholars, corpus stylists, contrastivists and lexicologists, as well as general readers with an interest in twentieth-century genre fiction.

Fortunately, romance expert and librarian Kristin Ramsdell provides a definitive guide to this fiction genre that serves as an indispensable resource for those interested in it—including fans searching for reading material—as well as for library staff, scholars, and romance writers themselves. This title updates the last edition of *Romance Fiction: A Guide to the Genre*, published in 1999. While the emphasis is on newer titles, many of the important older classics are retained, keeping the focus of the book on the entire genre, instead of only those titles published during the last decade. Specific changes include new chapters on linked and continuing romances, a new section on Chick Lit in the Contemporary Romance chapter, an expansion of coverage on the alternative reality subset. This is THE romance genre guide to have.

The Routledge Companion to Literature and Emotion Patrick Colm Hogan, Bradley J. Irish, Lalita Pandit Hogan, 2022-04-05 The Routledge Companion to Literature and Emotion shows how the affective turn in the humanities applies to literary studies. Deftly combining the scientific elements with the literary, the book provides a theoretical and topical introduction to reading literature and emotion. Looking at a variety of formats, including novels, drama, film, graphic fiction, and lyric poetry, the book also includes focus on specific authors such as Shakespeare, Chaucer, Jane Austen, Virginia Woolf, and Viet Thanh Nguyen. The volume introduces the theoretical groundwork, covering such categories as affect theory, affective neuroscience, cognitive science, evolution, and history of emotions. It examines the range of emotions that play a special role in literature, including happiness, fear, aesthetic delight, empathy, and sympathy, as well as aspects of literature (style, narrative voice, and others) that bear on emotional response. Finally, it explores ethical and political concerns that are often intertwined with emotional response, including racism, colonialism, disability, ecology, gender, sexuality, and trauma. This is a crucial guide to the ways in which new, interdisciplinary understandings of emotion and affect—in fields from neuroscience to social theory—are changing the study of literature and of the ways those new understandings are impacted by work on literature also.

Medieval Crime Fiction Anne McKendry, 2019-04-23 Combining elements of medievalism, the historical novel and the detective narrative, medieval crime fiction capitalizes upon the appeal of all three--the most famous examples being Umberto Eco's *The Name of the Rose* (one of the best-selling books ever published) and Ellis Peters' endearing *Brother Cadfael* series. Hundreds of other novels and series fill out the genre, in settings ranging from the so-called Celtic Enlightenment in seventh-century Ireland to the ruthless Inquisition in fourteenth-century France to the mean streets of medieval London. The detectives are an eclectic group, including weary ex-crusaders, former Knights Templar, enterprising monks and nuns, and historical poets such as Geoffrey Chaucer.
