Beyond Communal and Individual Ownership Leon Terrill,2015-10-05 Over the last decade, Australian governments have introduced a series of land reforms in communities on Indigenous land. This book is the first in-depth study of these significant and far reaching reforms. It explains how the reforms came about, what they do and their consequences for Indigenous landowners and community residents. It also revisits the rationale for their introduction and discusses the significant gap between public debate about the reforms and their actual impact. Drawing on international research, the book describes how it is necessary to move beyond the concepts of communal and individual ownership in order to understand the true significance of the reforms. The book's fresh perspective on land reform and careful assessment of key land reform theories will be of interest to scholars of indigenous land rights, land law, indigenous studies and aboriginal culture not only in Australia but also in any other country with an interest in indigenous land rights.

La escritura de la historia prehispánica en Colombia Calderón Patiño,Sol Alejandra,2023-04-30 A través del análisis de la obra de Ernesto Restrepo Tirado, esta investigación se enfoca en entender cómo se escribió la historia prehispánica en Colombia a finales del siglo XIX y principios del XX. Este texto examina el contexto intelectual en el que Restrepo Tirado produjo su obra historiográfica, y para ello se determinó su itinerario biográfico, se describió y reflexionó acerca del proceso de elaboración de sus obras y se analizó su representación sobre los grupos prehispánicos colombianos y su relación con el debate del momento sobre “raza”, “civilización” y “barbarie”. Esta es la primera investigación que aborda con profundidad a este autor, su obra y el momento de su escritura, cuando en diferentes países de América Latina se planteó la necesidad de dar un peso temporal a la historia nacional mediante el reconocimiento de la historia prehispánica, para lo cual en el desarrollo del ejercicio histórico se comenzaron a usar las antigüedades como fuentes arqueológicas, práctica que terminó dando pie a la formalización de la antropología y la arqueología como campos científicos.

Cervantes en las antípodas Ariel Núñez Sepúlveda,2021-09-30 A más de cuatrocientos años de su publicación, el Quijote –y con él, toda la obra de Miguel de Cervantes– sigue gozando de una radical vigencia estética que lo constituye como un hito insoslayable en el desarrollo de la historia de la literatura y el arte. Y es que la escritura cervantina, poseedora de una prodigiosa capacidad para abrirse a siempre renovadas lecturas y relecturas, interpela permanentemente a quienes se

aproximan a sus páginas para instalar preguntas tan fundamentales como qué es la ficción y qué es la realidad o dónde termina la cordura y comienza la locura. En este libro se reúnen quince ensayos e investigaciones que plantean diferentes abordajes y respuestas a esas y a otras preguntas que Cervantes despliega en sus textos. Los autores de los trabajos son todos jóvenes estudiantes de distintas universidades del país, quienes, embarcados en la aventura hermenéutica «del poco dormir y del mucho leer», proponen novedosas miradas sobre las creaciones literarias del Manco de Lepanto, y, sobre todo, del Quijote, la llamada «primera novela moderna». Así, desde diversos puntos de vista, estos nóveles investigadores tratan problemáticas tan relevantes como la presencia de la narrativa cervantina en la literatura latinoamericana del siglo xx, la reescritura del Quijote en el teatro, o la reinterpretación de figuras novelescas capitales como Alonso Quijano-don Quijote, Sancho Panza y Cide Hamete Benengeli, junto con el estudio de otros títulos menos conocidos del escritor español, como las Novelas ejemplares, el Persiles y sus Entremeses. Se trata, en cada caso, de apropiaciones y visiones críticas de una obra que, desde el siglo xvii y hasta nuestros días, sigue interrogándonos y, al mismo tiempo, hablándonos de nosotros mismos.

Petitioning for Land Karen O'Brien, 2018-11-15 *Petitioning for Land* is the first book to examine the extent of First Peoples political participation through the use of petitions. Interpreting petitions as a continuous form of political articulation, Karen O'Brien considers petitioning for recognition of prior land ownership as a means by which to locate First Peoples petitioning for change within the broader narrative of historical and contemporary notions of justice. The book follows the story of First Peoples' activism and shows how they actively reform discourse to disseminate a self-determined reality through the act of petitioning. It discloses how, through the petition, First Peoples reject colonialism, even whilst working within its confines. In a reconfiguration of discourse, they actively convey a political or moral meaning to re-emerge in a self-determined world. Taking a socio-legal and historical approach to petitioning, the book questions the state domination of First Peoples, and charts their political action against such control in the quest for self-determination. By uniquely focusing on the act of petitioning, which places First Peoples aspirants centre-stage, O'Brien presents fresh and innovative perspectives concerning their political enterprise. From early modern colonial occupation to contemporary society, the hundreds of petitions that called for change are uncovered in *Petitioning for Land*, shedding new light on the social and political dynamics that drove the petitions.

The Great Greenwashing John Pabon, 2023-06-01 Now's not the time to pussyfoot around the issues. In this game, you've got to be brave enough to name and shame. For too long, many of the companies, governments, and individuals claiming to do the most are nowhere near walking their talk. They've put up beautiful window dressing to distract from all the horrible stuff happening inside their houses. Behind the scenes, these groups' actions hold back the very progress they claim to support. We've been treated like fools, falling into the trap of believing their lies and refusing to question their sincerity. Greenwashing is the result.

Soldados de Franco Francisco J. Leira Castiñeira,2020-06-22 Esta novedosa obra toma como referente el concepto unamuniano de intrahistoria y como base, se dedica en exclusiva a darle el protagonismo a la tropa que compuso el ejército sublevado de la guerra civil española de 1936, entendiendo a los individuos dentro de su complejidad para obtener conclusiones globales. Mediante un estudio sistemático de archivos militares y civiles, prensa, memorias y fuentes orales inéditas, muestra la veracidad del hecho de que ese ejército se formó por obligación, mediante un procedimiento de reclutamiento forzoso que afectó a varias generaciones, en contra de lo difundido por la propaganda franquista y que permaneció hasta nuestros días. Por lo general, eran personas normales, que no estaban comprometidas ideológicamente con el ideario golpista; eran hombres que vivían en una sociedad civil regida por las reglas sociales construidas desde comienzos del siglo XX, sin que existiese una confrontación con sus compatriotas. A partir del 18 de julio de 1936, vieron rotas aquellas normas sociales y sustituidas por el terror, la vigilancia, el castigo y la pobreza. Desde aquel momento, a una gran parte de esos hombres, no les quedó otro camino que vincularse a uno de los dos bandos para evitar la muerte; en el caso de este libro, al insurgente. Se trata de uno de los trabajos más novedosos y ambiciosos del momento, porque analiza la guerra con toda su crudeza, sin heroísmo, y único en poner el foco en las personas, en la captación obligada de combatientes, en cómo funcionaba el ejército franquista y en la experiencia de guerra y postguerra que padecieron. Además es ambicioso porque busca romper con muchos mitos e imágenes construidas interesadamente sobre el conflicto. Se imbrica dentro de la línea de los war studies internacionales y pone de manifiesto los cambios que una contienda introduce en la sociedad y en las personas. El propósito de su autor es dar a conocer esta realidad, oculta hasta ahora, a las personas interesadas en el pasado reciente español, para entender la historia en su complejidad y contribuir a superar las heridas y confiar en el futuro

El Secreto de la Catedral Erwin Ramdohr,2023-07-05 Desde la antigüedad existían hermandades de constructores, que eran los únicos que conocían el arte de la construcción. En Roma fueron llamados “Caementarius”, en Francia “Macons”, en Inglaterra “Freemasons” y en Alemania “Freimaurer”. Estas logias transmitían sus conocimientos, como secretos inviolables, entre los hermanos. Pero, además, eran hombres muy instruidos, que contribuían al desarrollo de la cultura en un momento en que esta estaba por los suelos. Ellos eran los únicos capacitados para construir iglesias, palacios, castillos y puentes, por lo que gozaban de privilegios especiales, recibían muy buena paga por su trabajo, tenían derecho a viajar por los países de Europa, a reunirse en sesiones secretas y no pagaban impuestos, ni al estado, ni a la Iglesia. Sabemos muy poco de ellos, porque dejaron pocos testimonios escritos o, tal vez, porque la Iglesia los destruyó, por ser de pensamiento muy liberal. Durante la Edad Media fueron ellos, quienes levantaron las magníficas catedrales de estilo gótico, que perduran hasta nuestros días. En esta novela un francmasón de origen alemán llega a trabajar en la construcción de la catedral de Burgos y decide dejar su historia para la posteridad. Así conocemos, tanto la forma cómo enfrentaban su trabajo, como su vida personal y sus relaciones con los representantes del poder terrenal y divino.

Democracia mexicana: retos de la participación y los derechos Fernando Castañeda Sabido, Lorenzo Córdova Vianello, 2023-02-21 Lo primero que hay que destacar de esta obra colectiva es que da muestra de una diversidad de perspectivas teóricas, empíricas y analíticas que reflejan la vocación multidisciplinaria de la Cátedra Francisco I. Madero. Una vocación que con el libro ratifica que sólo desde la diversidad de visiones y aproximaciones para comprender la realidad del país, se puede ampliar y profundizar sobre el conocimiento de la vida pública nacional y sus laberintos. Lorenzo Córdova Vianello Vivimos en un mundo con muchos riesgos y grandes desafíos, entre éstos, el camino que seguirá la democracia es, sin duda, el más relevante. Si no podemos enfrentar mediante procesos democráticos las desigualdades y formas de exclusión social, los problemas medioambientales y el crecimiento económico, la violencia e inseguridad, lo que nos depara el destino es totalmente incierto; confiar en la voluntad de unos pocos líderes no es una alternativa.
