Keep the Bones Alive Graham Denyer Willis,2022-07-26 Every year at least 20,000 people go missing in São Paulo, Brazil. Many will be found, sometimes in mundane mass graves, but thousands will not. Keep the Bones Alive explores this phenomenon and why there is little concern for those who vanish. Ethnographer Graham Denyer Willis works beside family members, state workers, and gravediggers to examine the rationalization behind why bodies are missing in space—from cemeteries, the criminal coroner's office, prisons, and elsewhere. By accompanying the bereaved as they confront an indifferent state and a suspicious society and search for loved ones against all odds, this gripping book reveals where missing bodies go and the reasons why people can disappear without being pursued. Recognizing that disappearance has long been central to Brazil's everyday political order, this humanistic account of the silences surrounding disappearance shows why a demand for a politics of life is needed now more than ever.

Maturing Masculinities Emily A. Wentzell,2013-07-05 *Maturing Masculinities* is a nuanced exploration of how older men in urban Mexico incorporate aging, chronic illness, changing social relationships, and decreasing erectile function into their conceptions of themselves as men. It is based on interviews that Emily A. Wentzell conducted with more than 250 male patients in the urology clinic of a government-run hospital in Cuernavaca. Drawing on science studies, medical anthropology, and gender theory, Wentzell suggests the idea of composite masculinities as a paradigm for understanding how men incorporate physical and social change into gendered selfhoods. Erectile dysfunction treatments like Viagra are popular in Mexico, where stereotypes of men as sex-obsessed machos persist. However, most of the men Wentzell interviewed saw erectile difficulty as a chance to demonstrate difference from this stereotype. Rather than using drugs to continue youthful sex lives, many collaborated with wives and physicians to frame erectile difficulty as a prompt to embody age-appropriate, mature masculinities.
