ArcheoLogica Data, 2, 2022 Francesca Anichini ,Gabriele Gattiglia,Maria Letizia Gualandi,2022-03-06 ArcheoLogica Data wants to reach an Italian and international audience of scholars, professionals, students, and, more generally, early-career archaeologists, and it accepts contributions written both in Italian and English. ArcheoLogica Data proposes to indissolubly associate data and interpretation. It embraces that global idea of archaeological data that integrates all the discipline declinations without any thematic or chronological constraints. Data is at the centre, and around lies everything that can stem from it: interpretations, hypotheses, reconstructions, applications, theoretical and methodological reflections, critical ideas, constructive discussions.

Camaldolesi e Vallombrosani nella Toscana medievale Antonella Fabbri,2021-11-18 Nel contesto dell'intensa stagione di rinnovamento religioso e sociale avviatasi fra X e XI secolo con la cosiddetta 'Riforma Gregoriana', l'Eremo di Camaldoli e il monastero di Santa Maria di Vallombrosa, sorti entrambi nel territorio toscano, diedero origine a due movimenti di riforma ispirati alla spiritualità dei rispettivi fondatori, e divenuti due congregazioni appartenenti alla famiglia benedettina. Nati da istanze simili, gli Ordini camaldolese e vallombrosano furono per molti aspetti affini tra loro, sia in alcuni dei loro caratteri fondamentali, sia nei meccanismi che ne plasmarono le dinamiche di espansione. Proprio partendo da questa considerazione, questo lavoro si propone di delineare un quadro della diffusione raggiunta in Toscana da queste riforme nel periodo medievale in un'ottica di confronto, attraverso la schedatura degli insediamenti noti e l'elaborazione di un repertorio delle comunità interessate da tale fenomeno, allo scopo di riunire un'ampia casistica di situazioni ed attori che influirono sulle modalità e i tempi di radicamento di queste riforme nelle varie zone della regione. Il testo è arricchito da un'appendice cartografica dedicata ad illustrare la cronologia dello sviluppo di queste congregazioni nella Toscana medievale.

Hidden Tuscany John Keahey,2014-07-15 In Hidden Tuscany, acclaimed author John Keahey takes the reader into a part of Tuscany beyond the usual tourist destinations of Chianti, Florence, and Siena. The often overlooked western portion of Tuscany is rich with history, cuisine, and scenery begging to be explored, and Keahey encourages travelers to abandon itineraries and let the grooves in the road and the curves of the coast guide your journey instead. Follow Keahey as he turns off the autostrada and takes roads barely two lanes wide to discover fishing villages along the Tuscan sea. Then move inland

into rolling foothills adorned with cherry orchards, ancient olive groves, and sweeping vineyards that produce wines that challenge Chianti's best. Here it is still possible to follow the paths of Romans, Crusaders, and pilgrims from throughout the western world who were eager to reach Rome. Hidden Tuscany provides intriguing images of places such as Livorno, a port city with canals; Pietrasanta, Tuscany's Citta d'Arte; and Capraia, an island formed by volcanoes. Keahey engages with the inhabitants of these enchanting landscapes, whether sculptors who toil in marble studios or residents whose own memories and traditions illuminate major moments in world history. From coastal towns to vineyards farther inland to the Tuscan archipelago, Keahey reminds us that each village, city, and island has its own unique story to tell. For armchair travelers and vacation seekers alike, Hidden Tuscany brings a new side of this classic Italian region to life, and the result is mesmerizing.

Stone in Historic Buildings J. Cassar,M.G. Winter,B.R. Marker,N.R.G. Walton,D.C. Entwisle,E.N. Bromhead,J.W.N. Smith,2014-04-30 There is considerable academic and practical interest in stone and stone buildings, as exemplified by the wide range of high-quality and innovative work being conducted in the pursuit of the effective preservation and restoration of historic buildings. This is reflected in the numerous publications on stone and stone buildings that regularly find their way into the public domain. Not least amongst these are a number of Geological Society Special Publications, which have appeared in recent years. This current volume seeks to bring to the attention of the various professionals in the field (geologists, architects, engineers, conservators and conservation scientists) recent work centred on the characterization and performance of this important resource and its use in historic buildings. The volume has wider relevance, including to those interested in the heritage of stone.

Art, Mobility, and Exchange in Early Modern Tuscany and Eurasia Francesco Freddolini,Marco Musillo,2020-06-09 This book explores how the Medici Grand Dukes pursued ways to expand their political, commercial, and cultural networks beyond Europe, cultivating complex relations with the Ottoman Empire and other Islamic regions, and looking further east to India, China, and Japan. The chapters in this volume discuss how casting a global, cross-cultural net was part and parcel of the Medicean political vision. Diplomatic gifts, items of commercial exchange, objects looted at war, maritime connections, and political plots were an inherent part of how the Medici projected their state on the global arena. The eleven chapters of this volume demonstrate that the mobility of objects, people, and knowledge that generated the global interactions analyzed

here was not unidirectional—rather, it went both to and from Tuscany. In addition, by exploring evidence of objects produced in Tuscany for Asian markets, this book reveals hitherto neglected histories of how Western cultures projected themselves eastwards.
