*Daily Life in the Colonial City* Keith T. Krawczynski, 2013-02-20 An exploration of day-to-day urban life in colonial America. The American city was an integral part of the colonial experience. Although the five largest cities in colonial America--Philadelphia, New York, Boston, Charles Town, and Newport--held less than ten percent of the American population on the eve of the American Revolution, they were particularly significant for a people who resided mostly in rural areas, and wilderness. These cities and other urban hubs contained and preserved the European traditions, habits, customs, and institutions from which their residents had emerged. They were also centers of commerce, transportation, and communication; held seats of colonial government; and were conduits for the transfer of Old World cultures. With a focus on the five largest cities but also including life in smaller urban centers, Krawczynski's nuanced treatment will fill a significant gap on the reference shelves and serve as an essential source for students of American history, sociology, and culture. In-depth, thematic chapters explore many aspects of urban life in colonial America, including working conditions for men, women, children, free blacks, and slaves as well as strikes and labor issues; the class hierarchy and its purpose in urban society; childbirth, courtship, family, and death; housing styles and urban diet; and the threat of disease and the growth of poverty.

*Capital City* Thomas Kessner, 2004-04-07 At the beginning of the nineteenth century, New York City was an undistinguished town, competing with Philadelphia and Boston to be America's dominant port city. Just two generations later, it had built itself into the country's powerhouse center of trade and finance, rivaled only by London as financial capital of the world. In *Capital City*, Thomas Kessner tells the story of this remarkable transformation. With the advantages of its famous

harbor and the opening of the Erie Canal in 1825, New York became the chief commercial center for the growing nation. As the shipping industry prospered, capital accumulated, and a growing banking center emerged, New York went on to finance the Union cause during the Civil War, open the West to development, and consolidate the national railroad system. The city's energy and opportunity attracted ambitious men from all over the country whose names became synonymous with big business: Vanderbilt, Carnegie, Rockefeller, and Morgan. New York's banks set the interest rates for the nation, its stock exchange fixed the price of securities, its investors transformed American business from family-owned enterprises into modern corporations, and its growing political clout catapulted public figures, such as Samuel Tilden and Teddy Roosevelt, onto the national stage. Combining political and urban history with a colorful cast of characters, Capital City chronicles how Gotham's Gilded Age reshaped the metropolis and the nation as it molded our present-day economy.

Hiding Man Tracy Daugherty, 2025-06-25 In the 1960s Donald Barthelme came to prominence as the leader of the Postmodern movement. He was a fixture at the New Yorker, publishing more than 100 short stories, including such masterpieces as Me and Miss Mandible, the tale of a thirty-five-year-old sent to elementary school by clerical error, and A Shower of Gold, in which a sculptor agrees to appear on the existentialist game show Who Am I? He had a dynamic relationship with his father that influenced much of his fiction. He worked as an editor, a designer, a curator, a news reporter, and a teacher. He was at the forefront of literary Greenwich Village which saw him develop lasting friendships with Thomas Pynchon, Kurt Vonnegut, Tom Wolfe, Grace Paley, and Norman Mailer. Married four times, he had a volatile private life. He died of cancer in 1989. The recipient of many prestigious literary awards, he is best remembered for the classic novels Snow White, The Dead Father, and many short stories, all of which remain in print today. Hiding Man is the first biography of Donald Barthelme, and it is nothing short of a masterpiece.

**This Southern Metropolis** Mike Bunn, 2024-10 Based on visitor descriptions of antebellum Mobile, Alabama's physical and social environment, this book captures a place and time that is particular to Gulf Coast history. Mobile's foundational era is a period in which the city transformed from a struggling colonial outpost into one of the nation's most significant economic powerhouses, largely owing to the cotton trade and the labor of enslaved people. On the eve of the Civil War, the Mobile ranked as the fourth most populous community in what would soon become the Confederacy, and within the Gulf Coast region, it stood second only to New Orleans in population, wealth, and influence. In addition to ranking as one of the busiest ports in the United States, the city's remarkable architecture, beautiful natural setting, and abundance of entertainment options combined to make it one of the South's most distinctive communities. Its cultural diversity only added to its uniqueness. In addition to being home to the largest white population of any community in Alabama, the city also claimed the state's largest free Black, foreign-born, and Creole communities. Mobile was the slave-trading center of the state until the 1850s as well and remained thoroughly intertwined with the institution of slavery throughout the antebellum period. By 1860

Mobile's population stood at nearly thirty thousand people, making it the twenty-seventh-largest city in the United States overall. Although numerous histories of Mobile have been published, none have focused on the dozens of evocative firsthand accounts published by antebellum-era visitors. These writings allowed literary-minded travelers, who were often consciously looking for things that struck them as singular about a place, to become proxy tour guides for their contemporary readers. In attempting to capture the essence of the city's reality at a specific moment in time, Mobile's antebellum visitors have left us a unique record of one of the South's most historic communities.

*City Life* Seamus O'Hanlon, 2018-09-01 Remember when our cities and inner-cities weren't dominated by high-rise apartments? This book documents the changes that have come with the globalisation of the Australian city since the 1970s. It tells the story of the major economic, social, cultural and demographic changes that have come with opening up of Australia in those years, with a particular focus on the two biggest cities, Sydney and Melbourne, which have been transformed. But throughout it also looks at how these changes have played out in the smaller capitals and regional centres. How does one of the most urbanised, multicultural countries in the world see itself? This book challenges received ideas about Australia and how it presents itself to the world, and how in turn many Australians perceive and understand themselves. Rather than rehashing old stereotypes about mateship, the Bush or Anzac, this book places the globalised city and its residents at the heart of new understandings of twenty-first century Australia.

**City Life** Adrian Franklin, 2010-05-01 A brave foray into the interdisciplinary and a serious attempt to cover city life in all its complexity... Franklin's optimism about the city is refreshing. He revels in the growing human and cultural diversity and the 're-emergence and spread of a more tolerant, carnivalesque, culture-driven city life', and he celebrates the city's ability to offer shelter to the unexpected and the fragile. For Franklin, the city is a product of nature, with all its vicissitudes. - Times Higher Education Franklin writes with barely restrained optimism as he emphasizes the excitement, vitality and potential of cities. This advances the idea of city lives as assemblages of 'human and non-human networks of texts, software, culture, behaviour, architecture, trees and gardens'... Franklin uses a wide range of sources in making his case. Historical accounts, search engine statistics and social and cultural theory are all smoothly integrated into the narrative. - Sociology Cities are more important as cultural entities than their mere function as dormitories and industrial sites. Yet, the understanding of what makes a city 'alive' and appealing in cultural terms is still hotly contested - why are some cities so much more interesting, popular and successful than others? In this engaging discussion of 'city life' Adrian Franklin takes the reader on a tour of contemporary western cities exploring their historical development and arguing that it is the transformative, ritual and performative qualities of successful cities that makes a difference. Here is a new urban culture characterized by ecological frames of reference; tracking the making of contemporary city life from traditional times, through early modern, machinic and modernised stages of development. Adopting dynamic narrative structures and stories to develop its critical

position this book creates a vibrant synthesis of city life from its key components of leisure and tourism, recreation and play, arts and culture, nature and environment, and architecture and public space. Emphasising the importance of experience the book represents the fluid complexity of the city as a living space, an environment and a posthumanist space of transformation. It will be of interest to all those engaging with the difficulties of urban life in sociology, human geography, tourism and cultural studies.

**Imperial Life in the Emerald City** Rajiv Chandrasekaran, 2006-09-19 NEW YORK TIMES BESTSELLER • National Book Award Finalist • This eyewitness history of the first order ... should be read by anyone who wants to understand how things went so badly wrong in Iraq” (The New York Times Book Review). The Green Zone, Baghdad, Iraq, 2003: in this walled-off compound of swimming pools and luxurious amenities, Paul Bremer and his Coalition Provisional Authority set out to fashion a new, democratic Iraq. Staffed by idealistic aides chosen primarily for their views on issues such as abortion and capital punishment, the CPA spent the crucial first year of occupation pursuing goals that had little to do with the immediate needs of a postwar nation: flat taxes instead of electricity and deregulated health care instead of emergency medical supplies. In this acclaimed firsthand account, the former Baghdad bureau chief of The Washington Post gives us an intimate portrait of life inside this Oz-like bubble, which continued unaffected by the growing mayhem outside. This is a quietly devastating tale of imperial folly, and the definitive history of those early days when things went irrevocably wrong in Iraq.

Everyday Life in the Spectacular City Rana AlMutawa, 2024-01-09 Everyday Life in the Spectacular City is a groundbreaking urban ethnography that reveals how middle-class citizens and longtime residents of Dubai interact with the city's so-called superficial spaces to create meaningful social lives. Rana AlMutawa shows that inhabitants adapt themselves to top-down development projects, from big malls to megaprojects. These structures serve residents' evolving social needs, transforming Dubai's spectacular spaces into personally important cultural sites. These practices are significant because they expand our understanding of agency as not only subversive but also adaptive. Through extensive fieldwork, AlMutawa, herself an Emirati native to Dubai, finds a more nuanced story of belonging. This story does not seek to uncover the real city that lies beneath the veneer of the spectacle, but rather to demonstrate that social meanings and forms of belonging take place within the spectacle itself. By offering an alternative to the discourse of authenticity and elucidating the dynamics of ambivalent belonging, AlMutawa belies stereotypes that portray Dubai's developments as alienating and inherently disempowering. Everyday Life in the Spectacular City speaks beyond the Middle East to a globalized phenomenon, for

Dubai's spectacles are unexceptional in today's changing world.

*The Margins of City Life* John M. Merriman, 1991-04-18 *The Margins of Urban Life* brings to life the floating worlds of the periphery in nineteenth-century French cities--the world of beggars, the most miserable prostitutes, ragpickers, casual labor, and unwanted people; the location of slaughterhouses, gas factories, tanneries, and, increasingly, even executions. The men and women of the suburbs and faubourgs were long identified by urban elites and government officials with the turbulent dangerous classes who might one day fall upon the wealthy quarters of the center. Merriman analyzes and evokes the social, class, neighborhood, cultural, and political solidarities--the shared sense of not belonging--that made the marginal people in peripheral places emerge as contenders for political power. His investigation explores the world of the Catalan agricultural laborers, the textile workers of the high town of Reims, the bitter rivalry between Catholic and Protestant workers in the faubourge of Nîmes, the haven for under- and unemployed proletarians in Ingouville, above Le Havre, and France's strange frontier town, Napoléon-Vendée.

*Everyday Life in the Gentrifying City* Tone Huse, 2016-04-15 Based on ethnographic fieldwork conducted in Oslo, *Everyday Life in the Gentrifying City* offers an examination of gentrification from below, exploring the effects of this process upon city neighbourhoods and those that inhabit them, whether residents, business owners and their customers, or local activists. Engaging with recent debates surrounding immigration and the inclusion of ethnic minorities in the city, the book takes up the question of ethnicity and gentrification. It argues for an urban policy that gives up the preoccupation with policies concerning the residential mix and place transformation in favour of empowering its citizens. A lively and engaging analysis, in which theoretical rigour is illuminated with rich interviews and empirical content in order to shed light on the relationship between gentrification, displacement, and integration, *Everyday Life in the Gentrifying City* will appeal to scholars and students of sociology, geography, anthropology and urban studies.

**The Life & Times of Jersey City Mayor Frank Hague** Leonard F. Vernon, 2011-11-18 Frank Hague served as the mayor of Jersey City for much of the early twentieth century. While some believed him a thief, others viewed him as a modern-day Robin Hood. He could put food on your table or triple your taxes, give you a job or end your career. It was with this same ease and power that he could make you a federal judge, a congressman or even a United States senator. He has been remembered including through a character on the popular TV drama *Boardwalk Empire* as one of the most corrupt politicians of the century. But in this biography, Leonard Vernon reexamines Hague's deeds, prompting a new understanding of his life and the memory of politicians of the era.

**The Death of Aztec Tenochtitlan, the Life of Mexico City** Barbara E. Mundy, 2018-03-22 Winner, Book Prize in Latin American Studies, Colonial Section of Latin American Studies Association (LASA), 2016 ALAA Book Award, Association for Latin American Art/Arvey Foundation, 2016 The capital of the Aztec empire, Tenochtitlan, was, in its era, one of the largest cities in the world. Built on an island in the middle of a shallow lake, its population numbered perhaps 150,000, with another 350,000 people in the urban network clustered around the lake shores. In 1521, at the height of Tenochtitlan's power, which extended over much of Central Mexico, Hernando Cortés and his followers conquered the city. Cortés boasted to King Charles V of Spain that Tenochtitlan was destroyed and razed to the ground. But was it? Drawing on period representations of the city in sculptures, texts, and maps, *The Death of Aztec Tenochtitlan, the Life of Mexico City* builds a convincing case that this global capital remained, through the sixteenth century, very much an Amerindian city. Barbara E. Mundy foregrounds the role the city's indigenous peoples, the Nahua, played in shaping Mexico City through the construction of permanent architecture and engagement in ceremonial actions. She demonstrates that the Aztec ruling elites, who retained power even after the conquest, were instrumental in building and then rebuilding the city. Mundy shows how the Nahua entered into mutually advantageous alliances with the Franciscans to maintain the city's sacred nodes. She also focuses on the practical and symbolic role of the city's extraordinary waterworks—the product of a massive ecological manipulation begun in the fifteenth century—to reveal how the Nahua struggled to maintain control of water resources in early Mexico City.

*Bodies in the Streets: The Somaesthetics of City Life* ,2019-08-12 Cities are defined by their complex network of busy streets and the multitudes of people that animate them through physical presence and bodily actions that often differ dramatically: elegant window-shoppers and homeless beggars, protesting crowds and patrolling police. As bodies shape city life, so the city's spaces, structures, economies, politics, rhythms, and atmospheres reciprocally shape the urban soma. This collection of original essays explores the somaesthetic qualities and challenges of city life (in Europe, Asia, Africa, and the Americas) from a variety of perspectives ranging from philosophy, urban theory, political theory, and gender studies to visual art, criminology, and the interdisciplinary field of somaesthetics. Together these essays illustrate the aesthetic, cultural, and political roles and trials of bodies in the city streets.
