Santiago Carassale Real, Liliana Martínez Pérez, Jorge Luis Lavín García, Luis Manuel Hernández Aguilar, Federico Gobato, Lucio Israel Cervantes Porrúa, Carlos Nazario Mora Duro, Eufemio Franco Pimentel, Jorge Eduardo Suárez Gómez

Los estratos del tiempo Reinhart Koselleck, 2001 A partir del análisis de las alteraciones ocurridas en el uso y significado de los conceptos, la escuela de “historia de los conceptos” se propuso alumbrar transformaciones históricas más vastas de larga duración, y especialmente el sentido de la mutación cultural que se produjo entre 1750 y 1850 (período que para Koselleck marca la emergencia de la modernidad). Por debajo de tan monumental obra subyace una teoría de la historia o Historik, a la que dicho autor define como una “doctrina de las condiciones de posibilidad de historias”. Los que aquí se presentan son textos teóricos más recientes, en los que Koselleck plasma la formulación más sistemática hasta hoy de su Historik. En ellos retoma su proyecto original de una “crítica de la razón histórica” (un análisis de las condiciones de posibilidad de toda experiencia histórica), reformulándolo parcialmente. La introducción ha corrido a cargo de Elías José Palti, que recibió su título de doctorado en la Universidad de California en Berkeley. Actualmente es profesor de la Universidad de Quilmes e investigador del CONICET, en Argentina. Es autor de Giro lingüístico e historia intelectual, Aporías. Tiempo, modernidad, historia, sujeto, nación, ley y La invención de una legitimidad. Razón y retórica en el pensamiento mexicano del siglo XIX.

La literatura testimonial como memoria de las guerras en Colombia. Suárez Gómez, Jorge Eduardo, 2016-08-15 En este trabajo se analizan dos libros testimoniales sobre las guerras en Colombia, Siguiendo el corte y 7 años secuestrado. Estudiados como memoria, discurso testimonial y narración, se evidencian entre los textos diferencias y puntos de encuentro. Los dos condensan la subjetividad de algunos testigos representativos que, desde diversos lugares de enunciación y ubicaciones temporales, narran su experiencia en medio de diversas guerras. Las obras así analizadas y complementadas con otras referencias testimoniales, periodísticas y académicas, se ubican en otras discusiones extratextuales relacionadas con la memoria, el conflicto y la literatura testimonial en Colombia.

Crisis and Critique Rodrigo Cordero, 2016-07-15 Fragility is a condition that inhabits the foundations of social life. It remains mostly unnoticed until something breaks and dislocates the sense of completion. In such moments of rupture, the

social world reveals the stuff of which it is made and how it actually works; it opens itself to question. Based on this claim, this book reconsiders the place of the notions of crisis and critique as fundamental means to grasp the fragile condition of the social and challenges the normalization and dissolution of these 'concepts' in contemporary social theory. It draws on fundamental insights from Hegel, Marx, and Adorno as to recover the importance of the critique of concepts for the critique of society, and engages in a series of studies on the work of Habermas, Koselleck, Arendt, and Foucault as to consider anew the relationship of crisis and critique as immanent to the political and economic forms of modernity. Moving from crisis to critique and from critique to crisis, the book shows that fragility is a price to be paid for accepting the relational constitution of the social world as a human domain without secure foundations, but also for wishing to break free from all attempts at giving closure to social life as an identity without question. This book will engage students of sociology, political theory and social philosophy alike.

The Longue Durée and World-Systems Analysis Richard E. Lee, 2012-05-21 In his pathbreaking article *History and the Social Sciences: The Longue Durée*, Fernand Braudel raised a call for the social sciences to overcome their disciplinary isolation from one another. Commemorating the fiftieth anniversary of the article's publication, the contributors to this volume do not just acknowledge their debt to the past; they also bear witness to how the crisis Braudel recognized a half century ago is no less of a crisis today. The contributions included here, from scholars in history, sociology, and geography, reflect the spirit and practice of the intellectual agenda espoused by Braudel, coming together around the concept of the *longue durée*. Indeed, they are evidence of how the groundbreaking research originally championed by Braudel has been carried forward in world-systems analysis for a more socially relevant understanding of the planet and its future possibilities. The book concludes with a new translation of Braudel's original article by famed sociologist Immanuel Wallerstein.

Recorridos de la historia cultural en Colombia Cepeda, Hernando, Vargas, Sebastián, 2019-12-30 Este libro recoge quince años de experiencias investigativas en el campo de la historia cultural. A modo de conmemoración, este volumen presenta trece textos, producidos a lo largo de una década y media de labores académicas del grupo de investigación Prácticas culturales, Representaciones e Imaginarios. Inicialmente pensado como un equipo interesado en la discusión de obras claves para el campo de las ciencias sociales, el grupo devino en una comunidad académica identificada por su pasión hacia la historia cultural. En esta medida, gran parte de los documentos que componen este libro ofrecen un amplio panorama de la trayectoria general del grupo. Si bien el volumen es amplio y variado, el énfasis en la historia cultural lo cohesiona. La obra está compuesta por diferentes contribuciones que representan diferentes maneras de entender y poner en práctica la historia cultural.

Em torno da imagem e da memória Elcio Loureiro Cornelsen, Elisa Amorim Vieira, Gonzalo Leiva Quijada, 2016-03-13 Os diversos ensaios que compõem o presente volume, 'Em torno da imagem e da memória', organizado por Elcio Cornelsen,

Elisa Amorim e Gonzalo Leiva Quijada, transitam entre diversas expressões artísticas como a pintura, o cinema, a literatura, o desenho, a colagem e, sobretudo, a fotografia, seja enquanto retrato, registro documental, ou enquanto refotografia, fotopintura, fotografia pós-morte e pictorialismo. Assim, nos textos que procuram estabelecer relações entre imagem e memória na arte contemporânea, o que se observa predominantemente é o caráter híbrido da imagem apresentada pelos artistas, o seu caráter intermediático, que se configura na fronteira entre as diversas linguagens. Já nos ensaios que se voltam para as imagens de eventos traumáticos, ou que se voltam para a busca do que resta do passado no presente, evidencia-se o caráter de resistência da arte: resistência contra o horror, contra o trauma, contra a ausência e, sobretudo, resistência à política do esquecimento. Assim, este livro apresenta ao leitor o olhar múltiplo e instigante de diversos pesquisadores, artistas e escritores, em diálogo com alguns dos pensadores e filósofos indispensáveis para que se reflita o presente e para que se possa vislumbrar os rastros do passado que sobrevivem e insistem nos tempos atuais.

La arqueología entre la historia y la prehistoria Piazzini, Carlo Emilio, 2011-11-03 Desde el siglo xix la arqueología se ha concebido como una etnografía prehistórica o como una ciencia auxiliar de la historia, mientras que en las últimas décadas la certeza de que la disciplina no debe restringirse al pasado prehistórico explica el auge de las denominadas arqueologías históricas.

Expecting the End of the World in Medieval Europe Israel Sanmartín, Francisco Peña, 2024-09-12 Expecting the End of the World in Medieval Europe: An Interdisciplinary Study examines the phenomenon of medieval eschatology from a global perspective, both geographically and intellectually. The collected contributions analyze texts, authors, social movements, and cultural representations covering a wide period, from the 6th to the 16th century, in geographically liminal spaces where Catholic, Byzantine, Islamic, and Jewish cultures converged. The book is organized in eleven chapters which reflect and explore the following arguments: the study of specific eschatological episodes in medieval Europe and their interpretations; the analysis of apocalyptic visionaries, apocalyptic authors, and their individual contributions; the social and political implications of eschatology in medieval society; the study of medieval apocalyptic literature from a rhetorical, narratological, and historiographical perspective; the history of the transmission of apocalyptic literature and its transformation over time; and a comparative examination of apocalypticism between the Middle Ages and the Early Modern era. This study provides a lens through which academics, specialists, and interested researchers can observe and reflect on this entire eschatological universe, dwelling both on well-known texts, authors, and events, and on others which are much less popular. In gathering different paradigms, tools, and theoretical frameworks, the book exposes readers to the complex reality of medieval anxiety regarding the end of the world.

A Cultural History of Objects in the Modern Age Laurie Wilkie, John Chenoweth, 2022-08-31 A Cultural History of Objects in the Modern Age covers the period 1900 to today, a time marked by massive global changes in production, transportation,

and information-sharing in a post-colonial world. New materials and inventions - from plastics to the digital to biotechnology - have created unprecedented scales of disruption, shifting and blurring the categories and meanings of the object. If the 20th century demonstrated that humans can be treated like things whilst things can become ever more human, where will the 21st century take us? The 6 volume set of the Cultural History of Objects examines how objects have been created, used, interpreted and set loose in the world over the last 2500 years. Over this time, the West has developed particular attitudes to the material world, at the centre of which is the idea of the object. The themes covered in each volume are objecthood; technology; economic objects; everyday objects; art; architecture; bodily objects; object worlds. Laurie A. Wilkie is Professor at the University of California-Berkeley, USA. John M. Chenoweth, is Associate Professor at the University of Michigan-Dearborn, USA. Volume 6 in the Cultural History of Objects set. General Editors: Dan Hicks and William Whyte

El elefante en la sala. Neoliberalismo e historiografía revisionista del Porfiriato Jose Alfredo Rangel Silva, 2023-05-29 Este libro ofrece una lectura a contrapelo de cierta historiografía revisionista sobre el Porfiriato. Se identifica una narrativa configurada por intelectuales y políticos porfiristas, por supuesto favorable al régimen de Díaz, que sobrevivió a la revolución y al régimen priista. Esa narrativa ha sido renovada y reciclada por el revisionismo dentro de los parámetros de la racionalidad neoliberal predominante en México y en buena parte del mundo. También realiza un examen crítico de textos y argumentos de historia política y de historia económica, que se dice representan lo mejor de la nueva historiografía.

La experiencia como hecho social Santiago Carassale Real, Liliana Martínez Pérez, Jorge Luis Lavín García, Luis Manuel Hernández Aguilar, Federico Gobato, Lucio Israel Cervantes Porrúa, Carlos Nazario Mora Duro, Eufemio Franco Pimentel, Jorge Eduardo Suárez Gómez, 2016-11-01 Esta obra discierne sobre la experiencia enmarcándola desde la sociología cultural y sus artes, sus modos de hacer y de representarse. Destaca el ejercicio paralelo entre la experiencia investigada y la de investigar. Reflexionando desde conceptos clave como experiencia, red de significados y performance, se tocan temas como la observación participante y sus consecuencias; la manera en la que una entrevista afecta los resultados de una investigación, y la transformación de la conciencia histórica a partir de la experiencia y la expectativa. Desentrañar la relación entre hechos de trascendencia social y su elaboración narrativa es la aportación de este trabajo.

The Political Psychology of Social Unrest in Latin America Hüseyin Çakal, David Sirlopú, Vanessa Smith-Castro, 2025-04-24 The Political Psychology of Social Unrest in Latin America is a unique collection of research and writings by Latin American scholars. It explores the social, psychological, and political factors of the recent turmoil in Latin American countries. From the ongoing political crisis in Venezuela, the impeachment demonstrations in Brazil, student movements in

Chile, and massive demonstrations in Chile, Peru, Colombia, Ecuador, Bolivia, Venezuela, and Nicaragua, this edited volume analyses the underlying similarities and differences between these events through the lens of diverse research traditions, methods, and researchers. The book examines both actual inequalities and disadvantages as well as the role of perceptions of inequality and injustice. The authors also investigate the role of micro-processes, such as cultural consumption in the family, and the role of social psychological processes in historical Latin American unrest. By utilising leading approaches in social and political psychology and testing these approaches in the context of a very diverse and dynamic non-WEIRD (Western, Educated, Industrialized, Rich, and Democratic) societies, the authors bring the communities and civilizations less studied by Western social psychologists to the international audience. Focusing on how social and political processes unfold in different countries and providing insights into the psychological underpinnings of social unrest from a variety of perspectives, this is an essential reading for students and researchers of psychology, social, political, peace and cross-cultural psychology as well as political science and sociology.

Ideas en Educación II Ignacio Sánchez D.,2018 La educación ha sido tema recurrente de análisis y discusión en el último tiempo. Tras la publicación hace dos años del libro “Ideas en educación. Reflexiones y propuestas desde la UC”, se ha hecho necesario actualizar los contenidos, la información y propuestas a la luz de las modificaciones, avances y retrocesos que se han producido en el ámbito de la educación. Al igual que en el primer volumen, el objetivo es aportar a la discusión con una visión crítica y constructiva. Un grupo de destacados académicos e investigadores de la UC -la mayoría de ellos participaron también en el libro anterior- abordan, con una mirada renovada, temas como la autonomía universitaria, el marco regulatorio de la educación, el aseguramiento de la calidad, la educación inicial, las políticas de inclusión, la ley de desmunicipalización, la carrera docente, la educación técnico-profesional, el acceso y admisión a la educación superior, las formas de financiamiento, el desarrollo de las ciencias y la innovación, los estudiantes con necesidades educativas especiales, el aprendizaje de la diversidad y la formación ciudadana, entre otros. Se incluyen también nuevos enfoques que forman parte integral del quehacer educativo, particularmente en la educación superior. Estos son la formación general, el programa de Licenciatura en Estudios Generales o College y el área de gestión de asuntos estudiantiles. En varios temas el libro expresa más de una visión, lo cual da cuenta de la diversidad, del pluralismo y de la riqueza de la investigación de los académicos.

It highlights the challenges and possibilities for the countries of this region, and analyzes the evolution of the Social Economy's processes in order to ascertain its implications and social dimensions. Defensas Colectivas del Territorio en América Latina: persistencias y mutaciones Leonardo Garavito González,

Germán Cortés Millán, 2023 Esta publicación agrupa 17 capítulos derivados de trabajos de investigación. La primera parte se enfoca en América Latina e incluye ocho estudios localizados en Argentina, Chile y México. En estos se destaca la necesidad de pensar lo territorial como una categoría en disputa en escenarios sociopolíticos donde el modelo hegemónico de mercado ha impulsado dispositivos de control, prácticas privatizadoras o extractivistas. Por lo tanto, para buena parte de las comunidades y movimientos sociales la defensa territorial es una apuesta que articula tanto los esfuerzos para la denuncia y la resistencia, como para la realización de acciones que dignifican y transforman las condiciones de vida en los territorios. La segunda parte profundiza en el caso colombiano por medio de nueve capítulos. Un tema persistente en estos es la lucha por la tierra y la denuncia de diversas injusticias territoriales. Lo anterior suele ser acompañado de dificultades como una baja articulación entre actores (públicos, privados y comunitarios) y escalas territoriales (local, regional y nacional). Asimismo, se identifica una violencia persistente en contra de los líderes sociales, territoriales y ambientales. En este sentido, es relevante el desarrollo de marcos de comprensión y acción que permitan que la participación social y política trascienda de lo exclusivamente consultivo hacia lo más decisorio. En contraste, algunas mutaciones señalan que la defensa territorial en el país, concentrada tradicionalmente en los territorios rurales, tiende a desdoblarse también hacia los espacios urbanos y digitales. Por otra parte, emergen igualmente protagonismos de nuevos actores colectivos liderados por mujeres, jóvenes o grupos interculturales.

Forensic Anthropology Teams in Latin America Silvia Dutrénit-Bielous, 2019-11-06 This book charts the development of forensic anthropology teams in Latin America and surveys their main characteristics, achievements, and challenges in light of a recent past fraught with state repression and violence. The volume contains contributions by an interdisciplinary group of scholars from several Latin American universities, with chapters on Argentina, Chile, Uruguay, Peru, Guatemala, and Mexico. These countries' shared legacy is a host of human rights violations that continue to have an impact on present day society. Following the move towards democracy and a public demand for truth and justice, the volume highlights the role of forensic anthropology teams and their contribution as a source of information for the historical narrative, as a legal asset in enforcing the right to truth, and in achieving reparation for victims. This collection will be of interest to scholars from Anthropology, Latin American Studies, Politics, and History.

Formar al hombre de Estado. Génesis y desarrollo de la École libre des sciences politiques (1871-1900) Pedro L. López Herraiz, 2019-05-29 En 1871, tras el desastre de la derrota frente a Prusia, se creó en Francia una institución privada que ha formado a las élites políticas y administrativas del país desde aquel momento: la École libre des sciences politiques, actual Sciences Po. El objetivo de sus principales impulsores, Émile Boutmy e Hippolyte Taine, era sistematizar un estudio histórico-crítico de las emergentes ciencias políticas y legitimar a las nuevas élites a partir del criterio del mérito. Este libro lleva a cabo un análisis crítico del desarrollo de la institución durante sus primeras tres décadas de existencia atendiendo a diversos

elementos que condicionaron el cumplimiento de esos objetivos: la fuerte impronta de la ideología liberal y del positivismo en el proyecto, su carácter burgués, el conflicto con las facultades de derecho por el control de la enseñanza del derecho público y, por último, el recurso a categorías pretendidamente científicas como la raza o el carácter nacional para el estudio de los sistemas políticos inglés y norteamericano. A pesar de sus contradicciones, esta École jugó un rol fundamental en la institucionalización de las ciencias políticas y en la reordenación de los saberes sociales y jurídicos en el paso del siglo XIX al siglo XX.

Tiran al maricón. Los fantasmas "queer" de la democracia (1970-1988) Brice Chamouveau ,2018-03-05 Que España se haya convertido en una democracia sexual adelantada a escala planetaria no es nada evidente: las victorias de los sujetos LGBT+ de derecho bien podrían servir de lavado rosa a la crisis global que afecta a España desde el 2008. El libro propone una contrahistoria que desnaturalice el lazo entre constitucionalismo de 1978, clases medias consumidoras y reconocimiento LGBT+ para reencontrar a lxs excludxs de la modernidad posfranquista en clave histórica. Reacixs al lugar que les asignaba la democracia de las clases medias construyendo sus comunes en la transición, en 1980 lxs humanimales y las Pilinguis -los fantasmas queer de la democracia española- veían en el orden constitucional una barbarie institucionalizada, contra la que emprendieron intensas luchas culturales. De la interpretación de su derrota y muerte ante la biopolítica transicional pueden salir ruinas emergentes, chispas para encender otros futuros: no sólo rompen con la narrativa más sólida del imaginario moderno del tiempo presente, sino que apelan a pensar en tiempo futuro el devenir posmesocrático, poshumano y poscolonial de los comunes democráticos en territorio europeo.
