Contemporary Art and Multicultural Education Susan Cahan,Zoya Kocur,1996 Contemporary art and multicultural education is the first book of its kind to address the role of art within today's multicultural education. Co-published with the New Museum of Contemporary Art, this beautifully illustrated book provides both theoretical foundations and practical resources for art educators and students, combining exquisite color reproductions, statements from contemporary artists and interviews with notable educators. Absent from multicultural art education is an approach which connects everyday experience, social critique and creative expression with classroom learning; for students from widely-varied backgrounds and differing levels of English comprehension, art becomes a vital means of reflecting upon the nature of society and social existence. To this end, this volume features both works of art and artists' personal statements in English and Spanish with lesson plans which explore topics that connect what students learn in school to what life experiences might reveal.

Art He Sys Tavo y Maythe,2014-06-15 Cada persona es como una piedra, en un río que fluye de forma infinita, y al paso del agua, que es la fuerza de El Systema, es como nos tallamos entre nosotros y nos vamos puliendo hasta quedar con una superficie lisa y suave en nuestras capas exteriores. Cuando aprendo a fluir con la corriente del río, actuó sin sentirme lastimado, y sin lastimar a los demás con mis actos y mis palabras, me deslizo por el río de la vida disfrutando del viaje. Art He Sys nos enseña de forma sencilla, a mirarnos como parte de un todo, para aprender como interactuar mejor entre nosotros, de que manera nuestras acciones cuentan y a percibir las causas de los acontecimientos que nos suceden.

Prizefighting and Civilization David C. LaFevor,2020-05 In Prizefighting and Civilization: A Cultural History of Boxing, Race, and Masculinity in Mexico and Cuba, 1840-1940, historian David C. LaFevor traces the history of pugilism in Mexico and Cuba from its controversial beginnings in the mid-nineteenth century through its exponential rise in popularity during the early twentieth century. A divisive subculture that was both a profitable blood sport and a contentious public spectacle, boxing provides a unique vantage point from which LaFevor examines the deeper historical evolution of national identity, everyday normative concepts of masculinity and race, and an expanding and democratizing public sphere in both Mexico and Cuba, the United States' closest Latin American neighbors. Prizefighting and Civilization explores the processes by which boxing--once considered an outlandish purveyor of low culture--evolved into a nationalized pillar of popular culture, a point of pride that transcends gender, race, and class.

The Sound Sculptures of Bernard and François Baschet François Baschet,2017-04-12 This book is a classic in the history of art. In it François Baschet recounts the research and creation of his Sound Sculptures, with which he began a pioneering career combining art and science, sculpture and music. The willingness to share his findings inspired another breakthrough: participatory exhibitions, spaces where everyone could explore and play with sound. François Baschet's conception of acoustics—a method of understanding the functional relations between form, matter, action and sound—not only gave rise to the invention of hundreds of Sound Sculptures of all sizes and sonority, which can be found all over the world, but also led François and his brother to collaborate with personalities such as Jean Cocteau, Pierre Schaeffer and ToruTakemitsu. François Baschet relates a funny collection of stories about the artistic life in Paris and New York in 40s and

60s. This reissue of *The Sound Sculptures* of Bernard and François Baschet includes fragments still unpublished when the first edition appeared, and incorporates the original text of the *Organologie des Structures Sonores* Baschet (written by the two brothers), with Spanish translations.
