Doing History Linda S. Levstik, Keith C. Barton, 2022-09-06 Now in its sixth edition, *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades. Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The book is grounded in the view that children can engage in valid forms of historical inquiry—asking questions, collecting and analyzing evidence, examining the varied perspectives and experiences of people in the past, and creating evidence-based historical accounts and interpretations. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, and discussion. The authors explain how these classrooms reflect contemporary principles of teaching and learning, and thus, the descriptions not only provide specific examples of successful activities but also place them in a context that allows teachers to adapt and apply them in a wide range of settings. *Doing History* emphasizes diversity in two ways: Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning, and they also see examples of how teachers can engage students with diverse experiences and perspectives in the past, including those that led to conflict and oppression. The book also discusses principles for working with English learners and newcomers, and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning. Updates to this edition include updated historical and instructional examples to ensure currency, new suggestions for children's literature to support good teaching, expanded attention to teaching about oppressed groups in history, and greater attention to when historical perspective taking is and is not appropriate.

This book will be an invaluable tool to help school librarians and teachers broach the difficult task of beginning to teach the research process. Grades 3-8.

Strongman Kenneth C. Davis, 2020-10-06 A dramatic account of the origins of democracy, the history of authoritarianism, and the reigns of five of history's deadliest dictators. A Washington Post Best Book of the Year from the

bestselling author of the Don't Know Much About® books What makes a country fall to a dictator? How do authoritarian leaders—strongmen—capable of killing millions acquire their power? How are they able to defeat the ideal of democracy? And what can we do to make sure it doesn't happen again? By profiling five of the most notoriously ruthless dictators in history—Adolf Hitler, Benito Mussolini, Joseph Stalin, Mao Zedong, and Saddam Hussein—Kenneth C. Davis seeks to answer these questions, examining the forces in these strongmen's personal lives and historical periods that shaped the leaders they'd become. Meticulously researched and complete with photographs, Strongman provides insight into the lives of five leaders who callously transformed the world and serves as an invaluable resource in an era when democracy itself seems in peril. Praise for Strongman A Bank Street College of Education Best Book of the Year A YALSA 2021 Nonfiction Award Nominee "A fascinating, highly readable portrayal of infamous men that provides urgent lessons for democracy now." —Publishers Weekly, starred review "Strongman is a book that is both deeply researched and deeply felt, both an alarming warning and a galvanizing call to action, both daunting and necessary to read and discuss." —Cynthia Levinson, author of Fault Lines in the Constitution

Growing Readers Kathy Collins, 2004 Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the

reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four Getting Ready sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens.
