John Anthony McGuckin

Eastern Christendom Nicolas Zernov, 1963

The Eastern Orthodox Church John Anthony McGuckin, 2020-03-17 An insider's account of the Eastern Orthodox Church, from its beginning in the era of Jesus and the Apostles to the modern age. In this short, accessible account of the Eastern Orthodox Church, John McGuckin begins by tackling the question "What is the Church?" His answer is a clear, historically and theologically rooted portrait of what the Church is for Orthodox Christianity and how it differs from Western Christians' expectations. McGuckin explores the lived faith of generations, including sketches of some of the most important theological themes and individual personalities of the ancient and modern Church. He interweaves a personal approach throughout, offering to readers the experience of what it is like to enter an Orthodox church and witness its liturgy. In this astute and insightful book, he grapples with the reasons why many Western historians and societies have overlooked Orthodox Christianity and provides an important introduction to the Orthodox Church and the Eastern Christian World.

The Early Eastern Orthodox Church Stephen Morris, 2018-09-24 It seemed good to the Holy Spirit and to us, the apostles declared at the conclusion of their council described in Acts 15. This apostolic council was the first of many councils to come as Christians sought to discern the will of God in the midst of historic challenges. The faithful continued to struggle to express their new apostolic faith in new words, new languages, new places and new times. Many issues--the interaction of science and faith, divinity and humanity, Church and State--continue to be pertinent today. This book tells the story of these struggles from the days of the New Testament to the fall of the city of Constantinople in AD 1453. It focuses on the Christian community in the eastern Mediterranean which became known as the Byzantine Empire. Each chapter examines the personalities and theologies entwined at the heart of conflicts that shaped the medieval world as well as the modern cultures of Greece, the Middle East and Eastern Europe.

The Eastern Orthodox Church Ernst Benz, 2017-09-29 Western European Christendom finds it difficult to comprehend the Eastern Orthodox Church because it knows little about the practice and doctrines of Orthodoxy. Even what is known is overlaid by many strata of prejudices and misunderstandings, partly political in nature. One of the obstacles has been the natural tendency to confound the ideas and customs of the Orthodox Church with familiar parallels in Roman Catholicism. To escape this tradition pitfall, Ernst Benz focuses on icon painting as a logical place to begin his examination of the Orthodox

Church. Beginning with a brilliant discussion of the importance of icons in the Eastern Church--and the far-reaching effects of icons on doctrine as well as art--Benz counteracts the confusion, explaining simply and clearly the liturgy and sacraments, dogma, constitution and law of Eastern Orthodoxy. In brief history, he describes the rise of Orthodox national churches, schismatic churches, and churches in exile; the role of monasticism and its striking differences from Roman Catholic monasticism; the missionary work of the Orthodox Church; and the influence of Orthodoxy on politics and culture. The role of the church can be defined in terms of the image. Benz writes that the church exists so that members may be incorporated into the image of Jesus Christ in that individual believers are 'exchanged into his likeness' as Paul writes in the second letter to the Corinthians. Thus, Orthodox theology holds up the icon as the true key to the understanding of Orthodox dogma. The Eastern Orthodox Church will be valuable to anyone interested in learning more about the church, its thought, its life, and its ideals.

Considers the belief tradition, spirituality, liturgical diversity, and Biblical heritage of the Eastern Churches; their endurance of oppressions and totalitarianisms; and their contemporary need to rediscover their voice and confidence in a new world-order. Deification in Eastern Orthodox Theology Emil Bartos, 2007-01-01 In recent years, Eastern Orthodox thought has had an increasing influence on key aspects of contemporary Western Christian thought, particularly as regards the doctrine of the Trinity and mystical spirituality. However, the foundations and fundamental presuppositions of Eastern Christianity's theological system have remained largely unstudied -- and thus unknown -- in the West. In this important study, Emil Bartos examines the doctrine of deification which provides the conceptual basis for the way Staniloae and other Orthodox theologians understand the major doctrines of the Christian faith. The idea that God became man that man might become

God sounds almost heretical to many Western ears, yet this affirmation is repeated countless times in the writings of the Eastern Fathers. Beginning with the apophaticism that lies at the heart of Eastern theology, Bartos examines each of the key doctrines of anthropology, christology, soteriology and ecclesiology as they relate to deification in Staniloae's thought. Bartos' study represents not merely a contribution to contemporary dialogue between Eastern and Western theologians, but also a much needed introduction to an aspect of Christian thought down the centuries that is largely neglected in the Christian West.

Eastern Orthodox Mission Theology Today James J. Stamoolis, 2001-11-02 The purpose of the ASM Series is to publish, without regard for disciplinary, national, or denominational boundaries, scholarly works of high quality and wide interest on missiological themes from the entire spectrum of scholarly pursuits, e.g., theology, history, anthropology, sociology, linguistics, health, education, art, political science, economics, and development, to articulate but a partial list. Always the focus will be on Christian mission. By mission in this context is meant a cross-cultural passage over the boundary between faith in Jesus Christ and its absence. In this understanding of mission, the basic functions of Christian proclamation, dialogue, witness, service, fellowship, worship, and nurture are of special concern. How does the transition from one cultural context to another influence the shape and interaction of these dynamic functions? Missiologists know that they need the other disciplines. And other disciplines, we dare to suggest, need missiology, perhaps more than they sometimes realize. Neither the insider's nor the outsider's view is complete in itself. The world Christian mission has through two millennia amassed a rich and well-documented body of experience to share with other disciplines. Interaction will be the hallmark of this Series. It desires to be a channel for talking to one another instead of about one another. Secular scholars and church-related missiologists have too long engaged in a sterile venting of feelings about one another, often lacking in full evidence. Ignorance of and indifference to one another's work has been no less harmful to good scholarship. The promotion of scholarly dialogue among missiologists may, at times, involve the publication of views and positions that other missiologists cannot accept, and with which members of the Editorial Committee do not agree. The manuscripts published reflect the opinions of their authors and are not meant to represent the position of the American Society of Missiology or the Editorial Committee of the ASM Series. We express our warm thanks to various mission agencies whose financial contributions enabled leaders of vision in the ASM to launch this new venture. The future of the ASM series will, we feel sure, fully justify their confidence and support. William J. Danker, Chairperson ASM Series Editorial Committee

Eastern Orthodox Christianity and American Higher Education Ann Mitsakos Bezzerides, Elizabeth H. Prodromou, 2017-01-15 Over the last two decades, the American academy has engaged in a wide-ranging discourse on faith and learning, religion and higher education, and Christianity and the academy. Eastern Orthodox Christians, however, have rarely participated in these conversations. The contributors to this volume aim to reverse this trend by offering original insights from Orthodox Christian perspectives that contribute to the ongoing discussion about religion, higher education, and faith and learning in the United States. The book is divided into two parts. Essays in the first part explore the historical

experiences and theological traditions that inform (and sometimes explain) Orthodox approaches to the topic of religion and higher education—in ways that often set them apart from their Protestant and Roman Catholic counterparts. Those in the second part problematize and reflect on Orthodox thought and practice from diverse disciplinary contexts in contemporary higher education. The contributors to this volume offer provocative insights into philosophical questions about the relevance and application of Orthodox ideas in the religious and secular academy, as well as cross-disciplinary treatments of Orthodoxy as an identity marker, pedagogical framework, and teaching and research subject.

Eastern Orthodox Encounters of Identity and Otherness A. Krawchuk, T. Bremer, 2014-01-16 From diverse international and multi-disciplinary perspectives, the contributors to this volume analyze the experiences, challenges and responses of Orthodox Churches to the foundational transformations associated with the dissolution of the USSR.
