Watching Glass Shatter James J. Cudney, 2021-12-21 After 40 years of marriage, Olivia's husband unexpectedly passes away. But when Ben's will reveals a life-altering secret, she suffers a blow no widow should ever experience. Olivia learns that she gave birth to a baby who later died in the nursery. Instead of telling his wife what happened, Ben switched the child with another. And as if that's not enough, Ben's will doesn't reveal which of their five sons is truly not hers. Olivia visits each of her sons to share a final connection before facing the truth that will change their family, and discovers that each of them has been harboring a painful secret, just like their father. But will the secrets destroy their family, or bring them closer together?

Friction Anna Lowenhaupt Tsing, 2024-08-06 What the struggle over the Indonesian rainforests can teach us about the social frictions that shape the world around us Rubbing two sticks together produces heat and light while one stick alone is just a stick. It is the friction that produces movement, action, and effect. Anthropologist Anna Lowenhaupt Tsing challenges the widespread view that globalization invariably signifies a clash of cultures, developing friction as a metaphor for the diverse and conflicting social interactions that make up our contemporary world. Tsing focuses on the rainforests of Indonesia, where in the 1980s and 1990s capitalist interests increasingly reshaped the landscape not so much through corporate design as through awkward chains of legal and illegal entrepreneurs that wrested the land from previous claimants, creating resources for distant markets. In response, environmental movements arose to defend the rainforests and the communities of people who live in them. Not confined to a village, province, or nation, the social drama of the Indonesian rainforests includes local and national environmentalists, international science, North American investors, advocates for Brazilian rubber tappers, United Nations funding agencies, mountaineers, village elders, and urban students—all drawn into unpredictable, messy misunderstandings, but misunderstandings that sometimes work out. Providing an invaluable portfolio of methods for the study of global interconnections, *Friction* shows how cultural differences are in the grip of worldly encounter and reveals how much is overlooked in contemporary theories of the global.

Maya Intellectual Renaissance Victor D. Montejo, 2010-01-01 When Mayan leaders protested the celebration of the Quincentenary of the discovery of America and joined with other indigenous groups in the Americas to proclaim an alternate celebration of 500 years of resistance, they rose to national prominence in Guatemala. This was possible in part because of

the cultural, political, economic, and religious revitalization that occurred in Mayan communities in the later half of the twentieth century. Another result of the revitalization was Mayan students' enrollment in graduate programs in order to reclaim the intellectual history of the brilliant Mayan past. Victor Montejo was one of those students. This is the first book to be published outside of Guatemala where a Mayan writer other than Rigoberta Menchu discusses the history and problems of the country. It collects essays Montejo has written over the past ten years that address three critical issues facing Mayan peoples today: identity, representation, and Mayan leadership. Montejo is deeply invested in furthering the discussion of the effectiveness of Mayan leadership because he believes that self-evaluation is necessary for the movement to advance. He also criticizes the racist treatment that Mayans experience, and advocates for the construction of a more pluralistic Guatemala that recognizes cultural diversity and abandons assimilation. This volume maps a new political alternative for the future of the movement that promotes inter-ethnic collaboration alongside a reverence for Mayan culture.

Born to be a Footballer: My Autobiography Liam Brady, 2023-10-12 'A brilliant insight into Liam's life in football' - Kevin Moran 'Insightful, often joyous, and hugely entertaining. I loved it' - Roddy Doyle 'One of our country's great footballers, and definitely our most beautiful' - John Giles Being a footballer was my destiny. After being expelled from school for playing football for his country, fifteen-year-old Liam Brady travelled to London to join Arsenal, and soon became an indispensable part of their glorious 1970s team. Rightly considered one of the Republic of Ireland's best-ever footballers, he went on to enjoy successes with Juventus, Sampdoria and West Ham, as well as managing Celtic and Brighton and Hove, and becoming assistant manager of his national team. Today he is best known for his much-respected TV punditry and searingly intelligent insights into the game he adores. Full of honest insights, amusing anecdotes and recollections of extraordinary times, with *Born to be a Footballer* Brady delivers a compelling story of a fifty-year career that is unparalleled in Irish sport.

Nietzsche's Thus Spoke Zarathustra James Luchte, 2011-11-03 Nietzsche famously regarded *Thus Spoke Zarathustra* as his greatest work. However, despite Nietzsche's pervasive influence upon the philosopher and non-philosopher alike, and his own intense regard for *Zarathustra*, there has been relatively little serious study of Nietzsche's magnum opus. This book seeks to address this gap in the available literature by taking *Thus Spoke Zarathustra* seriously, not only with respect to its impact on the interpretation of Nietzsche's philosophy, but also in light of the broader questions of the relationships between poetry, philosophy and existence. Fifteen leading Nietzsche scholars examine the structure, method, style and sources of *Zarathustra* as a philosophical text and its relationship to methodological and metaphilosophical questions amid the broader discussions of philosophy. The book also explores the implications of the philosophical questioning, interventions and teachings of *Zarathustra* with respect to both its negative engagement with the tradition and its attempt to set forth

something new under the sun in its affirmative overcoming of nihilism.

Education and Cultural Studies Henry A. Giroux,Patrick Shannon,2013-12-02 Although the disciplines of critical education and cultural studies have traditionally occupied separate spaces as they have addressed different audiences, their concerns as well as the political and pedagogical nature of their work overlap. Education and Cultural Studies brings members of these two groups together to demonstrate how a critical understanding of culture and education can transgressively implement broad political change. All written from within this framework of cultural studies and critical pedagogy, the contributors illuminate the possibilities and opportunities open to practicing educators. In eschewing a romantic utopianism, and in assessing the current climate of what is attainable and practical, this book teaches us how we can begin to translate and perhaps even transform the vexing social problems that confront us daily. Contributors include Carol Becker, Harvey J. Kaye, David Theo Goldberg, Jeffrey Williams, Sharon Todd, Douglas Kellner, Deborah Britzman, Jacqueline Reid-Walsh, Claudia Mitchell, Cameron McCarthy, Mike Hill, Susan Searls, Stanley Aronowitz, Douglas Noble, Kakie Urch, Henry Giroux, David Trend, and Robert Mikilitsch.

Narrative Methods for Organizational & Communication Research David M. Boje, 2001-07-12 `The book is a unique and excellent introduction to postmodern narrative analyses' - Organization Studies `[This book] should succeed in putting the metaphorical cat amongst just about every metaphorical pigeon that might imaginably take flight within the organization and communication research arenas. Story time will never be the same again, nor will interpretative research' - Stewart Clegg, University of Technology, Sydney `Timely and first rate. It nicely stretches a reader's thinking about the topic' - Thomas Lee, University of Washington, School of Business `David Boje is a pioneering theorist in organization studies and management... [His book] is yet another example of Boje's pioneering spirit and concern for exactitude. [His] scholarly account of narrative and antenarrative methods is both corrective and exploratory of how stories must be understood in terms of their own internal dynamics, and not viewed as static entities. Boje's book is a magnificent start... A book that breaks new ground in organizational analysis, this is a must-read for researchers and practitioners in the fields of organization and management studies' - Adrian Carr, University of Western Sydney `Boje masterfully shows how to analyze texts and ideas before they are reduced and fitted into the dominant ideological frameworks of the day. [He] provides a powerful tool for achieving greater democracy in how we approach doing social science... [and] liberates our capacity to make meanings for ourselves' - Paul Hirsch, Northwestern University, Kellogg Graduate School of Management `This is an important book. It is a major methodological contribution to critical, postmodern studies of organizations and management. It is essential reading for critical management scholars' - Robert P. Gephart, Jr., University of Alberta School of Business `David Boje has emerged as the leading postmodern thinker in management theory and organization science. His prolific output lights the path for others to follow in a field awakening to the challenge of postmodern critical theory. Updating and revising narrative theory for the prevailing postmodern condition, Boje masterfully reconstructs the concepts and methods of storytelling, as he subverts the dominant principles of modernist organization theory. He offers a subtle and complex notion of narrative... This impressive book should leave an indelible mark on management and organization studies' - Steven Best, University of Texas, El Paso An essential guide for academics and researchers needing to look at alternative discourse analysis strategies. As a research tool, narrative methods have become increasingly useful in organization studies, where much research involves the interpretation of 'stories' in some form. This methodology can be applied where qualitative story analyses can help to assess interview, newspaper or web document stories for research projects. In this book, Boje sets out eight analysis options that can deal with storytelling, recognizing that stories in organizations can be self-destructing, flowing, networking and not at all static. In so doing, he shows ways in which narrative methods can be supplemented by 'antenarrative' methods, where fragmented and collective storytelling can be interpreted. A valuable resource that will be widely used in organizational or communications research, for graduate level qualitative methods seminars and by researchers wanting to do story analysis. David Boje is Professor at the New Mexico State University. He is also on the

editorial board of the journal Organization.

Leadership, Gender and Ethics David Knights,2021-02-03 This book has a clear concern to offer a distinctive way of studying leadership so that it might be practiced differently. It is distinctive in focusing on contemporary concerns about gender and ethics. More precisely, it examines the masculinity of leadership and how, through an embodied form of reasoning, it might be challenged or disrupted. A central argument of the book is that masculine leadership elevates rationality in ways that marginalize the body and feelings and often has the effect of sanctioning unethical behavior. In exploring this thesis, *Leadership, Gender and Ethics: Embodied Reason in Challenging Masculinities* provides an analysis of the comparatively neglected issues of identity/anxiety, power/resistance, diversity/gender, and the body/masculinities surrounding the concept and practice of leadership. It also illustrates the arguments of the book by examining leadership

through an empirical examination of academic life, organization change and innovation, and the global financial crisis of 2008. In a postscript, it analyses some examples of masculine leadership in the global pandemic of 2020. This book will be of interest generally to researchers, academics and students in the field of leadership and management and will be of special interest to those who seek to understand the intersections between leadership and gender, ethics and embodied approaches. It will also appeal to those who seek to develop new ways of thinking and theorizing about leadership in terms of identities and insecurities, power and masculinity, ethics and the body. Its insights might not only change studies but also practices of leadership.
