Houses of Mexico Verna Cook Shipway, Warren Shipway, 2012-02-16 *Houses of Mexico* delves into the roots of the bold yet elegant Mexican style, illustrated with many photographs from Spain and Portugal reflecting the Moorish influence. In addition to extensive coverage of the architecture of the houses, the book shows other spatial and decorative elements, including iron gates and grilles that give an atmosphere of seclusion; stairways that seem to grow out of the walls without any support; and old paintings, combs, ceramics, and character figures used in festivals, as well as ancient pre-Columbian figurines.

Mexican Political Biographies, 1935-2009 Roderic Ai Camp, 2011-10-01 This fourth edition of Roderic Camp's highly respected Mexican Political Biographies is an updated comprehensive biographical directory of leading state and national politicians in Mexico, covering the years 1935–2009. The original edition, published in 1976, was the first and only comprehensive biographical work on contemporary political figures in any language and served as the prototype for the Mexican government's brief foray into its own official biographical directory. The Mexican Supreme Court has cited every biography of justices in the third edition as the basis of its biographies in the late 1980s. With updates of the existing biographies and appendices, plus almost 1,000 additional biographies, this fourth edition now features close to 3,000 entries and serves as a unique resource list of the chronological occupants of all leading national political posts. The need for such information has become even more pronounced since Mexico's political transformation from a semi-authoritarian to a democratic model. This latest edition allows readers access to information about Mexican politicians into the new century, and like its earlier versions, will be a valuable tool for government officials, journalists, historians, social scientists, the business community, and students. Finally, it includes a detailed bibliographic essay that identifies and explains the significance of biographical sources and has been enhanced by numerous up-to-date Internet sources. An added convenience is an accompanying CD that allows readers to search the biographies and appendices, enhancing the longevity, usefulness, and uniqueness of this edition.

Not Ours Alone Elizabeth Emma Ferry,2005 Elizabeth Ferry explores how members of the Santa Fe Cooperative, a silver mine in Mexico, give meaning to their labor in an era of rampant globalization. She analyzes the cooperative's practices and the importance of patrimonio (patrimony) in their understanding of work, tradition, and community. More specifically, she argues that patrimonio, a belief that certain resources are inalienable possessions of a local collective passed down to subsequent generations, has shaped and sustained the cooperative's sense of identity.

Antropología política Héctor Tejera Gaona, 1996-01-01 La diversidad y profundidad de los cambios políticos que la sociedad mexicana ha manifestado en los últimos años requiere, para su mejor comprensión, de las aportaciones que la antropología política ha realizado en cuanto a la cultura como factor de transformación social. No obstante que la cultura política se ha convertido en punto de reflexión ineludible, en el debate acerca de los obstáculos y posibilidades que nuestra sociedad mexicana para democratizarse, el término se emplea regularmente para referirse a principios, normas y actitudes relacionados con la convivencia política, o se asocia al conocimiento por parte de la ciudadanía, de la normatividad que rige los procesos electorales, entre otros. Sin embargo, conocer la cultura política de nuestro país, requiere estudiar los valores, tradiciones, representaciones y racionalizaciones con base en las cuales los mexicanos actuamos y nos relacionamos. Este libro presenta una selección de estudios con significativas aportaciones para el entendimiento de procesos políticos que se suscitan en los ámbitos rural y urbano de nuestro país, desde una perspectiva que no solamente involucra a quienes estudian a la sociedad desde un enfoque antropológico, sino a especialistas en otras disciplinas sociales. Brinda un panorama de la dinámica política actual en diversos sectores de nuestra sociedad y aborda cuestiones fundamentales para su comprensión tales como: el análisis de la cultura política; las experiencias de autonomía política y el derecho consuetudinario; el funcionamiento interno y desarrollo sociopolítico de organizaciones sindicales, urbanopopulares, indígenas y campesinas, y la acción de instituciones gubernamentales. Incluye estudios sobre partidos políticos y comportamiento electoral, y los efectos de la globalización económica sobre la cultura y la política nacionales, entre otros. En su versión preliminar, los textos que

integran esta obra fueron presentados al seminario Antropología política: nuevos análisis y enfoques de estudio, organizado por el Instituto Nacional de Antropología e Historia. Dicho seminario tuvo como objetivo central conocer, discutir y enriquecer los resultados más recientes de investigadores pertenecientes a instituciones diversas pero con un interés común: contribuir al conocimiento de las prácticas políticas del México actual y a su indispensable transformación.
