The History of the Book in South Asia Francesca Orsini,2016-12-05 The History of the Book in South Asia covers not only the various modern states that make up South Asia today but also a multitude of languages and scripts. For centuries it was manuscripts that dominated book production and circulation, and printing technology only began to make an impact in the late eighteenth century. Print flourished in the colonial period and in particular lithographic printing proved particularly popular in South Asia both because it was economical and because it enabled multi-script printing. There are now vibrant publishing cultures in the nation states of South Asia, and the essays in this volume cover the whole range from palm-leaf manuscripts to contemporary print culture.

Knit India Through Literature Volume I - The South Sivasankari, 2024-05-23 '*Knit India Through Literature...*' is a mega

literary project, first of its kind in Indian literature, is the result of the penance-yagna done for 16 years by Sivasankari, noted Tamil writer. 'Knit India Through Literature' has involved intense sourcing, research and translation of literature from 18 Indian languages. The project she says aims to introduce Indians to other Indians through literature and culture and help knit them together. The interviews of stalwart writers from all 18 languages approved by the eighth schedule of Indian Constitution, accompanied by a creative work of the respective writer are published with her travelogues of different regions, along with an indepth article by a scholar on the cultural and literary heritage of each of the language, in four volumes - South, East, West and North respectively. Her travelogues, her interviews and the overview of each literature she has sought, all reveal one important unity... the concern our writers and poets express in their works for the problems that beset our country today. Through her project Sivasankari feels writers can make an invaluable contribution with their writings to change the thinking of the people and help eliminate those problems. In this volume 'South' she deals with four languages Malayalam, Kannada, Telugu and Tamil that are spoken in southern region of India.

Handbook of Twentieth-Century Literatures of India Nalini Natarajan, 1996-09-09 India has a rich literary assemblage produced by its many different regional traditions, religious faiths, ethnic subcultures and linguistic groups. The published literature of the 20th century is a particularly interesting subject and is the focus of this book, as it represents the provocative conjuncture of the transitions of Indian modernity. This reference book surveys the major regional literatures of contemporary India in the context of the country's diversity and heterogeneity. Chapters are devoted to particular regions, and the arrangement of the work invites comparisons of literary traditions. Chapters provide extensive bibliographies of primary works, thus documenting the creative achievement of numerous contemporary Indian authors. Some chapters cite secondary works as well, and the volume concludes with a list of general works providing further information. An introductory essay overviews theoretical concerns, ideological and aesthetic considerations, developments in various genres, and the history of publishing in regional literatures. The introduction provides a context for approaching the chapters that follow, each of which is devoted to the literature of a particular region. Each chapter begins with a concise introductory section. The body of each chapter is structured according to social and historical events, literary forms, or broad descriptive or analytic trends, depending on the particular subject matter. Each chapter then closes with an extensive bibliography of primary works, thus documenting the rich literary tradition of the region. Some chapters also cite secondary sources as an aid to the reader. The final chapters of the book address special topics, such as sub-cultural literatures, or the interplay between literature and film. A list of additional sources of general information concludes the volume.

Pathways to Nationalism S. Ganeshram, 2016-09-13 This book examines the socio-economic factors in the rise and development of nationalism in the Tamil-speaking region of the Madras Presidency in India between 1858 and 1918. It analyses the dynamic interaction between socio-economic conditions and nationalism in Tamil Nadu by applying both historical methods of documentary analysis and a sociological perspective. The volume looks at the advent of Western education and the role of Christian missionaries, the growth of the local press, socio-religious reform movements, decline of indigenous industries and the land revenue policies of the colonial government to arrive at a comprehensive portrait of the rise of nationalism in the Madras Presidency. The volume is invaluable for scholars of colonial history and the Indian freedom movement in southern India.

The Novel in India T. W. Clark, 2022-09-01 First published in 1970, *The Novel in India* traces the birth and development of prose fiction in Bengali, Marathi, Urdu, Hindi, Tamil and Malayalam. It is addressed not only to academic students of Asian culture but to all who are interested in literary history. India and Pakistan have many great literatures, but they are almost unknown beyond their own boundaries. Language is a formidable barrier, and this book is offered in the hope that it can bridge the cultural divide that language has created. It has a fascinating story to tell of the endeavours, experiments and achievements of writers who deserve to be better known outside their native land.

Indian Modernities Nishat Zaidi, 2023-08-25 This volume studies the ways in which modernity has been conceived, practiced, and performed in Indian literatures from the eighteenth to the twentieth century. It brings together essays on writings in Hindi, Urdu, Punjabi, Bengali, Odia, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, and languages from Northeast India, which form a dialogical relationship with each other in this volume. The concurrence and contradictions emerging through these studies problematize the idea of modernity afresh. The book challenges the dominance of colonial modernity through sociohistorical and cultural analysis of how modernity surfaces as a multifaceted phenomenon when contextualized in the multilingual ethos of India. It further tracks the complex ways in which modernism in India is tied to the harvests of modernity. It argues for the need to shift focus on the specific conditions that gave shape to multiple modernities within literatures produced from India. A versatile collection, the book incorporates engagements with not just long prose fiction but also lesser-known essays, research works, and short stories published in popular magazines. This unique work will be of interest to students and teachers of Indian writing in English, Indian literatures, and comparative literatures. It will be

indispensable to scholars of South Asian studies, literary historians, linguists, and scholars of cultural studies across the globe.
