After five years on the run Court Gentry is back on the inside at the CIA. But his first mission makes him wish he had stayed on the outs when a pair of Chinese agents try to take him down in Hong Kong. Normally the Chinese prefer to stay eyes-only on foreign agents. So why are they on such high alert? Court's high stakes hunt for answers takes him across Southeast Asia and leads to his old friend, Donald Fitzroy, who is being held hostage by the Chinese. Fitzroy was contracted to find Fan Jiang, a former member of an ultra-secret computer warfare unit responsible for testing China's own security systems. And it seems Fan may have been too good at his job—because China wants him dead. The first two kill teams Fitzroy sent to find Fan have disappeared and the Chinese have decided to “supervise” the next operation. Noir Fiction and Film Lee Clark Mitchell, 2021 The argument of *Noir Fiction and Film* is curiously counterintuitive: that in a century of hard-boiled fiction and detective films, characteristics that at first seemed trivial swelled in importance,

flourishing into crucial aspects of the genre. Among these are aimless descriptions of people and places irrelevant to plot, along with detectives consisting of little more than sparkling dialogue and flippant attitudes. What weaves together such features, however, seems to be a paradox: that a genre rooted in solving a mystery, structured around the gathering of clues, must do so by misdirecting our attention, even withholding information we think we need to generate the suspense we also desire. Yet successful noir stories and films enhance that suspense through passing diversions (descriptive details and eccentric perspectives) rather than depending on the center pieces of plot alone (suspected motives or incriminating traces). As the greatest practitioners of the genre have realized, the how of detective fiction (its stylistic detours) draws us in more insistently than the what or the who (its linear advance). And the achievement of recent film noir is to make that how become the tantalizing object of our entire attention, shorn of any pretense of reading for the plot, immersing us in the diversionary delight that has animated the genre from the beginning.
