Theological Interpretation of Culture in Post-Communist Context Ivana Noble,2016-12-05 Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization - post-secularization debate. Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature, music and film, which formed not only alternatives to totalitarian ideologies, but also followed the loss and reappearance of belief in God. Noble explains that, by listening to the artists, the churches and theologians can deal with questions about the nature of the world, memory and ultimate fulfilment in a more nuanced way. Then, as partakers in the search undertaken by their secular and post-secular contemporaries, theologians can penetrate a new depth of meaning, sending out shoots from the stump of Christian symbolism. Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions, this book presents a theological reading of contemporary culture which is important not just for post-Communist countries but for all who are engaged in the debate on

the boundaries between theology, politics and arts.

Spinoza and the Philosophy of Love Michael Strawser,2021-08-27 In Spinoza and the Philosophy of Love, Michael Strawser provides a new reading of Spinoza as a philosopher of love, and one who centers his thought on an ethically qualified conception of noble love. Strawser examines the threefold conception of love found in Spinoza's Ethics and argues that what is most important for Spinoza's philosophy is a unified conception of love centered on nobility (amor sive generositas). This active conception of love can conquer hatred and bring people together. Situating Spinoza's philosophy of love within both Jewish and Western philosophical traditions, Strawser investigates questions in the philosophy of love together with Spinoza and thinkers such as Saadia Gaon, Maimonides, Leone Ebreo, Tullia d'Aragona, and René Descartes. He shows how Spinoza deepens our understanding of amorous perfectionism and how this reading of Spinoza's philosophy of love serves as both a corrective to problematic readings, such as those found in Isaac Bashevis Singer and Emmanuel Levinas, and a counter to speciesism. With careful examination of Spinoza's writings, Strawser demonstrates that the goal of his philosophy is best understood as the love of other people who are to be helped and united with in friendship. Ultimately, Spinoza's philosophy of love calls for collective nobility.

City Scriptures Murray Baumgarten,1982 This richly suggestive book examines the common bonds of thought and shared manner of expression that unite Jewish writers working in America, Eastern Europe, and Israel. Murray Baumgarten shows how Jewish traditions are reflected in the themes and narrative style of a diverse group of writers, including Saul Bellow, Henry Roth, Sholom Aleichen, Isaac Babel, and S.Y. Agnon. Baumgarten finds in these writers a distinctive and symbolic use of the urban scene and style of life—whether the city is Brooklyn, Chicago, Vienna, Warsaw, Odessa, or Jerusalem. He examines the pariah stance, and the different kinds of tension between freedom from communal ties and the pull of traditional culture. He demonstrates how Yiddish can flavor and inflect the syntax, how scripture can permeate the thinking and narrative devices, in writers of various nationalities.

Western Thinker's in Political Science Dr.Shrikant Yelegaonkar,2015-04-23 Political science is a social science

discipline that deals with systems of government and the analysis of political activity and political behavior. It deals extensively with the theory and practice of politics which is commonly thought of as the determining of the distribution of power and resources. Political scientists see themselves engaged in revealing the relationships underlying political events and conditions, and from these revelations they attempt to construct general principles about the way the world of politics works.

Modernity and Its Discontents Steven B. Smith, 2016-08-09 Steven B. Smith examines the concept of modernity, not as the end product of historical developments but as a state of mind. He explores modernism as a source of both pride and anxiety, suggesting that its most distinctive characteristics are the self-criticisms and doubts that accompany social and political progress. Providing profiles of the modern project's most powerful defenders and critics—from Machiavelli and Spinoza to Saul Bellow and Isaiah Berlin—this provocative work of philosophy and political science offers a novel perspective on what it means to be modern and why discontent and sometimes radical rejection are its inevitable by-products.

Follow My Footprints Sylvia Barack Fishman, 1992 This anthology focuses on women in Jewish fiction and presents a vivid panorama of Jewish life in the United States over the past one hundred years.

Isaac Bashevis Singer: His Work and his World Hugh Denman, 2021-12-28 A quarter of a century after Isaac Bashevis Singer was awarded the Nobel Prize for Literature it is time to take stock of his achievement. Penetrating studies of his fictional and autobiographical works by leading scholars in the field reveal that for all the acclaim he has received on the basis of the English versions of his works, no adequate evaluation of Bashevis's significance can be made without careful examination of the original Yiddish texts. Critical readings assess inter alia his themes and motifs, the impact of Kabbalah on his work, reflections of society in his original Polish homeland as well as his place within the context of contemporary Jewish American letters and the canon of modern Yiddish and Hebrew writing.

From Ecclesiastes to Simone Weil Ernest Rubinstein, 2014-08-06 From Ecclesiastes to Simone Weil: Varieties of Philosophical Spirituality reads major philosophers from the Western philosophical canon and beyond for the spirituality implicit in their metaphysics, epistemology, ethics, aesthetics, and logic. Its aim is to revive for the modern reader the spiritual import of philosophy as an area of inquiry and study. Spirituality is understood as a lived orientation towards the sacred. The sacred is characterized as the source of all being and human wellbeing. Philosophy is presented as an avenue of approach to the sacred alternative to the western religious traditions. Philosophers treated include Plato, Descartes, Spinoza,

Kant, Hegel, Kierkegaard, Emerson, William James, Bertrand Russell, and Simone Weil.

The Politics of the Encounter Andy Merrifield, 2013-04-15 The Politics of the Encounter is a spirited interrogation of the city as a site of both theoretical inquiry and global social struggle. The city, writes Andy Merrifield, remains important, virtually and materially, for progressive politics. And yet, he notes, more than forty years have passed since Henri Lefebvre advanced the powerful ideas that still undergird much of our thinking about urbanization and urban society. Merrifield rethinks the city in light of the vast changes to our planet since 1970, when Lefebvre's seminal *Urban Revolution* was first published. At the same time, he expands on Lefebvre's notion of the right to the city, which was first conceived in the wake of the 1968 student uprising in Paris. We need to think less of cities as entities with borders and clear demarcations between what's inside and what's outside and emphasize instead the effects of planetary urbanization, a concept of Lefebvre's that Merrifield makes relevant for the ways we now experience the urban. The city—from Tahrir Square to Occupy Wall Street—seems to be the critical zone in which a new social protest is unfolding, yet dissenters' aspirations are transcending the scale of the city physically and philosophically. Consequently, we must shift our perspective from the right to the city to the politics of the encounter, says Merrifield. We must ask how revolutionary crowds form, where they draw their energies from, what kind of spaces they occur in—and what kind of new spaces they produce.
