*Venice's Intimate Empire* Erin Maglaque, 2018-06-15 Mining private writings and humanist texts, Erin Maglaque explores the lives and careers of two Venetian noblemen, Giovanni Bembo and Pietro Coppo, who were appointed as colonial administrators and governors. In Venice's Intimate Empire, she uses these two men and their families to showcase the relationship between humanism, empire, and family in the Venetian Mediterranean. Maglaque elaborates an intellectual history of Venice's Mediterranean empire by examining how Venetian humanist education related to the task of governing. Taking that relationship as her cue, Maglaque unearths an intimate view of the emotions and subjectivities of imperial governors. In their writings, it was the affective relationships between husbands and wives, parents and children, humanist teachers and their students that were the crucible for self-definition and political decision making. Venice's Intimate Empire thus illuminates the experience of imperial governance by drawing connections between humanist education and family affairs. From marriage and reproduction to childhood and adolescence, we see how intimate life was central to the Bembo

and Coppo families' experience of empire. Maglaque skillfully argues that it was within the intimate family that Venetians' relationships to empire—its politics, its shifting social structures, its metropolitan and colonial cultures—were determined.

**History in Exile** Pamela Ballinger, 2003 This text asks what happens to historical memory and cultural identity when state borders undergo radical transformation. Concentrating on Trieste and the Istrian Peninsula it explores displacement from both the viewpoints of the exiles and those who stayed behind.

Italy, Yugoslavia, and the Controversy over the Adriatic Region, 1915-1920 Stefano Bianchini, 2024-08-16 This book explores the path that led to the Treaty of Rapallo (1920) between Italy and the new Kingdom of the Serbs, Croats and Slovenes, later the Kingdom of Yugoslavia, in the aftermath of the First World War, when the territories of the former Austro-Hungarian Empire were allotted to new and existing states, with regard as far as possible to the nationalities of the people living in the various territories in addition to the future of Montenegro and Albania. Based on vast archival documentation and published sources, the contributors to this book discuss the nature of the disputes which arose in the Adriatic area, often as the result of the inhabitants of the different territories being of several nationalities, and examine how the disputes were concluded. The book charts the disappointments of both Italians and Yugoslavs, the Italians disappointed that the terms of the Treaty of London of 1915, which promised Dalmatia to Italy in return for Italy entering the war against the Austro-Hungarian Empire, were not fulfilled. The Yugoslavs were disappointed losing territories containing large Yugoslav populations. The volume considers public opinion, the words, positions and actions of leading politicians, and the continuing consequences of the settlement, many of them adverse consequences for particular cities and localities. Presenting a comprehensive approach to the Adriatic controversy, this book will be of interest to those studying European history of international relations, diplomatic negotiations and nationalism, modern history, Central Asian, Eastern European and Russian Studies.

*The Middle Ages between the Eastern Alps and the Northern Adriatic* Peter Štih,2010-08-13 The book deals with the Slovene historiography and history of the Slovene and neighbouring territories in the Middle Ages. It is the first work of its kind published in English. It thus makes the medieval history of this part of Europe and some of its fundamental problems accessible to the widest range of researchers. It contains 18 papers which comply with modern methodological approaches and current trends in historiography and it puts the validity and usefulness of these methods to the test in the case of "Slovene" material and examples. The first part of the book critically examines Slovene historiography, which largely viewed the Middle Ages from a national angle. The second part is dedicated to early medieval history, focussing on issues of Slavic ethnogeneses, society, and political structures. The third part addresses chapters from the history of the Church, the nobility, and the formation of Länder, and also discusses the famous enthronement of the Carinthian dukes.
