**The Name of All Things** Jenn Lyons, 2019-10-29 In a world where having everything comes at the cost of everything you believe, one man must choose between power and principle. The Name of All Things continues Jenn Lyons' Chorus of Dragons series, an epic saga of magic, prophecy, and betrayal. Kihrin D'Mon, the hero who destroyed the Stone of Shackles and unleashed demons across the empire of Quur, is a wanted man. His attempt to escape brings him into the path of Janel Theranon, a mysterious woman who claims to know him and pleads for his help. Kihrin soon finds himself pitted against a secret rebellion, a city-destroying dragon, and his old nemesis, the wizard Relos Var, who seeks the Cornerstone known as the Name of All Things - an artifact of unimaginable power. With the fate of the world hanging in the balance, Kihrin must navigate a treacherous web of magic, violence, and his own conflicted loyalties. Lyons weaves a richly imagined tapestry of sword and sorcery, mythical creatures, medieval warfare, and divine machinations that will enthrall devotees of high fantasy. *The Signature of All Things* Elizabeth Gilbert, 2013-10-01 A glorious, sweeping novel of desire, ambition, and the thirst for knowledge, from the # 1 New York Times bestselling author of Eat Pray Love, Big Magic, and City of Girls In *The Signature of All Things*, Elizabeth Gilbert returns to fiction, inserting her inimitable voice into an enthralling story of love, adventure and discovery. Spanning much of the eighteenth and nineteenth centuries, the novel follows the fortunes of the extraordinary Whittaker family as led by the enterprising Henry Whittaker—a poor-born Englishman who makes a great fortune in the South American quinine trade, eventually becoming the richest man in Philadelphia. Born in 1800, Henry's brilliant daughter, Alma (who inherits both her father's money and his mind), ultimately becomes a botanist of considerable gifts herself. As Alma's research takes her deeper into the mysteries of evolution, she falls in love with a man named Ambrose Pike who makes incomparable paintings of orchids and who draws her in the exact opposite direction—into the realm of the spiritual, the divine, and the magical. Alma is a clear-minded scientist; Ambrose a utopian artist—but what unites this unlikely couple is a desperate need to understand the workings of this world and the mechanisms behind all life. Exquisitely researched and told at a galloping pace, *The Signature of All Things* soars across the globe—from London to Peru to Philadelphia to Tahiti to

Amsterdam, and beyond. Along the way, the story is peopled with unforgettable characters: missionaries, abolitionists, adventurers, astronomers, sea captains, geniuses, and the quite mad. But most memorable of all, it is the story of Alma Whittaker, who—born in the Age of Enlightenment, but living well into the Industrial Revolution—bears witness to that extraordinary moment in human history when all the old assumptions about science, religion, commerce, and class were exploding into dangerous new ideas. Written in the bold, questing spirit of that singular time, Gilbert's wise, deep, and spellbinding tale is certain to capture the hearts and minds of readers.

All Things to All People: Confessions of a Rebellious Preacher's Son Begees McFree, 2019-08-16 All Things to All People is an introverted narrative penned by the son of a Gospel preacher and his alter ego, Begees McFree. This playfully written autobiography of a simple, quiet, and peaceable man guides the reader through depression-induced insomniac confessions. Looking deep into the often-hidden places of the heart and mind, these confessions freed the writer from lies and misunderstandings that had been buried deep within. All Things to All People shares the spiritual struggle of a man after a divorce broke apart his life and separated him from his children. Begees uses freewriting to disentangle his poor choices from his good intentions, gaining more selfcontrol and growing closer to God while strenuously pushing unbelief out of his mind.

**The Holiest of the Holies (THOTH), the Last Testament** Maitreya (Joseph Emmanuel), 2013-06-20 For thousands of years humanity has longed for a truth, revelation, or knowledge that explains the unity of God behind all mystical experiences, previous revelations, and religions of the world, and the truth behind the universe (science). There have been mystical explanations of God from those claiming they have experienced the truth by direct contact with Spirit. There are

also those who have founded great religions of the world. However, a great confusion still reigns among spiritualists, religions of the world, and the many different branches within each religion. If you study this Book carefully, with a sincere mind and an Open Heart, it will be revealed to you that the major religions on earth are not contradictory and separated at all. In fact they are complementary and were sent to earth systematically by One God. When this is understood, the Path to Salvation (Eternal Divine Path) is known This book is the main writing of Maitreya of the Mission of Maitreya:

An Exposition of the Old Testament ... By John Gill. [Edited by David Alfred Doudney. With the Text.] ,1853

The Poetics of Philosophy [A Reading of Plato] David Ross,2008-12-18 The Poetics of Philosophy is my attempt to hear what academic philosophy attempts to silence, namely, how reason resonates with madness. It is thus a stinging of the great steed of academia in order to recover and re-experience what otherwise would be repressed by the exigencies of bureaucratic-commodity life in the late capitalist world. An analysis of Plato's principal dialogues with a view towards developing the author's conception of thinking, knowing, and loving, it incorporates the insights of Heidegger, Nietzsche, and Derrida. Provoking the world mind to reflect upon its phenomenological possibility for Being dispersed within its daily routines or business, the book argues for the metaphysicality of physical reality articulated through the narrative trope of fractal dialectical logic. The present volume's more general implications extend the insights of the author's previous work in the area of social science. I refer to the possibility for world communist revolution, which is predicated on communism's thorough ridding itself of its naïve materialist perspective, the relics of a Newtonian Universe, and its embracing of a fractal-dialectical logic (or similar) that is better able to incorporate the yearning for immortality, desire to experience beauty, and the need to have a meaningful life that define human species life. To articulate such a framework is the aim of my general research.
