**Missionary Grammars and Dictionaries of Chinese** Otto Zwartjes, 2024-08-15 This monograph aims to shed light on the linguistic endeavors and educational practices employed by 17th century Spanish Dominicans in their efforts to understand and disseminate knowledge of the Chinese language during this historical period. Ample attention is dedicated to the evolution of Chinese grammars and dictionaries by these authors. Central to the monograph is the manuscript "Marsh 696", which comprises a Chinese-Spanish dictionary and a fragmentary Spanish grammar of Mandarin Chinese, a hitherto unknown and unpublished anonymous and undated text entitled Arte de lengua mandarina. This text is probably a fragment of the earliest grammar written by a Westerner of Mandarin Chinese (completed in Manila in c.1641), previously presumed lost. It is presented here as a facsimile, a transcription of the Spanish text and an English translation alongside a detailed linguistic analysis. The historical framework outlined in this monograph spans from the predecessors of Francisco Díaz (1606-1646) around 1620, including the Jesuit linguistic production in mainland China and Early Manila Hokkien sources, to the era wherein Antonio Díaz (1667-1715) finalized his revised version of Francisco Díaz's dictionary. The monograph scrutinizes these texts in relation to the linguistic contributions of Francisco Varo (1627-1687). Additionally, the monograph incorporates other unpublished texts that are significant for reconstructing the educational curriculum for teaching and

learning Chinese by Dominican friars during this period.

**La lengua de "La infancia de Jesu-Christo": (contribución al estudio histórico del habla andaluza)** Francisco

Torres Montes, 1998-01-01 En este libro se ofrece el estudio del habla de los pastores de La infancia de Jesu-Christo de Gaspar Fernández y Ávila, autor malagueño de la segunda mitad del siglo XVIII. La particularidad que tiene la citada obra es que de modo sistemático los personajes rurales pretenden reproducir el habla andaluza de la zona malagueña donde el autor ejerció su sacerdocio; aunque, hay que decirlo, mezclada con algunos rasgos del sayagués (habla artificial que se empleó desde el Siglo de Oro en los personajes rurales). En el estudio que aquí se presenta se atiende a dos aspectos: por un lado, a caracterizar esta habla andaluza con una perspectiva diacrónica, es decir, situándola en el correspondiente contexto histórico de la evolución del andaluz; y por otro, a deslindar aquello que es andaluz de lo que es foráneo, que el autor toma de la tradición literaria o, simplemente, inventa.
