The Future of Post-Human Martial Arts Peter Baofu, 2009-10-02 Is it really true that martial arts, in spite of their popularity in this day and age of ours, have, at their deepest level, the promised land of “self-knowledge,” “the expression of beauty,” or something highly spiritual to be pursued for the human soul? Or, to put it in a different way, what exactly makes martial arts so amazing that, somehow, they will eventually lead the practitioners to the spiritual realm of self-cultivation in its highest depth? Contrary to the conventional wisdom about martial arts as held by many over the ages, this popular view about martial arts has become so legendary that their dark sides have yet to be systematically explored and that the lofty aims of martial arts are neither possible nor desirable to the extent that their proponents would like us to believe. Of course, this is not to say that the very tradition of martial arts is absolutely useless, or that the literature on martial arts hitherto existing in history is spiritually unworthy to be appreciated. Instead, this book constructively offers an alternative (better) way to understand the nature of martial arts, in special relation to the body and spirit of warriors—while learning from different views in the literature, without favoring any one of them (nor integrating them, as they are not necessarily compatible with each other), and, in the end, transcending them towards a new horizon not conceived before. This seminal view, if proven valid, will fundamentally change the legendary way that people have thought about martial arts—from the combined perspectives of the mind, nature, society, and culture, with enormous implications for the human future and what I originally called its “post-human” fate. _____

In Search of the Warrior Spirit, Fourth Edition Richard Strozzi-Heckler, 2007-11-13 Is it possible to be a mindful, moral fighter at a time when impersonal, technology based warfare reigns? In Search of the Warrior Spirit confronts this thorny issue with Richard Strozzi-Heckler's trademark personal, sympathetic style. In a top-secret U.S. military experiment, the author was asked to teach Eastern awareness disciplines ranging from aikido to meditation to a group of twenty-five Green Berets. This account chronicles his experiences in the training program and his attempts to revive traditional warriorship in a technological society. In Search of the Warrior Spirit explores the nature of war, the meaning of masculinity, and the need for moral values in the military. The book includes Heckler's response to 9/11, his experiences with the Pentagon and U.S. soldiers in Afghanistan, and his poignant reflections on the movie Black Hawk Down, which depicts the deaths of two of his trainees. In this revised edition, the author talks movingly of his visits to Afghanistan with NATO and about the Trojan Warrior Project and Marine Warrior Project, relating the tragic events in a war zone and revelatory conversations with both ordinary soldiers and such leaders as the Supreme Allied Commander of Europe.

The Dynamics of Interconnections in Popular Culture(s) Ray B. Browne, Ben Urish, 2014-03-26 The Dynamics of Interconnections in Popular Culture(s) is an eclectic and free-ranging collection of articles grounded in a combination of the social sciences with the populist humanities. The collection is further unified by an approach that considers changes and linkages within and between cultural systems as evidenced through their respective popular cultures. The key underlying assumption is that our collective popular expressions create an arena of global cultural exchange, further precipitating new cultural adaptations, expressions, and connections. The volume is divided into two sections. The first consists of articles investigating theoretical and methodological approaches to the dynamics of history and cultural changes. These include cultural anthropology, history, economics, and sociology. The second section is made up of explorations into a myriad of cultural practices and expressions that exemplify not only the wide diversity of popular cultures and their workings, but also the interconnections between and within those cultural systems. A wide variety of specific case studies are presented to evidence and support the more general points made in the previous section. The collection demonstrates that the everyday lives of ordinary people, while varying from culture to culture, are unified through their expressions of shared humanity. Foreword by Gary Hoppenstand.
