**If It's Purple, Someone's Gonna Die: The Power of Color in Visual Storytelling** Patti Bellantoni, 2012-10-02 If it's Purple, Someone's Gonna Die is a must-read book for all film students, film professionals, and others interested in filmmaking. This enlightening book guides filmmakers toward making the right color selections for their films, and helps movie buffs understand why they feel the way they do while watching movies that incorporate certain colors. Guided by her twenty-five years of research on the effects of color on behavior, Bellantoni has grouped more than 60 films under the spheres of influence of six major colors, each of which triggers very specific emotional states. For example, the author explains that films with a dominant red influence have themes and characters that are powerful, lusty, defiant, anxious, angry, or romantic and discusses specific films as examples. She explores each film, describing how, why, and where a color influences emotions, both in the characters on screen and in the audience. Each color section begins with an illustrated Home Page that includes examples, anecdotes, and tips for using or avoiding that particular color. Conversations with the author's colleagues-- including award-winning production designers Henry Bumstead (Unforgiven) and Wynn Thomas (Malcolm X) and renowned cinematographers Roger Deakins (The Shawshank Redemption) and Edward Lachman (Far From Heaven)--reveal how color is often used to communicate what is not said. Bellantoni uses her research and experience to demonstrate how powerful color can be and to increase readers awareness of the colors around us and how they make us feel, act, and react. \*Learn how your choice of color can influence an audience's moods, attitudes, reactions, and interpretations of your movie's plot \*See your favorite films in a new light as the author points out important uses of color, both instinctive and intentional \*Learn how to make good color choices, in your film and in your world.

The Art of Short Form Content Bryan Cook, 2015-12-22 The Art of Short Form Content: From Concept to Color Correction is an in-depth examination of the craft of creating short form filmic content - a category which includes television

commercials, music videos, television promos, movie trailers, digital billboards, corporate videos, and pretty much anything else with a running time under five minutes. The Art of Short Form Content fills this industry void by answering the type of questions that working short form content creators deal with every day. As Cook explains, though short form content is limited in duration, it is not limited in quality and message. In this step-by-step, full-color guide you will find: • Interviews with leading short form content creators • Details on how to create everything from a corporate piece to a Super Bowl spot • Strategies for how to quickly attract viewer attention to your content • Extensive information on how to best utilize the craft of film-making in an advertising context • A comprehensive companion website that can be found at [www.focalpress.com/cw/cook](http://www.focalpress.com/cw/cook)

**Tracking Color in Cinema and Art** Edward Branigan, 2017-10-30 Color is one of cinema's most alluring formal systems, building on a range of artistic traditions that orchestrate visual cues to tell stories, stage ideas, and elicit feelings. But what if color is not—or not only—a formal system, but instead a linguistic effect, emerging from the slipstream of our talk and embodiment in a world? This book develops a compelling framework from which to understand the mobility of color in art and mind, where color impressions are seen through, and even governed by, patterns of ordinary language use, schemata, memories, and narrative. Edward Branigan draws on the work of Ludwig Wittgenstein and other philosophers who struggle valiantly with problems of color aesthetics, contemporary theories of film and narrative, and art-historical models of analysis. Examples of a variety of media, from American pop art to contemporary European cinema, illustrate a theory based on a spectator's present-time tracking of temporal patterns that are firmly entwined with language use and social intelligence.

The Place of Poetics within Documentary Filmmaking Keith Marley, 2023-07-21 This collection aims to give insight to the reader as to how poetic approaches to documentary filmmaking have helped to develop the documentary form into a rich and

diverse way of representing the real world in film. As such, it is the aesthetics of documentary filmmaking that becomes the primary focus of discussion within this collection. The majority of the chapters are written by documentary filmmakers who give insight into how poetics have influenced their own approach to documentary filmmaking, while other chapters are written by film scholars who analyse the work of others, in order to uncover how poetics are manifested in existing documentary films. This book will be of interest to those who produce documentary films, as well as those who have an interest in the work of other documentary filmmakers.

**Cinematography: Theory and Practice** Blain Brown, 2013-05-02 There's more to being a DP than holding a light meter! A leading book in the field, Cinematography has been translated into many languages and is a staple at the world's top film schools. *Production Design & the Cinematic Home* Jane Barnwell, 2022-05-10 This book uses in-depth case studies to explore the significance of the design of the home on screen. The chapters draw widely upon the production designer's professional perspective and particular creative point of view. The case studies employ a methodology Barnwell has pioneered for the analysis of production design called Visual Concept Analysis, which can be used as a key to decode the design of any given film. Through the nurturing warmth of the Browns' home in Paddington, the ambiguous boundaries of secret service agent homes in *Tinker Tailor Soldier Spy* and the 'singleton' space occupied by Bridget Jones, Barnwell demonstrates that the domestic interior consistently plays a key role. Whether used as a transition space, an ideal, a catalyst for change or a place to return to, these case studies examine the pivotal nature of the home in storytelling and the production designers' significance in its creation. The book benefits from interviews with production designers and artwork that provides insight on the creative process.
