They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading Attributions Paul F. Boller Jr. Emeritus Professor of History Texas Christian University, Oklahoma John George Jr. Professor of Political Science and Sociology Central State University, 1989-05-18 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul Boller, Jr., and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, are blatantly dishonest and falsify the historical record. And others are chillingly vicious, filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America, and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and yet thought-provoking book, *They Never Said It* sorts out a great deal of history and sets it right, going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals, atheists and evangelists, all have at times twisted and even invented the words of eminent figures to promote their own ends. It is the ultimate debunking reference, a perfect complement to handbooks of quotations.

Embezzlement and High Treason Louis XIV's France Vincent J. Pitts, 2015-11-05 A look at life in the court of King Louis XIV, the politics of the time, and the trial of a man who knew too much for his own good. From 1661 to 1664, France was mesmerized by the arrest and trial of Nicolas Fouquet, the country's superintendent of finance. Prosecuted on trumped-

up charges of embezzlement, mismanagement of funds, and high treason, Fouquet managed to exonerate himself from all the major charges over the course of three long years, in the process embarrassing and infuriating Louis XIV. The young king overturned the court's decision and sentenced Fouquet to lifelong imprisonment in a remote fortress in the Alps. A dramatic critique of absolute monarchy in pre-revolutionary France, *Embezzlement and High Treason in Louis XIV's France* tells the gripping tale of an overly ambitious man who rose rapidly in the state hierarchy—then overreached. Vincent J. Pitts uses the trial as a lens through which to explore the inner workings of the court of Louis XIV, who rightly feared that Fouquet would expose the tawdry financial dealings of the king's late mentor and prime minister, Cardinal Mazarin. "A compelling account of a political drama in mid-seventeenth century France, but it is also a window into the process by which rule of law gradually became established . . . [and] I thoroughly enjoyed reading it." —EH.Net "Pitts's book examines the show trial of Fouquet, and...the political process that created such an unfair outcome for a man who is often seen as one of the most well-known scapegoats in French history. Pitts has succeeded masterfully in weaving a powerful narrative that exposes convoluted corruption and mismanagement of ancient régime France." —Renaissance Quarterly

Iroquoia Kelly Y. Hopkins, 2025-05-15 *Iroquoia* highlights the innovation of the Haudenosaunee peoples in retaining sovereignty over their homelands through seven generations of social and environmental change following European contact and the settler invasion. Kelly Y. Hopkins argues that Haudenosaunee men and women incorporated articles of European manufacture into their daily lives to fulfill conventional social and cultural needs. They used new trade items and alliances to enhance their lives and to pursue goals specific to their communities. In *Iroquoia*, Hopkins explores how engagement in the global market economy irreversibly transformed the local environment, severed Indigenous relationships and responsibilities to human and other-than human kin, and challenged longstanding social and economic relationships within Haudenosaunee communities. While settler expansion, violence, and imperial terraforming threatened Indigenous communities, food sovereignty, and water management, The People of the Longhouse produced distinctive new material cultures and new land use practices that incorporated features of the colonial settlement template into longstanding subsistence and settlement patterns. Haudenosaunee peoples employed these survivance strategies to control the scale and scope of European intrusion into their homelands.

Triumph H. W. Crocker, 2023-10-10 A Catholic Classic -- UPDATED AND EXPANDED! For 2,000 years, Catholicism—the largest religion in the world and in the United States—has shaped global history on a scale unequalled by any other institution. *Triumph* offers an accessible, affirmative, and exciting entry into that history. Inside, you'll discover the spectacular story of the Church from Biblical times and the early days of St. Peter—the first pope—to Pope John Paul the

Great (already a saint), Pope Benedict XVI (a master theologian), and the controversies surrounding Pope Francis. It is a sweeping drama of Roman legions, great crusades, epic battles, toppled empires, heroic saints, and enduring faith, as well as Dark Age skullduggery, the Inquisition, the Renaissance popes, and the Protestant Revolt. A classic for twenty years -- now updated and expanded -- Triumph is a brawling, colorful history full of inspiring pageantry and spirited polemic that will exhilarate, amuse, and infuriate as it extols the power and the glory the Catholic Church and the gripping stories of some of its greatest men and women.

The Spirit of French Capitalism Charly Coleman, 2021-03-16 How did the economy become bound up with faith in infinite wealth creation and obsessive consumption? Drawing on the economic writings of eighteenth-century French theologians, historian Charly Coleman uncovers the surprising influence of the Catholic Church on the development of capitalism. Even during the Enlightenment, a sense of the miraculous did not wither under the cold light of calculation. Scarcity, long regarded as the inescapable fate of a fallen world, gradually gave way to a new belief in heavenly as well as worldly affluence. Animating this spiritual imperative of the French economy was a distinctly Catholic ethic that—in contrast to Weber's famous Protestant ethic—privileged the marvelous over the mundane, consumption over production, and the pleasures of enjoyment over the rigors of delayed gratification. By viewing money, luxury, and debt through the lens of sacramental theory, Coleman demonstrates that the modern economy casts far beyond rational action and disenchanting designs, and in ways that we have yet to apprehend fully.

The Know-It-All A. J. Jacobs, 2004-09-21 Biography detailing the comic effects on Jacobs' life that occur when he attempts to read the Encyclopaedia Britannica volumes A to Z.

The Riddle of the Modern World A. Macfarlane, 2000-07-11 What conditions the chances of liberty, wealth and equality at the start of the third Christian millennium? Why did human civilizations develop so slowly for thousands of years, and then transform themselves during the last three hundred? This study of four great thinkers who lived between 1689 and 1995, Montesquieu, Adam Smith, De Tocqueville, and Ernest Gellner, weaves their lives and works together and through their own words shows how they approached the question of the nature of man, his past and his future.

The Limits of Absolutism in ancien régime France Richard Bonney, 2024-10-28 This selection of articles is organized around three broad themes: the nature of the governing system in France ('Absolutism'); the political crisis of the mid-17th-

century (the 'Fronde'); and the development of royal finance. The author first considers the growth of the French state in its ideological and institutional aspects, then the opposition such developments provoked, much centred on the figure of Cardinal Mazarin. In the last section particular attention is given to fiscal history, including a comparison of mid-18th-century France with the other states of Europe. Professor Bonney would argue that the 'fiscal imperative', the increased requirements posed by the costs of war, and the long-term consequences of fiscal growth may be seen as one of the decisive factors in the development of the modern state.

Furies Lauro Martines, 2013-01-15 During the European Renaissance, an age marked equally by revolutionary thought and constant warfare, it was armies, rather than philosophers, who shaped the modern European nation state. Mobile cities of mercenaries and other paid soldiers—made up of astonishingly diverse aggregations of ethnicities and nationalities—marched across the land, looting and savaging enemy territories. In the 15th century, Poland hired German, Spanish, Bohemian, Hungarian, and Scottish soldiers. Later, Sweden fought in Muscovy with Irish, English, Scottish, French and German troops. Units of Croats, Germans, Walloons, Albanians, and especially Swiss served in French armies. In the Netherlands, Italians and Spaniards fought beside Irishmen, Germans, Dalmatians, and Walloons. Regiments of Swiss pikemen fought for Spain, France, and Venice, as well as for German and Italian princes. Companies of Poles, Hungarians, and Croats fought in German regiments. Growing national economies, unable to pay or feed massed armies for any length of time, thus became war states, an early nationalism which would later consume modern Europe. *Furies: War in Europe 1450-1700* by acclaimed historian of the Renaissance Lauro Martines compellingly and simply delivers the story of modern Europe's martial roots, capturing the brutality of early modern war and how it shaped the history of a continent

The Sun King Nancy Mitford, 2012-05-08 A “devastatingly witty” biography of Louis XIV and the Court of Versailles—at once a historical record of late 17th- and early 18th-century France and a gossip-filled narrative of lovers and rivals, artists and warriors (New York Times) *The Sun King* is a dazzling double portrait of Louis XIV and Versailles, the opulent court from

which he ruled. With characteristic élan, Nancy Mitford reconstructs the daily life of king and courtiers during France's golden age, offering vivid sketches of the architects, artists, and gardeners responsible for the creation of the most magnificent palace Europe had yet seen. Mitford lays bare the complex and deadly intrigues in the stateroom and the no less high-stakes power struggles in the bedroom. At the center of it all is Louis XIV himself, the demanding, mercurial, but remarkably resilient sovereign who guided France through nearly three quarters of the Grand Siècle. Brimming with sumptuous detail and delicious bons mots, and written in a witty, conversational style, *The Sun King* restores a distant glittering century to vibrant life.

Historical Etiquette Annick Paternoster, 2022-12-06 This book is a groundbreaking study of etiquette in the nineteenth century when the success of etiquette books reached unprecedented heights in Britain, France, Italy, the Netherlands, and the United States. It positions etiquette as a fully-fledged theoretical concept within the fields of politeness studies and historical pragmatics. After tracing the origin of etiquette back to Spanish court protocol, the analysis takes a novel approach to key aspects of etiquette: its highly coercive and intricate scripts; the liminal rituals of social gatekeeping; the fear for blunders; the obsession with precedence. Interrogating the complex relationship between historical etiquette and adjacent notions of politeness, conduct, morality, convention, and ritual, the study prompts questions on gender stereotyping and class privilege surrounding the present-day etiquette revival. Through adopting a unique comparative approach and a corpus-based methodology this study seeks to revitalise our understandings of etiquette. This book will be of interest to scholars of historical linguistics and pragmatics, as well as those in neighbouring fields such as literary criticism, gender studies and family life, domestic and urban spaces.

New World Economies Marc Egnal, 1998-11-12 *New World Economies: The Growth of the Thirteen Colonies and Early Canada* examines the economic development of both the original American colonies and early French Canada, looking at the impact of changing prices, capital flows, and shifts in demand. It is a companion volume to Marc Egnal's well-regarded earlier book, *Divergent Paths*, which emphasized the influence of culture and institutions upon growth. *New World Economies* studies transatlantic ties and sets forth a rigorous model to explain the pattern of growth. It features seventeen tables and more than one hundred graphs, many of which are based on original data. Several appendices present these valuable new statistics. Egnal's core argument is that the pace of economic development in the colonies reflected the rate of growth in the mother country. In advancing this central notion, the book employs a theoretical foundation that builds upon, and then moves beyond, the traditional staple thesis. Thoroughly documented and rich in quantitative data, this study traces the trajectory of economic growth by region and establishes a clear connection between colonial and European rates of growth. Given its clear arguments, its rich data, and its persuasive overall method, *New World Economies* will interest scholars and students of economic history, of American and French-Canadian colonial culture, and of transatlantic relations

during the eighteenth century.
