David A. Aaker, Christine Moorman

Creating a Brand Culture and Brand Campaigning Lioba Frings, 2020-01-08 Essay from the year 2015 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: 1.3, Swansea University, course: Strategy, Marketing and Branding, language: English, abstract: "Brands occupy an increasingly prominent place in [...] the cultural landscape" (Schroeder et al, 2006). This is why brands need more than just their products to create a customer base, to establish a superior position in their specific market and keep this position long-term. Red Bull does that in various ways. The brand is connected to a range of different events, sports and music. These serve as advertising and communication channels for Red Bull as well as expands the idea of their products from just drinks to part of a cultural habit. "Red Bull gives you wings" (Red Bull, 2016) is what has been used as the slogan since its energy drinks have been introduced to the market in 1987 (see Red Bull, 2016). The aspect of reaching one's highest potential is the core motivation for making connections with the previously mentioned areas.

Product and Price Analysis of Red Bull in Central Europe Julia Teigeler, Ann-Katrin Hahne, 2014-05-27 Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 2,0, University of Applied Sciences Essen, language: English, abstract: In this second assignment named „Product and Price Analysis of Red Bull in Central Europe“ the goal is to analyse the “product” and “price” strategy and to give a short overview of their “place” and “promotion” strategy. Red Bull as a company was founded in 1987 with its slogan “Red Bull gives you wings”. The firm developed by Dietrich Mateschitz sold more than 35 billion cans until now and is available in more than 165 countries. The product is developed from a Thai energy drink and includes caffeine, taurine, B-Vitamins, saccharose, glucose and water, what can be consumed by people in many situations for their physical and social needs and Red Bull created an emotional binding. The product is only available in six different types but because of the well established brand and its young and modern image people have a positive association with it and so buy it. The Company has worldwide steady growth rates although it is sold at a very high price level with compared to that low production costs. In contrast to that the competitors' products are much cheaper, but Red Bull sticks to their prices even many competitors entered the market.. But it can be said that Red Bull is aiming for an abnormal profit and concentrating on internal and marketing orientation when setting their prices. The consumers are paying for the “way of life” and the quality. To the place and promotion strategy can be said that

Red Bull is available in 165 countries (in nearly ever little shop) but produced only in Austria and Switzerland. The company is widespread represented in sports sector where they are sponsoring much sportspersons and events. To summarize that it can be said that Red Bull is a very successful and powerful company and the world's market leader in the energy drink sector but the challenge will be how to maintain the constant growth in revenue and market share. The authors hold the opinion that Red Bull should maintain developing their extreme sport sponsoring and should develop some new products as well as produce them from natural resources.

When a brand gets wings. Red Bull's secret of marketing success Sabine Buchholz, 2008-01-29 Essay from the year 2005 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, University of Southampton (University of Southampton - Centre for Language Study), course: Intermediate English for Business, language: English, abstract: The high energy drink Red Bull has been profitably sold since 1987. The company's figures confirm its success around the world. Red Bull's secret is an extraordinary marketing consisting mainly of the organisation of fun sport events to create a cool image and make teenagers loyal costumers. With this unique concept the enterprise will go on governing the growing energy drink branch.

Investigation of the Marketing of the Red Bull Company in Consideration of Cultural Aspects Florian Riedel, 2007-03-15 Seminar paper from the year 2003 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, Lund University (School of Economics and Management), course: International Marketing and Euro-Marketing, language: English, abstract: This paper looks closer at international marketing with an emphasis on the cultural issues, which are often forgotten in real life. The company Red Bull was chosen as an area of study in order for us to be able to apply and test the theories in our course literature with the way things are done in reality. The choice of Red Bull was an obvious one because of its presence in the global marketplace as well as the group-members home countries. The course literature has been used as a point of reference when it comes to examining whether the company is standardizing or adapting and also regarding international marketing as a whole. Moreover, the paper will focus on the Czech Republic, France, Germany, and Sweden in correlation to the marketing Red Bull adopts in these countries.

Red Bull, 2012

Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria Julia Teigeler, Ann-Katrin Hahne, 2014-05-27 Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 2,0, University of Applied Sciences Essen, language: English, abstract: In this assignment named „Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria“ the goal is to analyse the market of Red Bull with its competitors, customers and market position. Red Bull is a company and brand founded in 1987 with its slogan “Red Bull gives you wiiings”. The company launched by Dietrich Mateschitz sold more than 35 billion cans until now and is

available in more than 165 countries. The brand is well known because of the large amount of athletes in sports and extreme sports sector they are supporting. They are having their own sport events and additionally teams in such different sectors like e.g. football, formula 1 or flying. The biggest event they were supporting in the last years was the jump up from stratosphere of Felix Baumgartner. Red Bull had also had some problems in the past not only with new out coming competitors. But in some countries are legal requirements to enter the market and health concerns are producing negative publicity because they were warning customers that the drink can harm healthiness. Other points which are influencing the market position are that the price is very high and the competitive prices compared are much cheaper. Positive points to mention are that Red Bull helps it's customers to overlap working much hours and to support them doing diet or sports more effective. Another important point is that the company is always using newest technology. The disadvantage is that there are many competitors with cheaper prices and Red Bull itself has a small product portfolio (only six different drinks). All in all it can be said, that they are the market leader with a big growth in other countries and are seen as unique by the consumers. They have an attractive image and they are offering not only a drink but an experience. This is what creates their unique selling proposition in a way with a clear brand personality combined with an emotional binding and a high public interest. Their positioning in the market is very high levelled what is caused by the "old" but also "modern" slogan, that's a high premium drink and not linked to a specific activity. But to bear in mind is that it would become more difficult to hold the market leadership and justify premium pricing as well as their production methods.

Marketing: Theory, Practice and Perspectives Dr. Qaisar Abbas Fatimi, 2024-03-10 Imagine a small coffee shop in a quaint neighborhood, which, through the power of effective marketing, transforms into a global phenomenon. Picture a

startup with a revolutionary idea, using just the right blend of marketing strategies to become a household name. These stories, and countless others, form the tapestry of marketing's rich and varied history, a tapestry this book aims to explore and elucidate. At the heart of our journey is the quest to understand the essence of marketing. We begin in the past, delving into the foundational theories crafted by pioneers of the trade. These theories, like the story of David Ogilvy who revolutionized advertising with his focus on direct, customer-centric messaging, lay the groundwork for all that marketing has become today. As we move through the chapters, we encounter the practices that have shaped the present landscape of marketing. We tell tales of companies like Nike, which harnessed the power of brand storytelling to build an empire, and of small businesses that leveraged social media marketing to compete with industry giants. These stories illuminate the practical applications of marketing theories, demonstrating their power and versatility. In addressing ethical and sustainable marketing, we recount narratives of brands like Patagonia, which has woven environmental responsibility into its marketing fabric, inspiring a generation of conscious consumers and marketers alike. These tales underscore the growing importance of ethics in marketing, highlighting the shift towards more responsible business practices. The digital revolution in marketing brings its own set of stories. We delve into the world of AI and VR, recounting how these technologies are creating new frontiers in customer engagement, much like how Spotify uses data analytics to personalize user experiences, redefining the music industry's marketing strategies. Data-driven marketing strategies are no less dramatic. We explore how Netflix's data analytics have not just shaped marketing campaigns but also content creation, turning viewer preferences into blockbuster hits. Our global perspective includes tales of cross-cultural marketing successes and faux pas, learning from brands that have skillfully navigated the complex tapestry of global markets, and from those who stumbled, offering invaluable lessons in the importance of cultural sensitivity. As we peer into the future, we share predictions and possibilities, like the potential impact of blockchain technology on marketing transparency and customer trust. These forward-looking perspectives prepare our readers for the exciting, uncharted territories of marketing yet to come. In crafting *Marketing: Theory, Practice, and Perspectives*, the goal was not just to create a book but to weave a story – a story that captures the imagination, imparts wisdom, and inspires action. It is a story that invites you, the reader, to be a part of this incredible world of marketing, to learn from its past, engage with its present, and shape its future.

Transnational Mobilities in Action Sport Cultures H. Thorpe, 2014-05-30 This book contributes to recent debates in transnationalism, mobilities and migration studies by offering the first in-depth sociological examination of the global phenomenon of action sports and the transnational networks and connections being established within and across local contexts around the world.

Strategic Analysis and Recommendations for Red Bull , 2023-01-16 Seminar paper from the year 2022 in the subject Business economics - Review of Business Studies, , language: English, abstract: Red Bull GmbH is one of the largest

companies globally in terms of innovation. It is this competitive edge in innovation that enabled the company to transition its product from an unstable drink to a leading energy drink globally. The Austrian company was founded in 1987 and has so far grown to occupy the largest share of the energy drink market, selling 7.5 billion cans in the year ending 2019. Red Bull's main strength is in its marketing campaigns. Instead of following a traditional approach to mass marketing, Red Bull generates brand awareness through the creation of a brand myth by engaging customers in multiple activities and experiences, including extreme sports events. Red Bull also owns sports teams such as Formula One team, football clubs such as Red Bull Salzburg and so on. Other marketing activities include music engagement through Red Bull Records, as well as celebrity endorsements. Apart from its sports-centred marketing being innovative, the cost of this approach is lower than the conventional methods used by other beverage companies such as Coca-Cola. Despite its marketing success, the company faces the problem of lacking a patent for the company's product formula. As such, many companies used Red Bull's secret ingredients to develop competing products. Furthermore, Red Bull has received negative press regarding the potential health risks associated with some of its products.
