Westward Expansion Ray Allen Billington, Martin Ridge, 1982 When it appeared in 1949, the first edition of Ray Allen Billington's 'Westward Expansion' set a new standard for scholarship in western American history, and the book's reputation among historians, scholars, and students grew through four subsequent editions. This abridgment and revision of Billington and Martin Ridge's fifth edition, with a new introduction and additional scholarship by Ridge, as well as an updated bibliography, focuses on the Trans-Mississippi frontier. Although the text sets out the remarkable story of the American frontier, which became, almost from the beginning, an archetypal narrative of the new American nation's successful expansion, the authors do not forget the social, environmental, and human cost of national expansion.

Multi-Age Teaching: Managing Different Grades at Home Judy Carr, Homeschooling multiple children of different ages presents a unique set of challenges and opportunities. While the prospect of managing diverse curricula and individual learning needs might initially seem daunting, the rewards of multi-age homeschooling are substantial. This book, *Multi-Age Teaching: Managing Different Grades at Home*, provides a comprehensive guide to help parents successfully navigate this enriching journey. We will delve into practical strategies for lesson planning, curriculum selection, and time management, ensuring that each child receives the individualized attention they require. This is not about fitting square pegs into round holes; rather, it's about embracing the flexibility inherent in homeschooling to design a learning environment that caters to each child's unique learning style and pace. Throughout the book, we emphasize the importance of fostering a positive learning environment and building strong sibling relationships. We'll explore techniques for promoting cooperation and

collaboration, transforming potential sibling rivalry into opportunities for peer learning and mutual support. We'll cover practical strategies for creating a supportive and engaging learning environment, managing your time effectively, and utilizing available resources to their fullest potential. We'll also address the vital aspects of assessment and progress monitoring, ensuring that you can effectively track each child's progress and adapt your teaching methods accordingly. Finally, we'll celebrate the successes and milestones along the way, highlighting the importance of building confidence and fostering a lifelong love of learning in your children. Whether you are a seasoned homeschooler or just beginning your journey, this book is designed to empower you with the knowledge and confidence to create a fulfilling and successful learning experience for your entire family.

The Worlds of the Seventeenth-Century Hudson Valley Jaap Jacobs, L. H. Roper, 2014-05-08 This book provides an in-depth introduction to the issues involved in the expansion of European interests to the Hudson River Valley, the cultural interaction that took place there, and the colonization of the region. Written in accessible language by leading scholars, these essays incorporate the latest historical insights as they explore the new world in which American Indians and Europeans interacted, the settlement of the Dutch colony that ensued from the exploration of the Hudson River, and the development of imperial and other networks which came to incorporate the Hudson Valley.

Silent Film and the Triumph of the American Myth Paula Marantz Cohen, 2001-05-03 Silent Film and the Triumph of the American Myth is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century. Cohen argues that through the medium of silent film, America was able to sever its literary and linguistic ties to Europe, assert its cultural independence, and forge a unique form of cultural expression. Silent films drew on elements developed in popular forms of representation like photography, landscape panoramas, and vaudeville performance to create a medium that more accurately represented the American experience.

Divergent Visions, Contested Spaces Jeffrey Hotz, 2021-04-29 This multicultural project examines fictional and non-fictional accounts of travel in the Early Republic and antebellum periods. Connecting literary representations of geographic spaces within and outside of U.S. borders to evolving definitions of national American identity, the book explores divergent visions of contested spaces. Through an examination of depictions of the land and travel in fiction and non-fiction, the study uncovers the spatial and legal conceptions of national identity. The study argues that imagined geographies in American literature dramatize a linguistic contest among dominant and marginal voices. Blending interpretations of canonical authors, such as James Fenimore Cooper, Frederick Douglass, Richard Henry Dana, Jr., and Herman Melville, with readings of less well-known writers like Gilbert Imlay, Elizabeth House Trist, Sauk Chief Black Hawk, William Grimes, and Moses Roper, the book interprets diverse authors' impressions of significant spaces migrations. The movements and regions covered include the Anglo-American migration to the Trans-Appalachian Valley after the Revolutionary War; the 1803 Louisiana Purchase and

Anglo-American travel west of the Mississippi; the Underground Railroad as depicted in the fugitive slave narrative and novel; and the extension of American interests in maritime endeavors off the California coast and in the South Pacific.

Books on Early American History and Culture, 2001-2005 Raymond D. Irwin, 2013-01-03 This volume offers a complete listing and description of books published on early America between 2001 and 2005. An extraordinary research tool, *Books on Early American History and Culture, 2001-2005: An Annotated Bibliography* is part of a series listing materials on the history of North America and the Caribbean from 1492 to 1815. This volume includes monographs, reference works, exhibition catalogs, and essay collections published between 2001 and 2005. Each entry provides the name of the work, its author(s) or editor(s), publisher, date of publication, ISBN and/or OCLC number(s), and the Library of Congress call number. Following each detailed citation, there is a brief summary of the work and a list of journals in which it has been reviewed. Organized thematically, the book covers, among many other topics, exploration and colonization; maritime history; environment; Native Americans; race, gender, and ethnicity; migration; labor and class; business; families; religion; material culture; science; education; politics; and military affairs.

Atlas of the Indian Tribes of North America and the Clash of Cultures Nicholas J. Santoro, 2009 Atlas of the Indian Tribes of the Continental United States and the Clash of Cultures The Atlas identifies of the Native American tribes of the United States and chronicles the conflict of cultures and Indians' fight for self-preservation in a changing and demanding new world. The Atlas is a compact resource on the identity, location, and history of each of the Native American tribes that have inhabited the land that we now call the continental United States and answers the three basic questions of who, where, and when. Regretfully, the information on too many tribes is extremely limited. For some, there is little more than a name. The history of the American Indian is presented in the context of America's history its westward expansion, official government policy and public attitudes. By seeing something of who we were, we are better prepared to define who we need to be. The Atlas will be a convenient resource for the casual reader, the researcher, and the teacher and the student alike. A unique feature of this book is a master list of the varied names by which the tribes have been known throughout history.

The Significance of the Frontier in American History Joanna Dee Das, Joseph Tendler, 2017-07-05 Frederick Jackson Turner's 1893 essay on the history of the United States remains one of the most famous and influential works in the American canon. That is a testament to Turner's powers of creative synthesis; in a few short pages, he succeeded in redefining the way in which whole generations of Americans understood the manner in which their country was shaped, and their own character moulded, by the frontier experience. It is largely thanks to Turner's influence that the idea of America as the home of a sturdily independent people – one prepared, ultimately, to obtain justice for themselves if they could not find it elsewhere – was born. The impact of these ideas can still be felt today: in many Americans' suspicion of big government, in their attachment to guns – even in Star Trek's vision of space as the final frontier. Turner's thesis may now be criticised as

limited (in its exclusion of women) and over-stated (in its focus on the western frontier). That it redefined an issue in a highly impactful way - and that it did so exceptionally eloquently - cannot be doubted.

Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

A Sensory History Manifesto Mark M. Smith, 2021-08-04 A Sensory History Manifesto is a brief and timely meditation on the state of the field. It invites historians who are unfamiliar with sensory history to adopt some of its insights and practices, and it urges current practitioners to think in new ways about writing histories of the senses. Starting from the premise that the sensorium is a historical formation, Mark M. Smith traces the origins of historical work on the senses long before the emergence of the field now called "sensory history," interrogating, exploring, and in some cases recovering pioneering work on the topic. Smith argues that we are at an important moment in the writing of the history of the senses, and he explains the potential that this field holds for the study of history generally. In addition to highlighting the strengths of current work in sensory history, Smith also identifies some of its shortcomings. If sensory history provides historians of all persuasions, times, and places a useful and incisive way to write about the past, it also challenges current practitioners to think more carefully about the historicity of the senses and the desirability—even the urgency—of engaged and sustained debate among themselves. In this way, A Sensory History Manifesto invites scholars to think about how their field needs to evolve if the real interpretive dividends of sensory history are to be realized. Concise and convincing, A Sensory History Manifesto is a must-read for historians of all specializations.
