

Types Of Film Genres

Daniel López

Refiguring American Film Genres Nick Browne, 1998-04-22 This collection of essays by leading American film scholars charts a whole new territory in genre film criticism. Rather than assuming that genres are self-evident categories, the contributors offer innovative ways to think about types of films, and patterns within films, in a historical context. Challenging familiar attitudes, the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society. The range of essays is exceptional, from David J. Russell's insights into the horror genre to Carol J. Clover's provocative take on trial films to Leo Braudy's argument for the subject of nature as a genre. Also included are essays on melodrama, race, film noir, and the industrial context of genre production. The contributors confront the poststructuralist critique of genre head-on; together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema.

Films by Genre Daniel López, 1993 Since the early days of cinema, there has been an insatiable demand for new product. As the number of movies increased, many began to resemble each other and fall into certain types of genres. Critics, filmmakers, and audiences have classified films into groupings for critical appraisal, easy identification of the subject, or a quick clue to the film's nature. From abstract through erotic, from new Chinese cinema or zombie films, 775 genres are included in this comprehensive reference work. Each entry includes a brief description of the category, the subgenres or related types of films, and a list of movies that best exemplify the genre, showing original title or titles, nationality (73 countries are represented), year of production, additional titles (working title, re-release title, translation, etc.) and director or filmmaker.

Australian Genre Film Kelly McWilliam, Mark David Ryan, 2021-04-26 Australian Genre Film interrogates key genres at the core of Australia's so-called new golden age of genre cinema, establishing the foundation on which more sustained research on film genre in Australian cinema can develop. The book examines what characterises Australian cinema and its output in this new golden age, as contributors ask to what extent Australian genre film draws on widely understood (and largely Hollywood-based) conventions, as compared to culturally specific conventions of genre storytelling. As such, this book offers a comprehensive and up-to-date survey of Australian genre film, undertaken through original analyses of 13 significant Australian genres: action, biopics, comedy, crime, horror, musical, road movie, romance, science fiction, teen, thriller, war,

and the Western. This book will be a cornerstone work for the burgeoning field of Australian film genre studies and a must-read for academics; researchers; undergraduate students; postgraduate students; and general readers interested in film studies, media studies, cultural studies, Australian studies, and sociology.

American Film in the Digital Age Robert C. Sickels, 2010-12-08 This eclectic, yet comprehensive analytical overview of the cataclysmic changes in the American film industry since 1990 shows how they have collectively resulted in a new era—The Digital Age. The American film industry has entered a new era. *American Film in the Digital Age* traces the industrial changes since 1990 that have brought us to this point, namely: the rise of media conglomerates, the proliferation of pornography through peripheral avenues of mainstream media, the role of star actors and directors in distributing and publicizing their own pet projects, the development of digital technology, and the death of truly independent films. Author Robert Sickels draws straight lines from the movies to music, DVDs, video games, fast food, digital-on-demand, and more, to demonstrate how all forms of media are merging into one. He explores the irony that the success of independent films essentially killed independent cinema, showing how it has become almost impossible to get a film released without the imprimatur of one of the big six media companies—Fox, Viacom, TimeWarner, Disney, General Electric, or CBS. In the end, using recent, popular films as examples, he explains not only how we got where we are, but where we're likely headed as well.

It presents a critical assessment of the major ways in which popular culture has been interpreted, and suggests how it may be more usefully studied. The alphabetized entries in the volume cover the key topics of this provocative and complex genre—films, filmmakers, star performers, concepts, and historical and burgeoning trends—alongside frequently overlooked and crucially ignored items of interest in Latino cinema. This comprehensive treatment bridges gaps between traditional approaches to U.S.-Latino and Latin American cinemas, placing subjects of Chicana and Chicano, Puerto Rican, Cuban and diasporic Cuban, and Mexican origin in perspective with related Central and South American and Caribbean elements. Many of the entries offer compact definitions, critical discussions, overviews, and analyses of star artists, media productions, and historical moments, while several foundational entries explicate concepts, making this single volume encyclopedia a critical guide as well.
