Inquiry Lynn Z. Bloom, Edward Michael White, 1993 This composition reader emphasizes writing as thinking. Since good questions are at the heart of good writing, the book is organized around six perennially interesting questions, including: what is a good idea?; how do I know what I know?; how do we develop values?; and how do I know who I am?

The Convoy Dylan Burns, 2021-11-17 Time passes differently in the ways. Convoys may take months or years, or never emerge from the forest. Triggersmen with bone guns guard these journeys, taking care of any unfortunates corrupted by Nature. New-borns do not survive long in this world, yet a new mother must hope for mercy as she travels with the convoy.

The Praeger Handbook on Contemporary Issues in Native America Bruce E. Johansen, 2007-04-30 Most Americans know very little about Native America. For many, most of their knowledge comes from an amalgam of three sources—a barely remembered required history class in elementary school, Hollywood movies, and debates in the news media over casinos or sports mascots. This two-volume set deals with these issues as well as with more important topics of concern to the future of Native Americans, including their health, their environment, their cultural heritage, their rights, and their economic sustainability. This two-volume set is one of few guides to Native American revival in our time. It includes detailed

descriptions of efforts throughout North America regarding recovery of languages, trust funds, economic base, legal infrastructure, and agricultural systems. The set also includes personal profiles of individuals who have sparked renewal, from Sheila Watt-Cloutier, a leader among the Inuit whose people deal with toxic chemicals and global warming, to Ernest Benedict and Ray Fadden, who brought pride to Mohawk children long before the idea was popular. Also included are descriptions of struggles over Indian mascots, establishment of multicultural urban centers, and ravages of uranium mining among the Navajo. The set ends with a detailed development of contemporary themes in Native humor as a coping mechanism. Delving occasionally into historical context, this set includes valuable background information on present-day controversies that are often neglected by the news media. For example, the current struggles to recover Native American trust funds and languages both emerged from a cradle-to-grave control system developed by the U.S. and Canadian governments. These efforts are part of a much broader Native American effort to recover from pervasive poverty and reassert Native American economic independence. Is gambling an answer to poverty, the new buffalo, as some Native Americans have called it? The largest Native American casino to date has been the Pequots' Foxwoods, near Ledyard, Connecticut. In other places, such as the New York Oneidas' lands in Upstate New York, gambling has provided an enriched upper class the means to hire police to force anti-gambling traditionalists from their homes. Among the Mohawks at Akwesasne, people have died over the issue. This two-volume set brings together all of these struggles with the attention to detail they have always deserved and rarely received.

Dawn of Magic Christopher Gorman, It's the year 2103, and Earth is in crisis. Temperatures are increasing dramatically, crops are failing, and humanity is struggling to adapt. As climate change and political tensions between Canada and the United States escalate, a long-dormant natural force awakens to reclaim her power from the ravages of science, politics, and organized religion: Mother Nature. However, she cannot succeed alone. In Toronto, a young man named Aiden has been enduring splitting migraines and vivid dreams that transport him into visions of underground caverns and cataclysmic events. Just when he suspects he's on the brink of insanity—or possibly even death—a charming stranger coupled with a freak accident unleashes a power from within. Soon, Aiden and his two closest friends find themselves on a journey of joint self-discovery, becoming the first wizards—Mother Earth's warriors—to appear on Earth in over three thousand years. Aiden's inborn magic leads him to a reclusive group known as the Guardians, who teach him how to wield his power. However, it isn't long before his adventures pit him and his friends against a powerful force that deems magic heresy: the Catholic Church. From an ancient stronghold in Ireland to a secluded village in the French Alps, Aiden and the other wizards must learn to master their magic and protect their ancient knowledge in order to help save the planet.

Earth Keepers Jorge Alejandro Lavera, 2018-12-27 The last Atlanteans, who live hidden among the humans, decide to secretly create three utopian cities and genetically manipulate the human race before the Earth gets destroyed by pollution. Only the best humans will pass the selection process to obtain a spot in one of them. Treason and revenge interfere with their plans, provoking a hecatomb. The survivors will depend on a technology hidden for tens of thousands of years, and they will have to collaborate with the exterminators themselves to combat an even greater threat. A science fiction and action novel for adults, which combines ancient mythologies with modern times and brings the old myths to life in an original way.

Japan at a Deadlock Michio Morishima, 2000-08-22 When Professor Morishima's book *Why has Japan 'Succeeded'?* (1982) was published, Japan was still a country of 'capitalism from above'. For the past ten years the country's economy has faltered and declined. It is turning towards 'capitalism from below' despite Japan's weak democracy. This directional change is investigated through a variety of standpoints, using an in-depth knowledge of the Japanese ethos, national history, educational background, as well as the sociology of the Japanese economy and business world. The author offers a long-term forecast for the future of Japan.

Lessek's Key Rob Scott, Jay Gordon, 2010-12-23 The Larion spell table has been dormant for nearly a thousand Twinmoons. It waits in a forgotten chamber in Sandcliff Palace, the abandoned Larion Senate stronghold on Eldarn's North Sea. The spell table holds the power to see the people of the five lands safely through the oppression and brutality that have haunted them for generations, but without Lessek's key it is a worthless slab of granite - and Lessek's key itself is just a nondescript stone Steven Taylor and Mark Jenkins overlooked on the night they fell through the far portal into Eldarn. Retrieving the key and freeing Eldarn's people rests with Steven Taylor, the would-be sorcerer from Colorado, who is racing across America with Nerak, the fallen Larion dictator, hot on his heels. Steven must reach Idaho Springs and find Lessek's key before it falls into Nerak's hands and is lost for ever - and with it, the lives of untold millions, in both of Steven's worlds.

Chinua Achebe's Legacy Ogude, James, 2015-12-01 Chinua Achebe's novels and essays have always drawn our attention to issues of memory, the story, history and our own obligation to history as Africans. Achebe constantly goes back to the authority of narrative - the story; and as the subsequent generations of African writers like Chimamanda Adichie keep returning to, to celebrate Africa's many stories, its moments of failure and triumph. Achebe, more than any other writer on this continent, has inspired many, and hopefully the African story tellers of the coming centuries, irrespective of their location will continue to be inspired by him. This collection of essays is an enduring tribute to this rich legacy of Achebe.

Many Heavens, One Earth Clifford Chalmers Cain, 2012-01-01 Many Heavens, One Earth is a collection of first-person voices from nine of the world religions. In fifteen articles, devotees and scholars reveal the contributions these traditions make to informing and motivating an ecological response to the environmental issues that beset planet earth. The spiritual messages of world religions have an indispensable and decisive role to play in addressing these environmental problems, for, at their root, these ecological issues are spiritual problems: Unless greed is replaced by moderation and sharing, materialism by spiritual insights and values, consumerism by restraint and simpler living, exploitation by respect and service, and pollution by caring and protection, nature's hospitality will be foolishly rebuffed, and therefore our descendants will inherit a polluted and depleted earth. Religion can be, and must be, a part of this replacement. Since at least 90% of the world's

people claim allegiance to various major world religious traditions, religion can exert a crucial and transforming influence.

Reza Abdoh Charlie Fox, Tobi Haslett, Dominic Johnson, Jennifer Krasinski, Nick Mauss, Elizabeth Wiet, 2021-01-01 In seinem nur zwölf Jahre umfassenden Schaffen brach der iranische Theatermacher Reza Abdoh mit sämtlichen Parametern des Theaters und brachte seine Schauspieler und das Publikum oft an ihre Grenzen. Seine halluzinatorischen Traumlandschaften waren eindringlich, seine Inszenierungen adressierten sprachgewaltig die bitteren politischen Realitäten seiner Zeit – vom staatlich sanktionierten Rassismus über die Weigerung der Reagan-Regierung, sich der AIDS-Krise anzunehmen, bis hin zu den Kriegen der USA. Kurz vor seinem Tod verfügte er, dass seine Stücke nicht neu aufgeführt werden dürfen. Der Katalog enthält neben zahlreichen Abbildungen neue Essays über die Einflüsse und Rezeption seines Werkes, bereits publizierte und bisher unveröffentlichte Interviews mit Reza Abdoh, Gespräche mit Weggefährten sowie Skripte seiner Stücke und Presseberichte.
