**In Case You Forgot** Frederick Smith, Chaz Lamar, 2010-06-11 Two newly single, Black, queer, and socially aware men have packed up to start again—in love, career, and life—in the West Hollywood neighborhood of LA. Zaire James, on the cusp of 30, has decided marriage isn't all it's cracked up to be. Despite friends, family, and coworkers loving Zaire's "perfect" partner, divorce is a necessary step for finding himself and being free. If only it were that easy. Kenny Kane has made a career of deferring dreams, lowering expectations, and chasing partners not on his level in hopes of finding a love to call his own. However, on the verge of the big 4-0, he realizes the clock is ticking on all his dreams. As Zaire and Kenny undo the significant relationships of their pasts, they hope new opportunities, energy, mindsets, and connections will reinvigorate what is missing in their lives—drama and all.

Bion Nicola Abel-Hirsch, 2019-01-25 This is a book of 365 quotes from the work of the psychoanalyst Wilfred Bion. Something of an enigma, Bion often doesn't write in the way one would expect of a psychoanalyst, but is being read ever-increasingly around the world, in and outside the psychoanalytic community. Certain of his comments are often quoted, whilst swathes of his work lie almost untouched. How to make some of the detail of this work available? What he writes is often dense in the way the structure of a poem can be, and the book has the format of a 'poem a day' collection - providing a way into his complete work one quote at a time. Alongside commentaries by Abel-Hirsch are thoughts on Bion's work drawn from papers by other analysts from the UK, the Americas, and Europe. The book is structured in a way that will inform and interest the general reader as well as giving something new to psychoanalysts and others who already know his work well.

An Introduction to High-Frequency Finance Ramazan Gençay,Michel Dacorogna,Ulrich A. Muller,Olivier Pictet,Richard Olsen,2001-05-29 Liquid markets generate hundreds or thousands of ticks (the minimum change in price a security can have, either up or down) every business day. Data vendors such as Reuters transmit more than 275,000 prices per day for foreign exchange spot rates alone. Thus, high-frequency data can be a fundamental object of study, as traders make decisions by observing high-frequency or tick-by-tick data. Yet most studies published in financial literature deal with low frequency, regularly spaced data. For a variety of reasons, high-frequency data are becoming a way for understanding market microstructure. This book discusses the best mathematical models and tools for dealing with such vast amounts of data. This book provides a framework for the analysis, modeling, and inference of high frequency financial time series. With particular emphasis on foreign exchange markets, as well as currency, interest rate, and bond futures markets, this unified view of high frequency time series methods investigates the price formation process and concludes by reviewing techniques for constructing systematic trading models for financial assets.

*Micro-blogging Memories* Eileen Le Han, 2016-09-27 This book offers an in-depth account of social media, journalism and collective memory through a five-year analysis of Weibo, a leading Chinese micro-blogging platform, and prism of transitional China in a globalizing world. How does society remember public events in the rapidly changing age of social media? Eileen Le Han examines how various kinds of public events are shared, debated, and their historical significance and worthiness of remembrance highlighted on Weibo. Journalism plays a significant part in mobilizing collective remembering of these events, in a society with rapidly changing topics on the platform, the tightening state control, and nationalism on the rise. The first five years of Weibo reflect a dramatic change in Chinese society, where journalists, media professionals, and opinion leaders in other fields of expertise, together with ordinary citizens directly affected by these changes in everyday life collaborate to witness the rapid social transition.

**Sorry States** Jennifer Lind, 2011-08-15 Governments increasingly offer or demand apologies for past human rights abuses, and it is widely believed that such expressions of contrition are necessary to promote reconciliation between former adversaries. The post-World War II experiences of Japan and Germany suggest that international apologies have powerful healing effects when they are offered, and poisonous effects when withheld. West Germany made extensive efforts to atone for wartime crimes-formal apologies, monuments to victims of the Nazis, and candid history textbooks; Bonn successfully

reconciled with its wartime enemies. By contrast, Tokyo has made few and unsatisfying apologies and approves school textbooks that whitewash wartime atrocities. Japanese leaders worship at the Yasukuni Shrine, which honors war criminals among Japan's war dead. Relations between Japan and its neighbors remain tense. Examining the cases of South Korean relations with Japan and of French relations with Germany, Jennifer Lind demonstrates that denials of past atrocities fuel distrust and inhibit international reconciliation. In *Sorry States*, she argues that a country's acknowledgment of past misdeeds is essential for promoting trust and reconciliation after war. However, Lind challenges the conventional wisdom by showing that many countries have been able to reconcile without much in the way of apologies or reparations. Contrition can be highly controversial and is likely to cause a domestic backlash that alarms—rather than assuages—outside observers. Apologies and other such polarizing gestures are thus unlikely to soothe relations after conflict, Lind finds, and remembrance that is less accusatory—conducted bilaterally or in multilateral settings—holds the most promise for international reconciliation.

*Energy Trading and Risk Management* Felix Müsgens, Alexander Bade, 2024-07-26 This book offers important insights into the intricacies of energy trading and risk management to students and professionals in the liberalized electricity and natural gas markets. In its opening chapter, the book delves into fundamental concepts, including price formation on wholesale markets. The various market places and trading products are presented, and the distinguishing characteristics of electricity and natural gas compared to other commodities are emphasised. Moving forward, the next chapter concentrates on portfolio management, offering insights into the trading process through the perspectives of various agents. It begins with proprietary traders and progresses to encompass the portfolio management activities of integrated companies responsible for both generation assets and a retail client base. The book then looks at risk management, explaining the diverse risks that impact the value of energy portfolios in the market. It places emphasis on credit risk, price risk, quantity risk, and product liquidity risk as the most influential factors and presents effective practices for their management. Furthermore, readers will gain a comprehensive understanding of how to manage quantity risk and its interconnectedness with price risk. Additionally, the book addresses the measurement of product liquidity and its disparities across different energy market products. In summary, this book is an accessible introduction and a concise reference for students and professionals across all fields of energy.

**Understand Blog Content Writing** Aysegul Balkose,2021-05-17 Story... It is about a story, the plot, and its characters. You, blog writers, are storytellers. Here is the twist, you are also one of the main characters. The blog has an angle for the plot and its perception of the world around it. Blog, as an entity, has an identity, the way of thinking and acting. It has ideas of its own. It is a great help to define these for the blog and yourself as the writer before you start chucking in your best ideas and publishing them. Blogs want to be found on Google. For this, their content should be countered on the Reader. Not everyone will use the same words to search. To search relevant content, they will use Semantic words. Your job is to write content which covers these Semantic search. The reason I am writing this book is because it would make me feel so happy if I can help people understand the core concepts of blog writing. This was a struggle for me when I started writing blogs. I believe that knowing a basic working structure gives people the opportunity to leap forward faster. By helping others to decode basic concepts, I know I am also helping myself as I embark on another journey of taking responsibility. My mission is to make people learn some life-changing concepts quicker regardless of where they find themselves in life.

**Aviation and the Internet** United States. Congress. Senate. Committee on Commerce, Science, and Transportation,2003

*Automate the Boring Stuff with Python, 3rd Edition* Al Sweigart,2025-05-20 The bestselling introduction to Python programming, revised to include the latest Python features, improved explanations, and new chapters about databases and sound files. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do this work for you? In this fully revised third edition of *Automate the Boring Stuff with Python*, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand—no prior programming experience required. Early chapters will teach you the fundamentals of Python through clear explanations and engaging examples. You'll write your first Python program; work with strings, lists, dictionaries, and other data structures; then use regular expressions to find and manipulate text patterns. Once you've mastered the basics, you'll tackle projects that teach you to use Python to automate tasks like: Searching the web, downloading content, and filling out forms Finding, extracting, and manipulating text and data in files and spreadsheets Copying, moving, renaming, or compressing saved files on your computer Splitting, merging, and extracting text from PDFs and Word documents Interacting with applications through custom mouse and keyboard macros Managing your inbox, unsubscribing from lists, and sending email or text notifications New to this edition: All code and examples have been thoroughly updated. You'll also find four new chapters on database integration, speech recognition, and audio and video

editing, as well as 16 new programming projects and expanded coverage of developer techniques like creating command line programs. Don't spend your time on work a well-trained monkey could do. Even if you've never written a line of code, you can pass off that grunt work to your computer. Learn how in Automate the Boring Stuff with Python.

**The Museum** Owen Hopkins, 2021-10-12 This beautiful and visually immersive book charts the fascinating story of the institution of the Museum, from its origins to the present. Visited by millions around the world every year, museums are one of mankind's most essential creations. They tell stories, shape cultural identities and hold valuable insight about the past and about the future. This captivating work charts a path from the very first collection through to the latest developments in cultural curation, interweaving Using examples of the greatest cultural institutions to shape the narrative, historian and academic Owen Hopkins draws on his deep knowledge of the field to outline the history of the museum movement. Tracking the evolution from princely collections in Europe and the Enlightenment's classically inspired temples of curiosities, via the public museums of the late nineteenth century, on to today's global era of iconic buildings designed by the world's leading architects, this book is a vital work for anyone seeking to understand the development of the museum into what it is today. Over the course of five chapters filled with stunning imagery that highlights the beauty of these venerated buildings, the origins of key institutions are revealed, including: Louvre Metropolitan Museum of Art British Museum Tate Modern The Hermitage Guggenheim Smithsonian Institute Acropolis Museum Also outlined are the motivations of the architects, curators and patrons who have shaped how we experience the modern museum, a cast that includes names such as King George II, Napoleon, Henry Clay Frick, Peggy Guggenheim, Andrew Carnegie, Alfred Barr, Frank Lloyd Wright, Le Corbusier, Frank Gehry, Richard Rogers, Nicholas Serota and Zaha Hadid. By examining how these venues became intrinsic to our shared cultural experience, analysing the changing roles they play in society and questioning what the future holds in a digital age, this book is for anyone who has stood in awe at the spectacle of a museum.

**The DD Group** David Marshall, 2005-03 I am told that the first two names I recognized as a child were President Eisenhower and Marilyn Monroe. Hopefully, for my parents' sake, this was after I understood who Mama and Daddy were. To be truthful, I'm not at all certain. By the time the newsman interrupted my cartoons on Sunday morning, August 5, 1962, to tell me that Marilyn Monroe had been found dead of an overdose at the age of 36, she had become such a natural part of my daily life that I could not quite grasp the concept of a world where she was not still out there going about her surely incredible life. To even begin to attempt to understand that someone as big as Marilyn Monroe could actually die threw my seven-year-old brain into serious philosophical doubt. I kept a close watch on my parents, my teachers, even my close friends. The way I saw it, if Marilyn Monroe could die, everyone was up for grabs. -author David Marshall, from the introduction to The DD Group: An Online Investigation Into the Death of Marilyn Monroe
