**Elana Freeland**

**The Electroherbalism Frequency Lists** Brian McInturff, 2006-11-10 The Electroherbalism Frequency Lists, Third Edition, contains frequencies that people use for electrotherapy instruments such as EMEMs, Rife machines, Rife-Bare devices, function generator pad devices, Hulda Clark function generators, Tesla therapy devices, and other alternative bioelectronic instruments. This compilation includes the Consolidated Annotated Frequency List and the Non-Consolidated Frequency List, also known as the CAFL and NCFL, and the newly revised CAFL Cross Reference List (CAFL XREF) as well as the chapters Introduction to Alternative Bioelectronic Therapy Devices, Electrical and Frequency Effects on Pathogens, and James Bare's Understanding Our Frequencies Through Harmonic Associations. The Electroherbalism frequency lists are some of the most-used references for frequency researchers the world over.

**Waking Up from the Cancer Trance** Judith Lee Dew, 2019-02-01 The author studied the works of early doctors, scientists and genius laypeople who spent years studying different theories about the nature of cancer. Many of them had high success rates with patients who'd been sent home to die after being exposed to conventional therapies. Then, she found doctors who have studied the work of these early (and later) cancer pioneers who have high success rates in their cancer practices now. When cancer is not a mystery, it does not have to be a death sentence.

**Blessed with Energy** Marcy Meyers, 2018-03-08 Energy Medicine What is it? Is there any science to it? What does God say about it? This book uses a trinity of proof-easy-to-understand scientific explanation, scriptural support for the concepts, and life experiences to explain how and why energy medicine works. By replacing fears and misconceptions about energy medicine with the truth about the human energy field, you will gain a greater understanding of your own created potential. Understanding how vibrational frequencies affect your physical, mental, and spiritual health will bring into conscious awareness the unseen forces that shape your health. This book will shift your paradigm about your ability to impact your health issues, energy level, and quality of life. When science and faith confirm each other, you are free to step into the powerful healing abilities of your own innate creation and use energy medicine to help facilitate that healing.

**When Antibiotics Fail** Bryan Rosner, 2005 This book is about how experimental frequency devices known as rife machines have been used for over 15 years in private homes to successfully fight Lyme Disease. Many Lyme Disease sufferers have heard of rife machines, some have used them. But until now there has not been a concise and reliable source to explain how

and why they work.

**An End to All Disease** Lt. Lawrence F. Frego, 2006-07-19 We are at the crossroads of world health. On the one hand we face the possibility of a world wide pandemic, the likes of which has never been seen before. We are, likewise on the threshold of discovering natural cures for nearly every disease. As choosing wisely may mean the difference between life and death, this book is designed to help the reader choose alternative options that are seldom if ever in the news. Jared Diamond, in his groundbreaking work, *Collapse: How Societies Choose to Fail or Succeed*, addresses the fact that only civilizations that recognize the threats against their existence, and deal with the threat effectively survive. Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations. The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition. They tore up cable car lines and public transportation so the public would have no other alternative except their oil. Today, the drug monopolies, owned by the descendants of these same robber barons, are nearly complete in their plot to eradicate all natural, low cost remedies for disease prevention and treatment. In the state of Florida, naturopathic physicians were de-licensed unless they also had a conventional medical license. The powers that be want to create a drug induced society, at an enormous financial and emotional cost to the public at large. They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public. The ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system. It is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you. A few thousand deaths is an acceptable loss if a few billion dollars can be made. And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage. The guardians of public health know which side their toast is buttered on also. The career politicians and beltway bandits at the FDA know where the money is and they don't get it from you or providers of natural cures. The drug monopolies pay the big bucks. There have been no checks and balances. Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act (H.R. 2352) to ensure that accurate health claims ARE NOT SUPPRESSED. Consumers would be given TRUTHFUL AND COMPLETE information about the curative, mitigation, treatment, and prevention effects of foods and dietary supplements on disease or health-related conditions. The time to exercise your God given right to the health care of your choice is now. ([www.lef.org](http://www.lef.org)) America has the finest emergency health care in the world. Bar none. However that is not the nature of the coming threat. American baby boomers will soon be retiring in the tens of millions. Their health care needs will be staggering and costly. However 92% of American health care providers are trained in emergency medicine and only 8% in long term preventative medicine. As it takes a minimum of 6-7 years to obtain a medical degree, America is unprepared for a crisis that is inevitable.

Under an Ionized Sky Elana Freeland, 2018-02-13 It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons “climate change” converted the air we breathe into an antenna. Now, the geo-engineering we’ve been subjected to for two decades is being normalized as the “Star Wars” Space Fence rises around and within us. Is this the Space Age we were promised?

Effective Treatment of Chronic Lyme Disease Otto Salomons, 2009-11 This book is a self help guide for patients suffering from (chronic) Lyme-disease and/or other intra-cellular infections. The book also serves as an information resource for therapists and doctors interested in better treatment options for (chronic) Lyme disease. The book has come forward from the author's own struggle in getting rid of chronic Borrelia and Babesia infections. This was not a trivial exercise. During this quest the use of bio-energetic testing and treatment methods was essential in being successful. The bio-energetic methods that have been applied are bio-resonance and bio-photon based methods. The presented bio-energetic treatment methods can be applied alone or in combination with traditional anti-biotics therapy.

Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self. Having chosen to focus upon ego (established securely by the time of Christ), much more beta brain wave development will destroy our species and others, which process has already begun. We create our own realities through beliefs, intents and desires and we were in and out of probabilities constantly. Feelings follow beliefs, not the other way around.
