Japan and Asia Mariko Tanigaki, 2022-03-21 This book aims to review the postwar interactions of Japan with Asia. The Japanese factory production system, kaizen, has been shared in Asia. This book collects more diverse topics from Japan's interactions with China, the Philippines, Indonesia, and Hong Kong. Each chapter provides details on how the business, political, and cultural interactions enrich both sides. The findings are then used to suggest the possibility of a de-facto Asian Community and Japan's role in the present and post-COVID-19 world.

Transmedia Character Studies Tobias Kunz, Lukas R.A. Wilde, 2023-03-31 Transmedia Character Studies provides a range of methodological tools and foundational vocabulary for the analysis of characters across and between various forms of multimodal, interactive, and even non-narrative or non-fictional media. This highly innovative work offers new perspectives on how to interrelate production discourses, media texts, and reception discourses, and how to select a suitable research corpus for the discussion of characters whose serial appearances stretch across years, decades, or even centuries. Each chapter starts from a different notion of how fictional characters can be considered, tracing character theories and models to approach character representations from perspectives developed in various disciplines and fields. This book will enable graduate students and scholars of transmedia studies, film, television, comics studies, video game studies, popular culture studies, fandom studies, narratology, and creative industries to conduct comprehensive, media-conscious analyses of characters across a variety of media.
