Socialización escolar Unda Lara, Rene, Mayer, Liliana, Llanos Erazo, Daniel, 2015-01-30 El identificar los lugares de enunciación de los autores de la presente publicación, no resulta ser un trabajo fácil, cuando, justamente, la preocupación fundamental en cada uno de los trabajos aquí compilados ha sido dejar-hablar a sus protagonistas, no solamente a los autores. En este cometido, quizá haya que decir que la experiencia de la investigación social deviene del saber-ver para saber-decir; deviene también de la trayectoria del saber-conocer al saber-comprender y del movimiento continuo entre saber-deducir y saber-vivir. Desde estos presupuestos centrales presentamos una compilación que contribuye al fortalecimiento de alternativas de investigación social, política y cultural. Se trata de once artículos y modos de acercarse al mundo; de alternativas que desde la construcción de comunidad, desde ideas sobre lo colectivo y desde diversos modos de constituir las ciudadanías han sido producidas a partir de la problematización sobre lo que ocurre en ese amplio y complejo espacio de lo social que es la escuela. Los textos aquí reunidos se traducen en una singular inmersión en el mundo que acontece ubicando a la escuela como centro de interés investigativo. Atender a preguntas desde lo profundo de la segregación, la marginación y la desigualdad, ya constituye un esfuerzo demandante y necesario por desplazar discursos y posturas tradicionales y positivas, instalando una reflexión de tipo particular, situada y alterna que ofrezca renovadas posibilidades de aproximación a la comprensión de los actuales procesos y experiencias de socialización escolar.

The Inventive Schoolmaster Walter Omar Kohan, 2015-02-03 "A constant belief seems to give life to Kohan's theoretical work and philosophical practice. A supposition that one could never prove, or disprove, motivates Kohan's ceaseless erring and essaying, his efforts to invent school. We read it in-between the lines of nearly all of his published work, and those who have had the chance to take part in his manner of philosophical askēsis feel it in his practice. It is a belief that he shares with Rodríguez: All children, adolescents, and adults, from all walks of life, from any corner of the globe, no matter their economic status, occupation, gender, race, or ethnicity, can philosophize. But perhaps more profoundly, and it is here where I think Kohan's written work and practice mirror the pedagogy and text of Rodríguez, philosophizing, living philosophically, with anyone, for anyone, we can invent school. The Inventive Schoolmaster: Simón Rodríguez is indeed about the inventive Simón Rodríguez. More importantly, however, it is an essay which shows us how a life of philosophical essaying and errantry can invent school. And in this regard it is also an introduction to the singular form of Walter Kohan's philosophy

of education." - Jason Thomas Wozniak

Antonio Gramsci: A Pedagogy to Change the World Nicola Pizzolato, John D. Holst, 2017-06-12 This volume provides evidence for the argument of a central place of pedagogy in the interpretation of Gramsci's political theory. Gramsci's view that 'every relationship of hegemony is necessarily a pedagogical relationship' makes it imperative to dismiss narrow and formal interpretations of his educational theories as applying to schooling only. This book argues that what is required rather is an inquiry into the Italian thinker's broad conceptualisation of pedagogy, which he thought of as a quintessential political activity, central to understanding and transforming society. Preceded by a broad introduction that positions Gramsci in his context and in the literature, the essays in this book critically revisit the many passages of the Prison Notebooks and pre-prison writings where Gramsci addresses the nexus between politics and pedagogy. Some essays apply those concepts to specific contexts. The book for the first time brings to the attention of an English-speaking audience voices from the current historiography in Italy and Latin America. We are forced at regular intervals to consider how Gramsci might still be useful, in particular national territories, in an international context. How can we carry on with pessimism of the intelligence, but find some basis for optimism of the will? From the foreword of Anne Showstack Sassoon, Visiting Professor of Politics at the Department of Politics at Birbeck, University of London

Sujetos de la educación: Soler Martín, Carolina, 2019-05-10 Esta obra expone y analiza un modelo teórico alrededor de la constitución de sujetos en ámbitos escolares, es decir, sujetos en la educación. Dicha constitución es atravesada por las nociones de sujeto, por la historicidad e institucionalidad de la escuela y por la multiplicidad de relaciones y experiencias que allí se tejen, en parte, ante las construcciones sobre las diferencias humanas que aún requerimos denominar desde etiquetas como las de trastorno del espectro autista (TEA). Es inicialmente en la filosofía donde se encuentran las herramientas teóricas esenciales para indagar las nociones de sujeto; y a partir de estas, se recorren lugares sociológicos, políticos, éticos y pedagógicos dado el interés de esta investigación.

Tecnología, educación y comunicación visual Rosa Alejandra Morales-Velasco, Rosalba Palacios-Díaz, José Olvera Trejo, Marco Antonio Esquivel-Hernández, 2025-08-14 El libro "Tecnología, educación y comunicación visual" es una obra interdisciplinaria que explora la convergencia entre estas tres áreas fundamentales en las artes y las humanidades. A través de diez capítulos, aborda desde la aplicación de inteligencia artificial en la mezcla de audio, la creación de archivos sonoros para preservar la identidad cultural, hasta el diseño de materiales didácticos multimodales para niños con discapacidad visual y autismo. También destaca la inclusión educativa mediante el arte, la gamificación en la tutoría, la inteligencia emocional en la enseñanza de las artes y la prevención de la violencia a través de documentales. Asimismo, examina el impacto de la comunicación visual en normas editoriales y el diseño de instrumentos para repositorios educativos digitales. Este compendio invita a la reflexión crítica sobre el rol integrador y transformador de la tecnología, la educación y

la comunicación visual en el desarrollo social, cultural y académico.

Educación crítica y comunicación Antonio Fernández Vicente,2018-01-08 Aprendemos por nosotros mismos a caminar, a hablar en nuestros primeros años. Se nos enseña a leer y a escribir en la escuela, pero ¿qué sucede con nuestra relación con los medios de comunicación? ¿Y con los medios digitales? Este libro pretende proporcionar algunas líneas de reflexión crítica y práctica para aprender a comunicar en el contexto de un mundo saturado de imágenes y noticias. Es un manual de defensa contra las persuasiones, invisibles e insospechadas a veces, de los mass media, así como de reivindicación de otras formas de comunicación más humanas en un mundo deshumanizado.

Desafíos y retos de la educación en tiempos de pandemia Santiago Sevilla-Vallejo,Roberto Castrillo Soto,2022-04-01 El libro Desafíos y retos de la educación en tiempos de pandemia. Epistemologías del Sur Boaventura de Sousa Santos, María Paula Meneses, 2014-03-31 ¿Por qué razón, en los últimos dos siglos, la epistemología occidental dominante eliminó de la reflexión el contexto cultural y político de producción y reproducción del conocimiento? ¿Cuáles son las consecuencias de esta descontextualización? ¿Son hoy posibles otras epistemologías? ¿Qué consecuencias tiene el racismo en el ámbito de los saberes al degradar como «inferiores» los conocimientos no occidentales y exagerar como «superiores» los conocimientos occidentales? ¿Cómo se redefinirían los debates globales actuales sobre democracia, crisis ecológica, derechos humanos, liberación de la mujer, economía, etc., si partimos de un diálogo entre iguales basado en la diversidad epistemológica del mundo? Este libro procura dar respuesta a estas preguntas, no conformándose con hacer una mera crítica, sino proponiendo una alternativa conocida como Epistemologías del Sur. En sus capítulos se denuncia la supresión de saberes (epistemicidio) llevada a cabo a lo largo de los últimos siglos por la norma epistemológica dominante, además de investigar las condiciones para un diálogo horizontal entre conocimientos. Un texto profundamente necesario en un mundo al que le cuesta renunciar a su tradicional occidentalocentrismo.

Así somos los humanos Joaquín García Carrasco, Ricardo Canal Bedia, 2018-08-06 Al observar los autores el hecho de las imperfecciones y vulneraciones de los seres humanos, tuvieron oportunidad para vislumbrar mecanismos de fondo presentes en todo escenario educativo. Convirtieron las adversidades de la condición humana en perspectiva para una deliberación inclusiva. La adversidad de la condición humana, por su origen, puede agruparse en dos grandes géneros. El primer género recogería todos los seres humanos que aparecen vulnerados, como consecuencia de la imperfección del diseño

biológico, el acontecimiento es de nacimiento. El nacimiento de un hijo con discapacidad es adversidad también para quienes esperan acogerlo incondicionalmente. Con el segundo género de adversidad se topan todos los seres humanos con sus vidas hendidas de algún incidente traumático que siega su trayectoria biográfica; la trataremos como adversidad sobrevenida. El parentesco de ambos géneros de adversidad es íntimo. En algún momento, todas las personas tendrán que afrontar alguna forma de adversidad, porque forma parte de la humana condición. Todos tendríamos que tenerlo previsto, por principio y desde el principio; sobre todo, al hacer una cata reflexiva en la naturaleza humana; marginarlo invalida en aspectos fundamentales cualquier indagación; incluirlo aporta beneficios extraordinarios. El principal es el esclarecimiento de importantes regiones de la vida humana. Situados en el altozano de la adversidad -aunque no sea ese el único mirador-, nos pareció relevante, escamondar y desentrañar tres términos cardinales, de cuya importancia la literatura científica está dando cuenta de manera fehaciente: plasticidad, vulnerabilidad y resiliencia.

Handbook of Research on International Approaches and Practices for Gamifying Mathematics Huertas-Abril, Cristina A., Fernández-Ahumada, Elvira, Adamuz-Povedano, Natividad, 2022-05-13 Game-based resources provide opportunities to consolidate and develop a greater knowledge and understanding of both mathematical concepts and numeracy skills, which present opportunities and challenges for both teachers and learners when engaging with subject content. For learners for whom the language of instruction is not their first or main language, this can present challenges and barriers to their progress. This requires teachers to reconsider and adapt their teaching strategies to ensure the needs of these learners are fully addressed, thereby promoting inclusion and inclusive practices. The Handbook of Research on International Approaches and Practices for Gamifying Mathematics provides relevant theoretical frameworks and the latest empirical research findings in teaching and learning mathematics in bilingual/plurilingual education by using active methodologies, specifically gamification and game-based learning and teaching. Covering a wide range of topics such as e-safety, bilingual education, and multimodal mathematics, this major reference work is ideal for policymakers, researchers, academicians, practitioners, scholars, instructors, and students.

La voz del estudiante en la educación superior María Teresa Gómez Lozano, Cristian Vinasco Castañeda, 2023-05-29 A

partir de las narraciones de estudiantes universitarios, este libro reflexiona acerca del proceso educativo y la experiencia de los jóvenes en la educación superior. Gracias al análisis de estos relatos se logra una obra novedosa, que no solo pretende generar una reflexión sobre el quehacer pedagógico, sino también ofrecer una visión más realista de la labor del docente de pregrado. Las voces de estudiantes de diferentes carreras y que provienen de distintas regiones dan cuenta en buena medida de la situación de la educación en el país, con sus aciertos y errores, sus fortalezas y debilidades. La voz del estudiante en la educación superior es una invitación a que los docentes se atrevan a innovar, a idear estrategias de aprendizaje, a crear ambientes motivadores y a escuchar a los estudiantes.

Citizenship as Politics, 2009-01-01 This book holds two main concepts: citizenship and adult education, and presents a diverse scope of ideas and experiences from different countries and perspectives in a rich indication to edify liberating practices and researches. Citizenship is closely linked with participation. When people are encouraged to take part in an authentic process of decision making, people do participate in public affairs. Here is the true meaning of citizenship related to the old idea to take part, to get involved in public issues and transform their community through participation. On the other hand, Lifelong Learning's concepts and practices seem to have forgotten that adult education is more than the preparation for a job. Adult education is learning for democracy; researching communities searching for a school for all; transforming communities; struggling for our rights; becoming awareness about environmental hazards; edifying the city or expressing ourselves through theatre or public art. Lifelong Learning's concepts and practices seem to have forgotten that life is more than the labour market. The entire life of women and men are the substance of what adult education is made of. The book is not only addressed to scholars, under and postgraduate students interested in citizenship and adult education, but also to practitioners working in communities in a participatory way.
