## RS Peters

**The Tea Ceremony and Women's Empowerment in Modern Japan** Etsuko Kato, 2004-07-31 By combining anthropological observation with historical examination of the tea ceremony, this book radically revises mainstream discourses surrounding women and the tea ceremony in Japan.

*New West*, 1977

**Business In Japan** Paul Norbury, 2019-03-22 This book covers the main practical elements of doing business with the Japanese. It gives the reader sufficient background to understand and associate with the Japan of the 1980s as well as support him with the know-how for searching out and grasping the rich opportunities that lie ahead.

Congressional Record United States. Congress, 1963

A Pot-pourri of Eastern Asia, with Comparisons and Reflections Florence M. Taylor, 1935

**Grade Teacher**, 1951

**To Dream of Dreams** David M. O'Brien, 1996-04-01 Prior to World War II, State Shinto, which was centered on the worship of the emperor and Yasukuni Shrine's cult of war dead, was established in support of the government and militarism. Since the end of the Occupation, Japanese conservatives have sought to restore State Shinto's institutions even as expanded military budgets have placed Japan among the top five countries in defense spending. This timely book focuses on the struggles against government attempts to revive the emperor system and Japan's prewar military presence. Organized around case studies and based on extensive interviews, *To Dream* treats the operations of the Japanese court system thoroughly and uncovers important cases regarding religious liberty that remain little known even among specialists on modern Japanese history and society. It shows that litigation has been brought by pacifists, liberals, and others fiercely opposed to renewed militarism and to governmental support for the symbolism and institutions of State Shinto. Throughout, the author offers important information on the composition of courts involved and the attitudes of specific judges and provides translated texts of significant judicial decisions, in the process dispelling the stereotype of the Japanese as reluctant litigants.

*Sources of Japanese Tradition* Yoshiko Kurata Dykstra, 2001 A perennial best-seller, *Sources of Japanese Tradition* has long been a staple in classrooms and libraries, a handy and comprehensive reference for scholars and students, and an

engaging introduction for general readers. Now in its long-awaited second edition, this classic volume remains unrivaled for its wide selection of source readings on history, society, politics, education, philosophy, and religion in the land of the rising sun.

Sources of Japanese Tradition Wm. Theodore De Bary, Carol Gluck, Arthur Tiedemann, 2002-04-10 Sources of Japanese Tradition is a best-selling classic, unrivaled for its wide selection of source readings on history, society, politics, education, philosophy, and religion in the Land of the Rising Sun. In this long-awaited second edition, the editors have revised or retranslated most of the texts in the original 1958 edition, and added a great many selections not included or translated before. They have also restructured volume 1 to span the period from the early Japanese chronicles to the end of the sixteenth century. New additions include: \* readings on early and medieval Shinto and on the tea ceremony, \* readings on state Buddhism and Chinese political thought influential in Japan, and \* sections on women's education, medieval innovations in the uses of history, and laws and precepts of the medieval warrior houses. Together, the selections shed light on the development of Japanese civilization in its own terms, without reference to Western parallels, and will continue to assist generations of students and lay readers in understanding Japanese culture.

Emergent U.S. Literatures Cyrus Patell, 2014-11-07 Emergent U.S. Literatures introduces readers to the foundational writers and texts produced by four literary traditions associated with late-twentieth-century US multiculturalism. Examining writing by Native Americans, Hispanic Americans, Asian Americans, and gay and lesbian Americans after 1968, Cyrus R. K. Patell compares and historicizes what might be characterized as the minority literatures within "U.S. minority literature." Drawing on recent theories of cosmopolitanism, Patell presents methods for mapping the overlapping concerns of the texts

and authors of these literatures during the late twentieth century. He discusses the ways in which literary marginalization and cultural hybridity combine to create the grounds for literature that is truly “emergent” in Raymond Williams’s sense of the term—literature that produces “new meanings and values, new practices, new relationships and kinds of relationships” in tension with the dominant, mainstream culture of the United States. By enabling us to see the American literary canon through the prism of hybrid identities and cultures, these texts require us to reevaluate what it means to write (and read) in the American grain. *Emergent U.S. Literatures* gives readers a sense of how these foundational texts work as aesthetic objects—rather than merely as sociological documents—crafted in dialogue with the canonical tradition of so-called “American Literature,” as it existed in the late twentieth century, as well as in dialogue with each other.

Immerse yourself in the artistry of words with is expressive creation, Discover the Artistry of **Girls Tea Ceremony Ism** .
