Kay Redfield Jamison

Night Falls Fast Kay Redfield Jamison, 2011-01-12 Critical reading for parents, educators, and anyone wanting to understand the tragic epidemic of suicide—"a powerful book [that] will change people's lives—and, doubtless, save a few (Newsday). The first major book in a quarter century on suicide—and its terrible pull on the young in particular—*Night Falls Fast* is tragically timely: suicide has become one of the most common killers of Americans between the ages of fifteen and forty-five. From the author of the best-selling memoir, *An Unquiet Mind*—and an internationally acknowledged authority on depression—Dr. Jamison has also known suicide firsthand: after years of struggling with manic-depression, she tried at age twenty-eight to kill herself. Weaving together a historical and scientific exploration of the subject with personal essays on individual suicides, she brings not only her remarkable compassion and literary skill but also all of her knowledge and research to bear on this devastating problem. This is a book that helps us to understand the suicidal mind, to recognize and come to the aid of those at risk, and to comprehend the profound effects on those left behind.

Mad Muse Jeffrey Berman, 2019-09-03 Many of the well-respected scholarly studies of autobiographical writing have little or nothing to say about mental illness. This book uncovers the mysterious relationship between mood disorders and creativity through the lives of seven writers, demonstrating how mental illness is sometimes the driving force behind creativity.

The Dynamics of Murder R. Barri Flowers, 2012-11-26 In recent years, there has been a surge in school shootings, workplace homicides, hate violence, and deadly terrorist attacks in the United States. This has resulted in a greater focus on homicidal behavior, its antecedents, ways to recognize warning signs of at-risk victims and offenders, and preventive measures. It has also led to increased efforts by lawmakers to create and pass tough crime legislation as well as improved federal, state, and local law enforcement response to murder and other violent crimes. *The Dynamics of Murder: Kill or Be Killed* is a multifaceted probe of murder offenses, offenders, victims, and characteristics of homicide in American society. This book breaks new ground in homicide studies by examining issues generally ignored or neglected among researchers. Topics include murders occurring in the workplace and in schools, those perpetrated by gangs and terrorists, those incited by bias, and intimate and intrafamilial murders. The book discusses sexual killers, serial and mass murderers, and suicide. It also examines psychological and sociological theories on murder and violence, as well as the increasing role the Internet plays in these crimes. Case studies of actual murderers are included, including serial killers Gerald and Charlene Gallego, mass murderer Byran Koji Uyesugi, the murder/suicide case of Sahel Kazemi, and the intrafamilial murders committed by Charles Stuart and Sarah Marie Johnson. A comprehensive exploration of the crime of murder in American society, this fascinating study is an essential resource for researchers, criminologists, and other professionals in a wide range of disciplines.

Supporting Crisis Survivors Everton I. Anderson, 2013-07-22 CHAPTER ONE CRISIS AND TRAUMAS V PRESENT EVERYWHERE What are the Distinguishing Traits of a Crisis? Research has shown that the Chinese word for crisis involves two characters; one means danger, and the other means opportunity. One psychologist summarized the peculiarities in this manner: A crisis is a turning point that usually cannot be avoided. They are filled with danger because they disrupt life and threaten to overwhelm the people who are affected. Furthermore, a crisis also present people with the opportunity to change, grow, and develop better ways of coping. Since people in crisis often feel confused and helpless, they tend to be more opened to receive outside help, including the help that comes from rescue workers, from counselors and from God. CHAPTER TWO THE MULTIFARIOUS ELEMENTS OF LOSS Increasing Number of Loss Individuals seem to cope with losses better when they are occasional. Yet after the age of 50 or 60, they pass into a period of increasing number of losses. Still grieving from the previous loss, it is ever so hard to make sense of the current one. Furthermore, if one had never learnt to deal effectively or contend with occasional losses, then it is inevitable having several will be catastrophic. Equally important is that each type of loss brings its own kind of suffering and reaction. CHAPTER THREE PURPOSE OF CRISIS COUNSELING When a visit is made, if the crisis counselor does not have an objective, the appointment will be unsuccessful. Therefore, the underlining purpose of crisis counseling is to support the hurting, and not to encourage the avoidance of reality. This means the counselor advises individuals in crisis to admit the crisis, express grief normally and arrive at a healthy resolution. CHAPTER

FOUR THE CRISIS OF DEATH AND DYING Although human suffering in multiple dimensions is a factor of life which causes great pain and human anguish, it must not be used as a reason for justifying the direct taking of human life. God must always be understood as the Creator and Sustainer of life. It was Norman St John-Stevan who articulated this view skillfully: The value of human life for the Christian in the first century A. D., as today, rested not on its development of superior sentience but on the unique character of the union of a body and soul, both destined for eternal life. The right to life thus has a philosophical foundation. Respect for the lives of others, because of their eternal destiny is the essence of the Christian teaching.

CHAPTER FIVE COMFORTING THE SUICIDAL AND VICTIMS FAMILY The following are invaluable principles that are crucial to the helpline counseling methods:

- The Suicidal X Activity. The person needs to feel that something is being done for him or her right now. This solemn promise or guarantee can alleviate his or her anxiety.
- X Involvement of others. If the caller realizes that others are now involved and caring for him or her, the person will be more apt to feel the care and concern and will more likely respond.
- The Family Counselors, friends and family members alike feel guilt, extreme displeasure, and self-blame because the death was not averted. However, ultimately responsibility for suicide rests with the victim who was unable or unwilling to cope with the pressures of life.
- Ways to support. Promise to visit the mortuary, and advise family members to do the same. If possible, accompany the grief-stricken relatives, knowing that the initial shock and denial could be overwhelming.
- X Resist the phrase, It was an accident, a terrible accident. Some may think this is helpful, but its more of an expression of ones own anxiety.
- X Do not pass judgment, But, he or she was up all night drinking. They did not understand what they were doing. It is not helpful or necessary to give reasons for the suicide.
- X The date on which the suicide took place

The Noonday Demon Andrew Solomon, 2014-09-16 The author offers a look at depression in which he draws on his own battle with the illness and interviews with fellow sufferers, researchers, doctors, and others to assess the complexities of the disease, its causes and symptoms, and available therapies. This book examines depression in personal, cultural, and scientific terms. He confronts the challenge of defining the illness and describes the vast range of available medications, the efficacy of alternative treatments, and the impact the malady has on various demographic populations, around the world and throughout history. He also explores the thorny patch of moral and ethical questions posed by emerging biological explanations for mental illness. He takes readers on a journey into the most pervasive of family secrets and contributes to our understanding not only of mental illness but also of the human condition.

Collected Stories Donald Margulies, 2012-07-25 In *Collected Stories*, playwright Donald Margulies explores the vexed emotional and legal question of a writer's right to create art from the biographical material of another person's life--particularly when that other person is also a writer. Meditating upon the recent, real-life conflict between poet Stephen Spender and novelist David Leavitt, Margulies has created two of the most vivid and moving fictional characters of his career: Ruth Steiner, an aging, highly regarded author who never wrote about her youthful affair with real-life poet Delmore Schwartz, and Debra Messing, a student of Steiner's who, after publishing a much-praised first short-story collection under Steiner's direction, follows up with a novel that draws upon the Schwartz affair.

The World Looks Different Now Margaret Thomson, 2025-07-30 On a glorious, if blisteringly hot, Saturday in August 2010, Margaret Thomson's world is suddenly shattered by the incomprehensible news that her twenty-two-year-old son, a medic in the army, has taken his life. In a deep state of shock, Thomson and her husband immediately travel to Fort Bragg, North Carolina, where their son Kieran was stationed, in an effort to assist their daughter-in-law. Upon their arrival, though, the couple find themselves plunged into a labyrinthine and, at times, seemingly bizarre world of military rules and regulations. Eventually, after the funeral and the memorial services are over, an even more challenging journey—emotionally as well as geographically—ensues, especially for Margaret, who, as a former journalist, is determined to find out more about the circumstances surrounding her son's death, no matter how high the cost. As she enters her second year of grieving, Thomson receives an unexpected invitation from an unlikely source—the army, which she's often blamed in many ways,

whether fairly or not, for her son's death. Seizing upon this opportunity, Thomson finds that her perspective is changed—literally—and that as a result the world does indeed look different now.

Finding Iris Chang Paula Kamen, 2007-12-10 This account of a bestselling author's suicide is "part biography, part detective story, part memoir of a thorny but enduring friendship" (Molly Worthen, author of *Apostles of Reason*). Iris Chang's mysterious suicide in 2004, at age thirty-six, didn't seem to make any sense. She had more to live for than anyone, including fame, fortune, beauty, a husband, and a child. Some even wondered if the controversial New York Times-bestselling author of *The Rape of Nanking* had been murdered. Long-time friend Paula Kamen was among those left wondering what had gone so wrong. Seeking to reconcile the suicide with the image of Chang's "perfect" life, Kamen searched her own memory and scoured Chang's letters, diaries, and archival material to fill in the gaps of Chang's personal transformation—from awkward teen to homecoming princess in college, from "ex-shy person" to world-class speaker and international human rights pioneer—and her later decline into mental illness and paranoia. A literary investigation of an important writer's journey, *Finding Iris Chang* is a tribute to a lost heroine, a portrait of the real and vulnerable woman who inspired so many around the world. "Probes the stigma of mental illness in the Asian-American community, Chang's sense of guilt over her son's autism, her veneer of perfection and the deterioration of her mental state." —Publishers Weekly "A rewardingly complex portrait of a driven and troubled woman." —Kirkus Reviews

Surviving Bill Mike Reynolds, 2007-03 Losing a loved one. There is nothing worse to endure. As a survivor of my brother Bill's suicide, I intimately know the pain and confusion attached to loss and the immeasurable ways it changed my life. Going beyond the typical narratives on the five stages of grief, religion or counseling, this book shares those ordinary moments in my life that moved my healing forward, be they relationships, synchronistic moments, or even my love of surfing. My hope is that they help you identify the key moments throughout your life and propel your own healing forward.

Goodbye Mom George Staursky, 2004-11 This book is not a biography about a man, but rather it is about a Journey. This is a Journey through life, with this illness, Bipolar Disorder, and all the dynamics that go along with it. This book shows how a man faced the consequences of this disease, and all its pain, bigotry and anguish, but this journey also shows how he defeated the disease. This is a book of his Journey through trauma, tragedy, and recovery. This book is a riveting account of that journey. It includes others who have suffered the indignities of this illness. It brings to life an account of a story that could be written by many different people over time. Destroying a life to save the same life could be construed by many as an oxymoron. However, in this case, it fits the scenario perfectly. As in the story of Dr. Jekyll and Mr. Hyde, there had to be destruction of one's inner-self to save everyone from the inner-demons plaguing Dr. Jekyll.

Practicing Presence Rob O'Lynn, 2015-02-03 This book draws on the combined experience of a located minister, pastoral scholar and former hospital chaplain. First, it introduces the basic elements of pastoral care in a clear and concise

way. It then discusses the basic tenants of crisis theory and provide guidelines for performing and effective intervention and referral. The first unit concludes by focusing on some special issues that occur in pastoral care (e.g., grief and burnout). Second, it introduces several tools and ideas that can be used practically in a number of pastoral care and crisis situations. These are not offered as a checklist agenda for a minister to follow when you visit someone in the hospital or are called upon to intervene in a crisis. Yet they are offered as a way of easing our internal fears about sitting with someone in the midst of their pain and suffering.

Living with Bipolar Disorder Karen R. Brock, M.D., 2014-07-14 Bipolar means more than mood swings and chemical imbalances. It is a genetic brain regulation malfunction causing not only mood but behavioral symptoms. Severity and symptoms vary along a spectrum of disease presentations, from a happy, positive personality, to a moody temperament, to chronic and recurrent depressions, to classic manic-depressive illness. It is a chronic disease with periods of illness as well as remission. Keeping the disease under control requires daily maintenance and vigilance for emerging symptoms. The goal of this book is to help the bipolar person successfully manage his or her illness and live a full and meaningful life. First, the reader will learn all about bipolar disorder: how it presents, how it is diagnosed, how it is passed down in families, and how it affects women as compared to men. Next, the various types of treatment and the logistics of daily maintenance are discussed in detail. Finally, the advantages and disadvantages of bipolar disorder are explored and the lives of interesting and outstanding historical and current bipolar individuals are examined.

Exuberance Kay Redfield Jamison, 2005-09-13 A national bestselling author examines one of the mind's most exalted states—one that is crucially important to learning, risk-taking, social cohesiveness, and survival itself. “[Jamison is] that rare writer who can offer a kind of unified field theory of science and art.” —The Washington Post Book World With the same grace and breadth of learning she brought to her studies of the mind's pathologies, Kay Redfield Jamison examines one of its most exalted states: exuberance. This “abounding, ebullient, effervescent emotion” manifests itself everywhere from child's play to scientific breakthrough. *Exuberance: The Passion for Life* introduces us to such notably irrepressible types as Teddy Roosevelt, John Muir, and Richard Feynman, as well as Peter Pan, dancing porcupines, and Charles Schulz's Snoopy. It explores whether exuberance can be inherited, parses its neurochemical grammar, and documents the methods people have used to stimulate it. The resulting book is an irresistible fusion of science and soul.

Abortion and Divorce Law in Ireland Jennifer E. Spreng, 2015-03-12 In 1991, the people of Ireland elected Mary Robinson, a women's rights crusader who supported legalized birth control and divorce, as their president. The country seemed poised for massive social and legal change, but it became apparent that even though Ireland at the dawn of the 21st century would be very different from the Ireland of the past, many fundamentals would remain the same. This book examines Irish abortion and divorce law in their historical, religious, and cultural contexts. Its main focus is on the well-publicized

referenda and court cases of the 1980s and 1990s, with special attention given to their roots and potential long-term effects on the communitarian Irish culture and opportunities for Irish women. The author identifies and discusses three forces that have affected Irish law and mores, especially those relating to abortion and divorce: economic insecurity; a sense of group loyalty and identification, particularly within families and churches; and Catholic teaching about the common good.
