From Page to Screen / Vom Buch zum Film Manuel Almagro-Jiménez, Eva Parra-Membrives, 2020-10-05 For a long time now, women have struggled for the vindication of their rights and for their visibility. This struggle may seem a story of success, maybe not complete or equal for all women, but at least one which slowly but surely carries with it the promise of equality for all women. However, a closer look reveals that in various fields of culture the representation of women frequently undergoes a manipulation which makes the image of women lose the intention initially attempted. This is often the case with adaptations of literary texts to the screen, when the initial literary message is changed because of, for example, marketing demands or some ideological stance. Rarely do we find the opposite case where the indifferent or emasculated original female characters are turned into guardians and/or apologists of feminine power. The present volume focuses precisely on the way in which the image of women is modified in films and TV series, when compared with the original literary texts.

Birth Mothers and Transnational Adoption Practice in South Korea Hosu Kim, 2016-10-26 This book illuminates the hidden history of South Korean birth mothers involved in the 60-year-long practice of transnational adoption. The author presents a performance-based ethnography of maternity homes, a television search show, an internet forum, and an oral history collection to develop the concept of virtual mothering, a theoretical framework in which the birth mothers' experiences of separating from, and then reconnecting with, the child, as well as their painful, ambivalent narratives of adoption losses, are rendered, felt and registered. In this, the author refuses a universal notion of motherhood. Her critique of transnational adoption and its relentless effects on birth mothers' lives points to the everyday, normalized, gendered violence against working-class, poor, single mothers in South Korea's modern nation-state development and illuminates the biopolitical functions of transnational adoption in managing an excess population. Simultaneously, her creative analysis reveals a counter-public, and counter-history, proposing the collective grievances of birth mothers.

Translation Studies and China Haiping Yan, Haina Jin, Paul Gladston, 2023-09-22 Focusing on transculturality, this edited volume explores how the role of translation and the idea of (un)translatability in the transformative complementation

of different civilizations facilitates the transcultural connection between Chinese and other cultures in the modern era. Bringing together established international scholars and emerging new voices, this collection explores the linguistic, social, and cultural implications of translation and transculturality. The 13 chapters not only discuss the translation of literature, but also break new ground by addressing the translation of cinema, performance, and the visual arts, which are active bearers of modern and contemporary culture that are often neglected by academics. Our volume is ground-breaking in its trans-disciplinary attention to the study of translation related to China and such a trans-disciplinarity should serve as a ground-breaking leverage for other areas of humanities as well. Through an engagement with these diverse fields, the title aims not only to reflect on how translation has reproduced values, concepts, and cultural forms, but also to stimulate the emergence of new possibilities in the dynamic transcultural interplay between China and the diverse national, cultural-linguistic, and contexts of Europe, the Americas, and Asia. It shows how cultures have been appropriated, misunderstood, transformed, and reconstructed through processes of linguistic mediation, as well as how knowledge, understanding, and connections have been generated through transculturality. The book will be a must read for scholars and students of translation studies, transcultural studies, and Chinese studies.

Operas in English: A Dictionary Margaret Ross Griffel, 2012-12-21 In this revised and expanded edition of *Operas in English: A Dictionary*, Margaret Ross Griffel updates her work on operas written specifically to an English text, including not only works originally in English but also those set to new English librettos. Since the book's initial publication in 1999, Griffel has added nearly 900 new items, bringing the total number of entries in this new edition to 4,400, covering the world of

opera in English from 1634 through 2011. The front matter includes a brief history of English opera, to “set the stage” for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles; a full, descriptive title; the number of acts; composer’s name; librettist’s name, with original language of the libretto; the source of the text (date, place, and cast of the first performance); date of composition (if it occurred substantially earlier than the premiere); similar information for the first U.S. (including colonial) and British (England, Scotland, Wales) performances; brief plot summary; main characters (names and vocal ranges, where known); names of noteworthy numbers; comments on special musical problems and techniques; other settings of the text, including non-English ones; other operas, if any, involving the same story or characters (cross references are indicated by asterisks). Entries include such information as first and critical editions of the score and libretto; a bibliography, ranging from scholarly studies to more informal journal articles and reviews; a discography; and information on video recordings. Operas in English features four appendixes, a selective bibliography, and two indexes. The first appendix lists composers, their places and years of birth and death, and their operas included in the text as entries; the second does the same for librettists; the third records authors whose works inspired or were adapted for the librettos; and the fourth comprises a chronological listing of the A-Z entries, including the date of first performance, the city of the premiere (or composition date if unperformed or performed much later), the short title of the opera, and the composer. There is a main character index and an index of singers, conductors, producers, composers of other settings, and other key figures.

Blast, Corrupt, Dismantle, Erase Brett Josef Grubisic, Gisèle M. Baxter, Tara Lee, 2014-06-16 What do literary dystopias reflect about the times? In *Blast, Corrupt, Dismantle, Erase*, contributors address this amorphous but pervasive genre, using diverse critical methodologies to examine how North America is conveyed or portrayed in a perceived age of crisis, accelerated uncertainty, and political volatility. Drawing from contemporary novels such as Cormac McCarthy’s *The Road*, Neil Gaiman’s *American Gods*, and the work of Margaret Atwood and William Gibson (to name a few), this book examines dystopian literature produced by North American authors between the signing of NAFTA (1994) and the tenth anniversary of 9/11 (2011). As the texts illustrate, awareness of and deep concern about perceived vulnerabilities—ends of water, oil, food, capitalism, empires, stable climates, ways of life, non-human species, and entire human civilizations—have become central to public discourse over the same period. By asking questions such as “What are the distinctive qualities of post-NAFTA North American dystopian literature?” and “What does this literature reflect about the tensions and contradictions of the inchoate continental community of North America?” *Blast, Corrupt, Dismantle, Erase* serves to resituate dystopian writing within a particular geo-social setting and introduce a productive means to understand both North American dystopian writing and its relevant engagements with a restricted, mapped reality.

Self-Help in the Digital Age Loredana Filip, 2024-09-23 In an age where science and technology hold sway and the

humanities face a crisis, this book explores the evolving role of literature. It delves into how American self-help culture shapes contemporary ideals of success, mindfulness, and happiness, with a particular focus on its influence in science communication, notably in TED talks. Moreover, it underscores the enduring relevance of literature in the digital era by analyzing speculative novels that challenge established norms, including those propagated by TED. These novels include Richard Powers' *Generosity: An Enhancement*, Margaret Atwood's *MaddAddam* trilogy and Gary Shteyngart's *Super Sad True Love Story*. They question the Western preference for visual perception, which perpetuates a human-centric worldview. By focusing on literary synesthesia in the readings, this book emphasizes sensory experiences and human-nonhuman interactions. It adopts the concept of research as assemblage and uses a diverse range of theories and approaches, while it foregrounds critical posthumanism and new materialism. Ultimately, it advocates for a less anthropocentric approach to reading and presents literature as a transdisciplinary life science capable of fostering a kinship of posthumanity.

Practical Ethnography Sam Ladner, 2016-08-25 Ethnography is an increasingly important research method in the private sector, yet ethnographic literature continues to focus on an academic audience. Sam Ladner fills the gap by advancing rigorous ethnographic practice that is tailored to corporate settings where colleagues are not steeped in social theory, research time lines may be days rather than months or years, and research sponsors expect actionable outcomes and recommendations. Ladner provides step-by-step guidance at every turn--covering core methods, research design, using the latest mobile and digital technologies, project and client management, ethics, reporting, and translating your findings into business strategies. This book is the perfect resource for private-sector researchers, designers, and managers seeking robust ethnographic tools or academic researchers hoping to conduct research in corporate settings. Greed Salman Akhtar, 2018-05-08 Though references to it are scattered in the writings of Klein and Winnicott, the topic of greed has drawn meagre attention from contemporary psychoanalysts. This book fills that lacuna. Noting that the inconsolable, relentless, and coercive dimensions of such hunger have profoundly destructive impact upon the self and its

objects, Greed: Developmental, Cultural, and Clinical Realms sheds light on the emotion's myriad manifestations as well as its camouflage by the ego's defensive operations. Issues of childhood deprivation, adolescent novelty-seeking, and clinging to the object-world toward the end of life are examined. The avarice that prevails in today's business world is discussed, as is the deleterious impact of greed upon marital relations. More to the clinician's interest, the book highlights the various ways in which greed makes its appearance during treatment, taking into account the tabooed topic of the analyst's own greed for money, prestige, and intellectual prowess. A remarkable contribution, indeed!

Pompeii's Ashes Eric Moormann,2015-03-10 Although there are many works dealing with Pompeii and Herculaneum, none of them try to encompass the entire spectrum of material related to its reception in popular imagination. Pompeii's Ashes surveys a broad variety of such works, ranging from travelogues between ca. 1740 and 2010 to 250 years of fiction, including stage works, music, and films. The first two chapters provide an in-depth analysis of the excavation history and an overview of the reflections of travelers. The six remaining chapters discuss several clearly-defined genres: historical novels with pagan tendencies, and those with Christians and Jews as protagonists, contemporary adventures, time traveling, mock manuscripts, and works dedicated to Vesuvius. "Pompeii's Ashes" demonstrates how the eternal fascination with the oldest still-running archaeological projects in the world began, developed, and continue until now.
