**Wild Orchid** Cameron Dokey,2010-01-19 Once upon a Time Is Timeless Wielding a sword as deftly as an embroidery needle, Mulan is unlike any other girl in China. When the emperor summons a great army, each family must send a male to fight. Tomboyish Mulan is determined to spare her aging father and bring her family honor, so she disguises herself and answers the call. But Mulan never expects to find a friend, let alone a soul mate, in the commander of her division, Prince Jian. For all of Mulan's courage with a bow and arrow, is she brave enough to share her true identity and feelings with Prince Jian?

**Images of Women in Chinese Thought and Culture** Robin Wang,2003-01-01 This rich collection of writings--many translated especially for this volume and some available in English for the first time--provides a journey through the history of Chinese culture, tracing the Chinese understanding of women as elucidated in writings spanning more than two thousand years. From the earliest oracle bone inscriptions of the Pre-Qin period through the poems and stories of the Song Dynasty, these works shed light on Chinese images of women and their roles in society in terms of such topics as human nature, cosmology, gender, and virtue.

*The Deathly Embrace* Sheng-mei Ma,2000 Asian American resistance to Orientalism -- the Western tradition dealing with the subject and subjugation of the East -- is usually assumed. And yet, as this provocative work demonstrates, in order to refute racist stereotypes they must first be evoked, and in the process the two often become entangled. Sheng-mei Ma shows how the distinguished careers of post-1960s Asian American writers such as Maxine Hong Kingston, Amy Tan, Frank Chin, and David Henry Hwang reveal that while Asian American identity is constructed in reaction to Orientalism, the two cultural forces are not necessarily at odds. The vigor with which these Asian Americans revolt against Orientalism in fact tacitly acknowledges the family lineage of the two.

**Translating Picturebooks** Riitta Oittinen,Anne Ketola,Melissa Garavini,2017-10-10 Translating Picturebooks examines the role of illustration in the translation process of picturebooks and how the word-image interplay inherent in the medium

can have an impact both on translation practice and the reading process itself. The book draws on a wide range of picturebooks published and translated in a number of languages to demonstrate the myriad ways in which information and meaning is conveyed in the translation of multimodal material and in turn, the impact of these interactions on the readers' experiences of these books. The volume also analyzes strategies translators employ in translating picturebooks, including issues surrounding culturally-specific references and visual and verbal gaps, and features a chapter with excerpts from translators' diaries written during the process. Highlighting the complex dynamics at work in the translation process of picturebooks and their implications for research on translation studies and multimodal material, this book is an indispensable resource for students and researchers in translation studies, multimodality, and children's literature.

**American Myths, Legends, and Tall Tales** Christopher R. Fee, Jeffrey B. Webb, 2016-08-29 A fascinating survey of the entire history of tall tales, folklore, and mythology in the United States from earliest times to the present, including stories and myths from the modern era that have become an essential part of contemporary popular culture. Folklore has been a part of American culture for as long as humans have inhabited North America, and increasingly formed an intrinsic part of American culture as diverse peoples from Europe, Africa, Asia, and Oceania arrived. In modern times, folklore and tall tales experienced a rejuvenation with the emergence of urban legends and the growing popularity of science fiction and conspiracy theories, with mass media such as comic books, television, and films contributing to the retelling of old myths. This multi-volume encyclopedia will teach readers the central myths and legends that have formed American culture since its earliest years of settlement. Its entries provide a fascinating glimpse into the collective American imagination over the past 400 years through the stories that have shaped it. Organized alphabetically, the coverage includes Native American creation myths, tall tales like George Washington chopping down his father's cherry tree and the adventures of King of the Wild Frontier Davy Crockett, through to today's urban myths. Each entry explains the myth or legend and its importance and provides detailed information about the people and events involved. Each entry also includes a short bibliography that will direct students or interested general readers toward other sources for further investigation. Special attention is paid to African American folklore, Asian American folklore, and the folklore of other traditions that are often overlooked or marginalized in other studies of the topic.

The Shorter Columbia Anthology of Traditional Chinese Literature Victor H. Mair, 2000 This shorter anthology retains the characteristics of the original in that it is arranged according to genre rather than chronology and interprets literature very broadly to include not just literary fiction, poetry, and drama, but folk and popular literature, lyrics and arias, elegies and rhapsodies, biographies, autobiographies and memoirs, letters, criticism and theory, and travelogues and jokes. It also contains fresh translations by newer voices in the field.

**The Global Intercultural Communication Reader** Molefi Kete Asante, Yoshitaka Miike, Jing Yin, 2013-06-26 The Global

Intercultural Communication Reader is the first anthology to take a distinctly non-Eurocentric approach to the study of culture and communication. In this expanded second edition, editors Molefi Kete Asante, Yoshitaka Miike, and Jing Yin bring together thirty-two essential readings for students of cross-cultural, intercultural, and international communication. This stand-out collection aims to broaden and deepen the scope of the field by placing an emphasis on diversity, including work from authors across the globe examining the processes and politics of intercultural communication from critical, historical, and indigenous perspectives. The collection covers a wide range of topics: the emergence and evolution of the field; issues and challenges in cross-cultural and intercultural inquiry; cultural wisdom and communication practices in context; identity and intercultural competence in a multicultural society; the effects of globalization; and ethical considerations. Many readings first appeared outside the mainstream Western academy and offer diverse theoretical lenses on culture and communication practices in the world community. Organized into five themed sections for easy classroom use, The Global Intercultural Communication Reader includes a detailed bibliography that will be a crucial resource for today's students of intercultural communication.

Beyond Adaptation Phyllis Frus, Christy Williams, 2010-03-16 Some film and novel revisions go so far beyond adaptation that they demand a new designation. This critical collection explores movies, plays, essays, comics and video games that supersede adaptation to radically transform their original sources. Fifteen essays investigate a variety of texts that rework everything from literary classics to popular children's books, demonstrating how these new, stand-alone creations critically engage their sources and contexts. Particular attention is paid to parody, intertextuality, and fairy-tale transformations in the examination of these works, which occupy a unique narrative and creative space.

*Gender Hierarchy of Masculinity and Femininity during the Chinese Cultural Revolution* Zhuying Li, 2020-11-25 Focusing on the influence of Maoist ideology and masculinist power on the representations of women in revolutionary opera films made during the Cultural Revolution, this book considers the gendered hierarchy between masculinity and femininity in relation to the historic and cultural context in which they were made. Using feminist methodology and epistemology to locate women's social identity, this book explores the sociological connections between the masculinisation of women and masculinist domination in the context of the Cultural Revolution. Through film analysis, the author examines whether women, rather than 'liberated', were in fact re-gendered and oppressed by masculinist power. By critically evaluating gender hierarchy during the Chinese Cultural Revolution, the book provides hitherto neglected insights into gender within its social and cultural context. This is an interdisciplinary book which should appeal to students and scholars across a range of disciplines, including gender studies, Asian studies, China studies, cultural studies and film studies.

The Flesh of Animation Sandra Annett, 2024-04-30 How animation can reconnect us with bodily experiences Film and media studies scholarship has often argued that digital cinema and CGI provoke a sense of disembodiment in viewers; they

are seen as merely fantastic or unreal. In her in-depth exploration of the phenomenology of animation, Sandra Annett offers a new perspective: that animated films and digital media in fact evoke vivid embodied sensations in viewers and connect them with the lifeworld of experience. Starting with the emergence of digital technologies in filmmaking in the 1980s, Annett argues that contemporary digital media is indebted to the longer history of animation. She looks at a wide range of animation—from Disney films to anime, electro swing music videos to Vocaloids—to explore how animation, through its material forms and visual styles, can evoke bodily sensations of touch, weight, and orientation in space. Each chapter discusses well-known forms of animation from the United States, France, Japan, South Korea, and China, examining how they provoke different sensations in viewers, such as floating and falling in *Howl's Moving Castle* and *My Beautiful Girl Mari*, and how the body is mediated in films that combine animation and live action, as seen in *Who Framed Roger Rabbit* and *Song of the South*. These films set the stage for an exploration of how animation and embodiment manifest in contemporary global media, from CGI and motion capture in Disney's "live action remakes" to new media installations by artists like Lu Yang. Leveraging an array of case studies through a new approach to film phenomenology, *The Flesh of Animation* offers an enlightening discussion of why animation provides a sensational experience for viewers not replicable through other media forms.

*Chinese Traditional Theatre and Male Dan* Guo Chao, 2022-01-31 This book examines male dan, a male actor who performs female roles in Chinese theatre. Through the rise, fall and tenuous survival of male dan in Chinese history, Guo Chao reflects the transformations in the social zeitgeist in China, especially the politics of gender and sexuality. The breadth of this study reflects a diversified set of sources, ranging from classical to contemporary texts (texts of jingju plays, memoirs, collections of notation books) and other commentaries and critical evaluations of dan actors (in both English and Chinese languages) to video and audio materials, films and personal interviews. This book will be of great interest to students and scholars of East Asian/Chinese studies across the fields of theatre, history, culture and literature.

*Cinematic Howling* Hoi Cheu, 2010-10-01 *Cinematic Howling* presents a refreshingly unorthodox framework for feminist film studies. Instead of criticizing mainstream movies from feminist perspectives, Hoi Cheu focuses on women's filmmaking itself. Integrating systems theory and feminist aesthetics in his close readings of films and screenplays by women, he considers how women engage the process of storytelling in cinema. The importance of these films, he argues, is not merely that they reflect women's perceptions, but that they have the power to reframe experiences and, consequently, to transform life. A major contribution to feminist scholarship that will appeal to scholars of both gender and film, *Cinematic Howling* is written in an approachable and inviting style, full of vivid examples and attention to detail, which will suit both undergraduate and graduate courses in gender, film, and cultural studies.

**The Psychosocial Implications of Disney Movies** Lauren Dundes, 2019-07-11 In this volume of 15 articles,

contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Promise Xinran Xue, 2018-11-29 At the start of the twentieth century in China, the Hans were married in an elaborate ceremony before they were even born. While their future was arranged by their families, this couple had much to be grateful for. Not only did they come from similar backgrounds - and as such were recognized as a good match - they also had a shared passion in their deep love of ancient Chinese poetry. They went on to have nine children and chose colours portrayed in some of their favourite poems as nicknames for them - Red, Cyan, Orange, Yellow, Green, Ginger, Violet, Blue and Rainbow. Fate, and the sweep of twentieth century history would later divide these children into three groups: three went to America or Hong Kong to protect the family line from the communists; three were married to revolutionaries having come of age as China turned red; while three suffered tragic early deaths. With her trademark wisdom and warmth, Xinran describes the lives and loves of this extraordinary family over four generations. What emerges is not only a moving, beautifully-written and engaging story of four people and their lives, but a crucial portrait of social change in China. Xinran begins with the magic and tragedy of one young couple's wedding night in 1950, and goes on to tell personal experiences of loss, grief and hardship through China's extraordinary century. In doing so she tells a bigger story - how traditional Chinese values have been slowly eroded by the tide of modernity and how their outlooks on love, and the choices they've made in life, have been all been affected by the great upheavals of Chinese history. A spell-binding and magical narrative, this is the story of modern China through the people who lived through it, and the story of their love and loss.

Multiplicity and Cultural Representation in Transmedia Storytelling Natalie Underberg-Goode, 2022-12-02 This book explores the relationship between multiplicity and representation of non-European and European-American cultures, with a focus on comics and superheroes. The author employs a combination of research methodologies, including close reading of transmedia texts and interviews with transmedia storytellers and audiences, to better understand the way in which diverse

cultures are employed as agents of multiplicity in transmedia narratives. The book addresses both commercial franchises such as superhero narratives, as well as smaller indie projects, in an attempt to elucidate the way in which key cultural symbols and concepts are utilized by writers, designers, and producers, and how these narrative choices affect audiences – both those who identify as members of the culture being represented and those who do not. Case studies include fan fiction based on Marvel’s Black Panther (2018), fan fiction and art created for the Moana (2016) and Mulan (2020) films, and creations by both U.S.-based and international indie comics artists and writers. This book will appeal to scholars and students of new media, narrative theory, cultural studies, sociocultural anthropology, folkloristics, English/literary studies, and popular culture, transmedia storytelling researchers, and both creators and fans of superhero comics.

Multimodality in Translation Studies Li Pan,Xiaoping Wu,Tian Luo,Hong Qian,2023-12-14 Focusing on multimodality in translation studies, this edited volume presents insights into the models, trends, and practices of multimodal translation across a variety of media contexts in contemporary China. The book is structured into five main themes, investigating audiovisual translation in digital media, multimodal translation of Chinese classics in print media, multimodal design in website translation, stance and ideology of paratexts in news translation, and the use of paralanguage and visual cues in quasi-on-site multimodal translation such as conference interpreting. Contributors draw on various theoretical models and research methods, including systemic functional multimodal discourse analysis, narrative theory, Skopos-functional theory, multimodal analysis of digital discourse, corpus-assisted multimodal analysis, questionnaire surveys, and interviews. The volume covers major topics in multimodal translation studies, ranging from emerging multimodal translation models to multimodal creativity in inter-lingual subtitling for social media, image framing in multimodal metaphor translation, and intersemiotic structure, information value, cohesion, and coherence in different textures of media translation. Through ample solid empirical studies, it aims to shed lights on the methodological development of multimodal translation across various media forms, including social media, websites, on-site interactions, and books. The title will be of great value to scholars and students studying linguistics, translation studies, multimodal discourse analysis, and digital media.
