Eastern Orthodoxy Through Western Eyes Donald Fairbairn, 2002-01-01 In the last decade, Eastern Orthodoxy has moved from being virtually unknown to Western Christians to being a significant presence on the religious scene in North America and Great Britain. In light of Orthodoxy's growing presence, this book will introduce Western Christians to the Eastern Orthodox vision of the Christian life by examining Orthodox theology and worship and will also alert readers to the cultural and historical factors that shape any interpretation of the Christian faith.

The Old Testament in Eastern Orthodox Tradition Eugen J. Pentiuc, 2014-04 This book examines the receipt, transmission, and interpretation of the Old Testament in the Eastern Orthodox tradition. Looking at the various ways Orthodox Christians sought to assimilate the Old Testament in the spiritual, liturgical, and doctrinal fabric of their faith community, Pentiuc pays special attention to: liturgy, iconography, monastic rules and canons, conciliar resolutions, and patristic works in Greek, Syriac and Coptic.

Religion, Migration, and Mobility Cristina Maria de Castro, Andrew Dawson, 2017-02-17 Focusing on migration and mobility, this edited collection examines the religious landscape of Brazil as populated and shaped by transnational flows and domestic migratory movements. Bringing together interdisciplinary perspectives on migration and religion, this book argues that Brazil's diverse religious landscape must be understood within a dynamic global context. From southern to northern Europe, through Africa, Japan and the Middle East, to a host of Latin American countries, Brazilian society has been influenced by immigrant communities accompanied by a range of beliefs and rituals drawn from established 'world' religions

as well as alternative religio-spiritual movements. Consequently, the formation and profile of 'homegrown' religious communities such as Santo Daime, the Dawn Valley and Umbanda can only be fully understood against the broader backdrop of migration. Contributors draw on the case of Brazil to develop frameworks for understanding the interface of religion and migration, asking questions that include: How do the processes and forces of re-territorialization play out among post-migratory communities? In what ways are the post-transitional dynamics of migration enacted and reframed by different generations of migrants? How are the religious symbols and ritual practices of particular worldviews and traditions appropriated and re-interpreted by migrant communities? What role does religion play in facilitating or impeding post-migratory settlement? Religion, Migration and Mobility engages these questions by drawing on a range of different traditions and research methods. As such, this book will be of keen interest to scholars working across the fields of religious studies, anthropology, cultural studies and sociology.

Eastern Orthodox Encounters of Identity and Otherness A. Krawchuk, T. Bremer, 2014-01-16 From diverse international and multi-disciplinary perspectives, the contributors to this volume analyze the experiences, challenges and responses of Orthodox Churches to the foundational transformations associated with the dissolution of the USSR.

The Orthodox Church John Meyendorff, 1996 The Orthodox Church, presented here in a newly revised edition, has become an indispensable classic on the history of the Orthodox Church and the unique position it holds in today's world. Fr. Meyendorff reviews the great events and the principle stages in a history of nearly two thousand years, its diversity not only in Eastern and far-Eastern countries, but also in the West and in the whole world. He also presents the culture and spiritual tradition of Orthodoxy, its connection to other Christian churches, its religious activities in various communities and its position and actions in former Eastern Communist countries. The postscript describes the new post-Communist situation of Orthodoxy.--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Afterlife and Resurrection Beliefs in the Apocrypha and Apocalyptic Literature Jan A. Sigvartsen, 2019-09-19 Jan A. Sigvartsen seeks to examine the immense interest in life after death, and speculation about the fates awaiting both the righteous and the wicked, that proliferated in the Second Temple period. In this volume Sigvartsen explores the Apocrypha and the apocalyptic writings in the Pseudepigrapha. He identifies the numerous afterlife and resurrection beliefs and presents an analysis that enables readers to easily understand and compare the wide-ranging beliefs regarding the afterlife that these texts hold. A careful reading of these resurrection passages, including passages appearing in Sirach, Maccabees, the Sibylline Oracles and the Ezra texts, reveals that most of the distinct views on life-after-death, regardless of their complexity, show little evidence of systematic development relational to one another, and are often supported by several key passages or shared motifs from texts that later became a part of the TaNaKh. Sigvartsen also highlights the factors that may have influenced the development of so many different resurrection beliefs; including anthropology, the nature of the soul, the

scope of the resurrection, the number and function of judgments, and the final destination of the righteous and the wicked. Sigvartsen's study provides a deeper understanding of how the "TaNaKh" was read by different communities during this important period, and the role it played in the development of the resurrection belief – a central article of faith in both Christianity and Rabbinic Judaism.

The Ecumenical Movement Thomas E. FitzGerald, 2004-04-30 What is Ecumenism? How and when did it start? What are its goals and how will they affect the future of the Christian churches? This book answers these questions and examines the remarkable story of new encounters between Orthodox, Roman Catholic, Anglican, Old Catholic, and most Protestant churches. Most of these churches have been divided for centuries over issues of theology, faith, and practice. Ecumenism seeks to reconcile these differences and to bring the churches together into a new unity based on their commonalities and their understanding of Christian faith. Here, FitzGerald traces the history of the churches and their divisions and focuses on the ways in which the Ecumenical movement began and the efforts that have been made to assist the churches in overcoming age-old strife, animosity, and misunderstanding. For centuries, Christian churches have remained divided over their doctrinal differences, but beginning in the late nineteenth century, churches and their members slowly began to emerge from their isolation. They began to abandon competition, mistrust, and misunderstanding in an effort to seek out their common interests and faith through meetings and organizations meant to bring them together. The encounters between the churches led to proposals for common prayers for unity, and for common witness in society. While not without difficulty, these encounters have fostered a renewal in Christian theology, worship, and witness, affecting all levels of church life. The process has touched Christians all over the world in various ways. FitzGerald carefully traces the history of the movement and its impact on the churches themselves, as well as the believers who attend them, making this important reading for all Christians and anyone interested in learning more about church division and efforts to restore unity.

The Tradition of the Gospel Christians Andrey Puzynin, 2011-01-01 The Tradition of the Gospel Christians explores the post-Soviet tradition of evangelical Christians originating from the ministry of the Victorian revivalist preacher Lord Radstock in St. Petersburg in the 1870s. In an effort to resolve the current evangelical crises of theology and identity, this study provides an analysis of the tradition's history reflecting on its restorationist tradition, the contours and vectors of its theology, and its practice of biblical interpretation. The historical analysis reveals that the major causes of the crises of identity and theology pertain to the socio-political upheavals, which, in turn, led the tradition to develop strategies to maintain relevance in its changed contexts. The socio-political shifts were also responsible for the lack of emphasis on research and scholarship, which contributed to a difficulty in finding the necessary resources and intellectual virtues to deal with the collapse of the Soviet Union. Building on the discoveries of the historical analysis, Andrei P. Puzynin offers a new historical and theological paradigm by reconstructing the self-identifying narrative and theological framework in critical

dialogue with recent developments in Anglo-American evangelicalism and postliberalism. Following the trajectory of the evangelical tradition in the post-Soviet context, a trajectory which relies on Western thought, the book adopts the narrative theological method of reading the world through the lens of Scripture. The self-identifying narrative of the community is reconstructed through a theological reading of the previous identity-constructions, in the light of recent discussions on Christ and the powers. The result of this study helpfully explains the dynamics of Eastern evangelicalism in a traditionally Russian Orthodox setting.

Religions in Global Society Peter Beyer, 2013-01-11 Peter Beyer, a distinguished sociologist of religion, presents a way of understanding religion in a contemporary global society - by analyzing it as a dimension of the historical process of globalization. Introducing theories of globalization and showing how they can be applied to world religions, Beyer reveals the nature of the contested category of 'religion': what it means, what it includes and what it implies in the world today. Written with exceptional clarity and illustrated with lively and diverse examples ranging from Islam and Hinduism to African traditional religions and new age spirituality, this is a fascinating overview of how religion has developed in a globalized society. It is recommended reading for students taking courses on sociology of religion, religion and globalization, and religion and modernity.

Global Christianity Gina Zurlo, 2022-09-06 Explore Christian life in every corner of the world. Christianity is now a majority-global South religion, with more believers living in Africa, Asia, and Latin America than in Europe and North America. However, most Americans have little exposure to Christians around the world. In addition, the United States is still the country that sends the most international missionaries. While many American churches support missionaries overseas, they may not understand the beliefs, practices, histories, and challenges Christians experience abroad. Global Christianity is an accessible quick-reference guide to the global church. Filled with at-a-glance maps and charts, it puts relevant and up-to-date information into the hands of churches, mission organizations, and individuals. Useful for prayer, missions, outreach, and study of the global church, this is the new standard resource on the world's largest religion. Understand Christianity within each continent, country, tradition, and movement with: Current demographic information from the United Nations Research from the Center for the Study of Global Christianity A focus on historical, sociological, political, and religious contexts Things to consider within each local context, such as political conflicts, church-state relations, religious freedom, gender equality, education, health, economics, and climate change. This resource will satisfy those looking for background on the global church and equip individuals and churches to strategically pray for, give to, and unite with fellow Christians around the world.

Eastern Orthodoxy in a Global Age Victor Roudometof, Alexander Agadjanian, Jerry Pankhurst, 2005-06-28 Despite over 200 million adherents, Eastern Orthodox Christianity attracts little scholarly attention. While more-covered religions emerge as powerful transnational forces, Eastern Orthodoxy appears doggedly local, linked to the ethnicity and land of the now marginalized Eastern Europe. But *Eastern Orthodoxy in a Global Age* brings together new and nuanced understandings of the Orthodox churches-inside and outside of Eastern Europe-as they negotiate an increasingly networked world. The picture that emerges is less of a people stubbornly refusing modernization, more of a people seeking to maintain a stable Orthodox identity in an unstable world. For anyone interested in the role of Eastern Orthodoxy in the 21st century, this volume provides the place to begin.

Euthanasia, Abortion, Death Penalty and Religion - The Right to Life and its Limitations Hans-Georg Ziebertz, Francesco Zaccaria, 2018-11-16 This book considers how the termination of life might be accepted in the view of a general obligation to protect life. It features more than 10 papers written by scholars from 14 countries that offer international comparative empirical research. Inside, readers will find case studies from such areas as: India, Chile, Germany, Italy, England, Palestine, Lithuania, Nigeria, and Poland. The papers focus on three limitations of the right to life: the death penalty, abortion, and euthanasia. The contributors explore how young people understand and evaluate the right to life and its limitations. The book presents unique empirical research among today's youth and reveals that, among other concepts, religiosity matters. It provides insight into the acceptance, perception, and legitimation of human rights by people from different religious and cultural backgrounds. This investigation rigorously tests for inter-individual differences regarding political and judicial rights on religious grounds, while controlling for other characteristics. It will help readers better understand the many facets of this fundamental, yet controversial, philosophical question. The volume will be of interest to students, researchers, as well as general readers searching for answers.

Global Eastern Orthodoxy Giuseppe Giordan, Siniša Zrinščak, 2020-02-19 This volume highlights three intertwined aspects of the global context of Orthodox Christianity: religion, politics, and human rights. The chapters in Part I address the challenges of modern human rights discourse to Orthodox Christianity and examine conditions for active presence of Orthodox churches in the public sphere of plural societies. It suggests theoretical and empirical considerations about the relationship between politics and Orthodoxy by exploring topics such as globalization, participatory democracy, and the linkage of religious and political discourses in Russia, Greece, Belarus, Romania, and Cyprus. Part II looks at the issues of diaspora and identity in global Orthodoxy, presenting cases from Switzerland, America, Italy, and Germany. In doing so, the book ties in with the growing interest resulting from the novelty of socio-political, economic, and cultural changes which have forced religious groups and organizations to revise and redesign their own institutional structures, practices, and agendas.
