*You're Not the Only One* Megan LeCluyse, 2025-07-29 College is a time when people have a lot going on in their lives. It's easy to put faith to the side for these four years. But how can college students allow their faith to help them process everything going on? Whether it's about how to make this new place feel like home, questioning what to do in life, feeling overwhelmed by assignments and everything else going on, or something else entirely, this book is here to help students process this special time in their lives. With passages from Scriptures, reflections on common college experiences, prayers, and reflection questions, this book will help readers feel assured that they are not alone in their experiences or in their lives.

*International House : Home Away from Home* Kathryn H. Anthony, 1981

**No Going Back** Jonathan Langford, 2009-10 A gay teenage Mormon growing up in western Oregon in 2003. His straight best friend. Their parents. A typical LDS ward, a high-school club about tolerance for gays, and a proposed anti-gay-marriage amendment to the state constitution. In *No Going Back*, these elements combine in a coming-of-age story about faithfulness and friendship, temptation and redemption, tough choices and conflicting loyalties.

**Remapping Gender, Place and Mobility** Stine Thidemann Faber, Helene Pristed Nielsen, 2016-03-03 Enhancing our understanding of how people and places are affected by globalization at the level of everyday interactions within 'Nordic Peripheries', this book sheds light on local particularities as well as global confluences, by illuminating how gender, mobility and belonging contribute to ruptures and/or stability in the lives of men and women living in and/or moving within these northern localities. Crossing disciplinary and geographical boundaries the focus of the book is specifically on how global processes shape and influence the Nordic countries at the social level: Denmark, Norway, Sweden, Iceland, Finland, as well as the Faroe Islands. The book starts from the premise that the Nordic peripheries offer an especially powerful lens on 'peripherality' in a globalized and globalizing world, because the region as a whole is traditionally perceived as relatively affluent, stable and with high levels of social equality. Yet, as the different chapters in the book demonstrate - with case studies that illuminate diverse gendered processes - globalization produces ruptures and new social constellations also at the rims of Nordic societies, well beyond the cushioning of comprehensive social welfare regimes. By elevating the empirical findings to more general debates about the gendered effects of globalization the book invites the reader to reflect upon not only Nordic particularities but also how insights from this part of the world can be instructive for understanding the nuances

and complexities of global confluences at large.

**Maxon** Malcolm Whyte, Maxon Crumb, 2018-12-05 Maxon Crumb—artist, author, and yogi—embarked on a coast-to-coast odyssey to conquer one severe challenge after another: a brutal childhood, crushing sibling rivalry, lost love, death threats, and debilitating disease. Each chapter in Maxon: Art Out of Chaos recounts Maxon's agonizing journey to mature into a fiercely independent artist. Excerpts from Maxon's writings, anecdotes, from his brother R. Crumb, plus a gallery of Maxon's stunning artworks showcase the story of a man who bares his world to us through ink, oil, metal, and word.

**Broken Pledges** Kevin Kilgariff, 2021-09-11 ...this fleet-footed novel will keep you rooted to your seat until the closing pages...Broken Pledges promises a killer good time! - Indies Today A fraternity pledge dead. His pledge brother being investigated for murder. A Father trying to prove his Son's innocence. In 1993, while attending South Cuthbert University, Chase Dempsey made the fateful decision to pledge the Kappa Chi Rho Fraternity. That's when a hazing event gone wrong would change his life forever. His pledge brother, Chris Wilbanks, was now dead, and many believed that Chase was to blame. The stigma would follow him for years, even after he was cleared of all wrongdoing. Nearly thirty years later, Chase is now a Homicide Detective in Philly, and has put the events of that night behind him, or so he thought. One phone call would thrust Chase back into a world that he hoped to never see again. His son, Scott, now himself a student at SCU and pledging Kappa Chi Rho, has found himself fighting the same battle that his Father fought so many years before. He is being investigated for the murder of his own pledge brother. Chase is now working the most important case of his life - a case that will lead him right back to the one responsible for the death of Chris Wilbanks. Can he find out the truth before it's too late?

**Her Destiny** Alana Pullen, 2018-01-20 Since the age of twelve, after losing her parents in a horrible accident, Sadie has been able to read other people's thoughts and desires. With the help of her older sister, Laura, she gained control of her ability. And now she's about to move to new apartment in San Diego, where she'll start college and realize her dream of living a regular life by the beach with Jace, the boy who's been her best friend most of her life, as her roommate. When Sadie gets to campus, she meets a hot new guy named Adam while familiarizing herself with the school. The more she gets to know him, the more she likes him. Jace has other ideas; he hopes to deepen their friendship into a romantic relationship. But Sadie isn't certain that's a good idea. And when secrets and lies from her past begin surfacing, she knows she can no longer hide from difficult truths about herself and her family. As she struggles to face her heritage head on, only time will tell whether she'll stick to the ordinary path she's been seeking or accept her destiny and discover her true strength. In this novel, a fearful young woman with unusual mental powers must decide whether to pursue a normal existence or embrace the gifts that she

holds.

**The University Challenge** Lesley Pugsley, 2017-11-28 Is the rhetoric of a 'free' market in higher education matched by the reality of choice? In her benchmark study of higher education markets and pupil choice, Lesley Pugsley demonstrates how policy initiatives to restructure higher education in the United Kingdom have been shaped by consumer ideologies and market principles. Based on qualitative data generated from some of the last cohort of students who entered higher education under the Robbins banner of 'free' education, Pugsley tracks groups of students from different schools as they engage in the process of selecting universities. This provides a vivid account of the ways in which students, their families and their schools engage with the choice process. It illustrates the significance and the impact of social class within a highly differentiated and increasingly market-orientated higher education sector and argues that for many young people the lack of class based competencies remain the real university challenge.

**Sociolinguistic Perspectives on Migration Control** Markus Rheindorf, Ruth Wodak, 2020-01-30 In the midst of an international crisis in migration policy – widely referred to as a 'refugee crisis' – this book brings together timely analyses of the manifold and yet specific ways in which migration affects globalized societies, set against the background of the rise of nationalist and populist movements. The voices of migrants and refugees are rarely heard in this context: usually, they are debated about, summarized and reported but their agency is denied. Each contribution to this volume adds an empirical perspective to our understanding of how language relates to migration in a specific national context. The chapters use innovative combinations of multimodal, qualitative and quantitative analyses to examine a broad range of genres and data related to the voices of migrants and reporting about migrants.

*River Life and the Upspring of Nature* Naveeda Khan, 2022-12-19 In *River Life and the Upspring of Nature* Naveeda Khan examines the relationship between nature and culture through the study of the everyday existence of chauras, the people who live on the chars (sandbars) within the Jamuna River in Bangladesh. Nature is a primary force at play within this existence as chauras live itinerantly and in flux with the ever-changing river flows; where land is here today and gone tomorrow, the quality of life itself is intertwined with this mutability. Given this centrality of nature to chaoura life, Khan contends that we must think of nature not simply as the physical landscape and the plants and animals that live within it but as that which exists within the social and at the level of cognition, the unconscious, intuition, memory, embodiment, and symbolization. By showing how the alluvial flood plains configure chaoura life, Khan shows how nature can both give rise to and inhabit social, political, and spiritual forms of life.

*Shopping Our Way to Safety* Andrew Szasz, 2007-11-15 “Not long ago, people did not worry about the food they ate. They did not worry about the water they drank or the air they breathed. It never occurred to them that eating, drinking water, satisfying basic, mundane bodily needs might be a dangerous thing to do. Parents thought it was good for their kids to go outside, get some sun. “That’s all changed now.” —from the Introduction Many Americans today rightly fear that they are constantly exposed to dangerous toxins in their immediate environment: tap water is contaminated with chemicals; foods contain pesticide residues, hormones, and antibiotics; even the air we breathe, outside and indoors, carries invisible poisons.

Yet we have responded not by pushing for governmental regulation, but instead by shopping. What accounts for this swift and dramatic response? And what are its unintended consequences? Andrew Szasz examines this phenomenon in *Shopping Our Way to Safety*. Within a couple of decades, he reveals, bottled water and water filters, organic food, “green” household cleaners and personal hygiene products, and “natural” bedding and clothing have gone from being marginal, niche commodities to becoming mass consumer items. Szasz sees these fatalistic, individual responses to collective environmental threats as an inverted form of quarantine, aiming to shut the healthy individual in and the threatening world out. Sharply critiquing these products’ effectiveness as well as the unforeseen political consequences of relying on them to keep us safe from harm, Szasz argues that when consumers believe that they are indeed buying a defense from environmental hazards, they feel less urgency to actually do something to fix them. To achieve real protection, real security, he concludes, we must give up the illusion of individual solutions and together seek substantive reform. Andrew Szasz is professor and chair of the department of sociology at the University of California at Santa Cruz and author of the award-winning *EcoPopulism* (Minnesota, 1994).

But even she can't make sense of the strange goings-on at Rookskill Castle, the drafty old Scottish castle-turned-school where she and her siblings have been sent to escape the London Blitz. What's making those mechanical shrieks at night? Why do the castle's walls seem to have a mind of their own? And who are the silent children who seem to haunt Rookskill's grounds? Kat believes Lady Eleanor, who rules the castle, is harboring a Nazi spy. But when her classmates begin to vanish, one by one, Kat must face the truth about what the castle actually harbors-- and what Lady Eleanor is--before it's too late.
