The Greatest of All Trees Ali Elsayed, 2021-09-10 The Greatest of All Trees is a children's book and sing-along about the family tree of prophet Muhammad (pbuh). All Muslims agree that sayyidna Muhammad (pbuh) is the greatest created being in Allah's creation. This book teaches kids that our prophet's forefathers, the men who carried his light throughout the ages, were also very special human beings. Therefore, by remembering their names and importance, we are honoring them and honoring Sayyidna Muhammad (pbuh). The book is also a sing-along recited by Ali Elsayed. The sing-along is available to stream and download for free@ ItsyBitsyMuslims.com/singalong.

The Essence of Islam Saiyed Jafar Reza, 2012

Understanding Islam, Islam is the belief in one God, translated into Arabic as Allah. He is one Supreme Being without shape and form that we can't comprehend. In the Arabic language, the word Islam has many meanings. It comes from the root of 'Islam' is described literally as meaning 'submission', 'surrender', 'peace' and 'safety'. Salaam is also known as one of Allah's attributes. A Muslim is a person who submits himself to the worship of Allah, therefore making all those who believed in the original message of the oneness of God Muslim; including all the Prophets, from Adam, Noah, Moses, Jesus to Mohammad (May Allah's peace and blessings be upon them all).

The Husaini Revolution of Islam Saiyed Jafar Reza, 2016-01-01 The book in hand is on an interesting international subject: the 'Battle of Karbala' which was fought against the biggest Muslim Empire of the time (860 AD) by Imam Husain, the grandson of Prophet Muhammad, who revolutionised in defence of Truth and Justice and became a martyr along with his relatives and associates for the cause and survival of humanity. In modern terminology it is better known as the Husaini Revolution. Its anniversary is observed regularly in the month of Muharram of Hijri calendar with splendor in almost every country, especially by the Muslims. But no such book is available in English with a analysis of the religious perspective, achievements and effects of the Husaini Revolution. Professor Saiyed Jafar Reza, and internationally known scholar, thinker and litterateur has compensated this scarcity through the present book, as an authentic document of a valuable subject. His studies on the Husaini Revolution are thorough and path breaking; give rare insight into the liberal and spiritual dimension of Islam. His writing is to be read again and again; read in bits and pondered over.

Islam for Nerds Gerald Drissner, 2016-11-30 500 QUESTIONS AND ANSWERS ON THE WORLD'S MOST MISINTERPRETED RELIGION Fully revised first edition. Islamic history and anecdotes are part of everyday conversation in the Arab world. This book provides a fascinating journey into one of the biggest and probably most misinterpreted religions via anecdotes and facts about Islam and its history, the Qur'an, the prophet Muhammad and his traditions, the Dos and Don'ts for Muslims, and how Islam spread around the world, summarised in 500 questions and answers, which the author has derived from his own experiences. The author has lived in North Africa and the Middle East for ten years and immersed himself in Islamic culture and society. He gradually learned the things kids in the Arab world already know, but most people in other parts of the world never heard of, by talking to his neighbours, teachers, scholars and ordinary people in the street. This book explains Islam in its complexity. The author also addresses current topics: Islam in the West, women's issues and Jihad. It can be read without knowing Arabic. However, the author provides the fully vocalised Arabic source in addition to the English translation, which may be beneficial for Arabic speaking readers.

God's Shadow: Sultan Selim, His Ottoman Empire, and the Making of the Modern World Alan Mikhail, 2020-08-18 An "arresting" (New York Times Book Review) revisionist history demonstrating how Islam and the Ottoman Empire made our modern world. The history of the Ottoman Empire—once the most powerful state on earth, ruling over more territory and people than any other world power—has for centuries been distorted, misrepresented, and suppressed in the West. With this "original and wide-ranging" (Wall Street Journal) global history, Alan Mikhail vitally recasts the Ottoman conquest of the world through the dramatic biography of Sultan Selim I (1470–1520). Drawing on previously unexamined sources, and upending prevailing shibboleths about Islamic history and jingoistic "rise of the West" theories, Mikhail's game-changing account radically transforms our understanding of the importance of Selim's Ottoman Empire in the annals of the modern world.

Islamic Reformism and Christianity Umar Ryad, 2009 No previous full-scale study has been undertaken so far to study the polemical writings of the Muslim reformist Muḥammad Rashāid Riðdāa (1865-1935) and his associates in his well-known journal al-Manāar (The Lighthouse). The book focuses on the dynamics of Muslim understanding of Christianity during the late 19th and the early 20th century in the light of al-Manāar's sources of knowledge, and its answers to the social, political and theological aspects of missionary movements in the Muslim World of Riðdāa's age. The basis of the analysis encompasses the voluminous publications by Riðdāa and other Manāarists in his journal. Besides, it makes use of newly-discovered materials, including Riðdāa's private papers, and some other remaining personal archives of some of his associates.

Psychological Foundation of the Qur'an Muhammad Shoaib Shahid, 2016-02-05 Historically, the need for religion for guidance to promote moral ethical values under the concept of a sole Creator has been established by all the followers of the Holy Books. The Qur'an, which is a continuation as a reformed authentic book, has been either ignored to be comprehended with its meanings or misinterpreted for personal motives by its preachers. Therefore, due to the ignorance of the Qur'anic Abrahamic monotheist concept, various sects, extreme groups, and confrontations have been triggered among the Muslims and rival religious groups. As the present century is based on science and technology, intellectuals and truth seekers judge religious values from logical and scientific perspectives. It is a dire necessity in the present era to present Divine knowledge with fundamental concepts and clear misconceptions about Islam with reasoning to attract adolescents and the ignorant toward peace through the Qur'anic treasure of knowledge. Therefore, my presentation of the book, based on these criteria, is about the psychology of religion, basic concepts, and historical aspects for revealing Divine guidance through the Qur'an to Muhammad (PBUH) with his role as Prophet to address the various aspects of human nature. As a student of psychology with experience of observing human beings and current human destruction under religious disputes, I have tried to present all of this according to set scientific standards and tools. It has been written objectively in simple English narration with sole reference to the Qur'an to create insight among laypeople, particularly the adolescents (new generation), towards peace, unity and a balanced life pattern leading to human respect and tolerance in an emerging capitalist society.

Philosophy in the Islamic World Anke von Kügelgen, Peter Adamson, 2024-10-28 Philosophy in the Islamic World is a comprehensive and unprecedented four-volume reference work devoted to the history of philosophy in the realms of Islam,

from its beginnings in the eighth century AD down to modern times. The focus of this fourth installment of the series, divided into two volumes, is the 19th and 20th centuries and geographically on the Arab countries, the Ottoman-Turkish region, Iran, and Muslim South Asia. During this time philosophy was pursued at Islamic institutions and increasingly in Western-style universities, but philosophy also had an impact beyond academia. In each chapter, an international expert on philosophy in this period explores the teachings of individual philosophers, philosophical movements (philosophy of religion, logical empiricism, deconstructionism, etc.), and schools (for instance the continuation of Mullā Ṣadrā's philosophy of being). Debates over cultural authenticity, political rule, gender, and other major issues are also presented. This is the English version of the relevant volume of the *Ueberweg*, the most authoritative German reference work on the history of philosophy, which updates the German version (*Philosophie in der Islamischen Welt Band 4/1: 19. und 20. Jahrhundert. Arabischer Sprachraum*, Basel: Schwabe, 2021) by providing references to the latest scholarly literature. Afghanistan'S Experiences Hamid Hadi M.D, 2016-03-31 *Afghanistans Experiences* is a sweeping analysis of the historic events and interplay between politics, religion, and terrorism in Afghanistan, the southeastern region of the country, and beyond. The author has vividly explained the origin and the rise of Taliban to power one of the most important sources of turmoil in contemporary time. Thus, one can perceive how the dynamics of the sinister politics, religious extremism, and terrorism has culminated in avoidable brutal wars and human tragedies. Hamid Hadi has vividly described and put into political debate Afghanistan's history; the implications of the Russian invasion of Afghanistan; the Americans, the Pakistanis, and Saudis role in the civil war; and the creation of the al-Qaeda that led to the 9/11 tragedy. In a unique research and analysis, the author has examined the acts of Islamic terrorists against the American people and institutions during the last 176 years and brilliantly deduced that the Russian invasion of Afghanistan was a watershed era in the formation of contemporary terrorism and that the failure of both superpowers foreign policy in Afghanistan to a great extent has resulted in growth of the terrorist network. Besides a detailed description of the 9/11 tragedy and Iraq war, Hamid Hadi has painstakingly brought the world religions and Abrahamic religions in particular into debate and discussed the reform of the Islamic faith.
