The Diving Bell and the Butterfly Jean-Dominique Bauby, 1998-06-23 A triumphant memoir by the former editor-in-chief of French Elle that reveals an indomitable spirit and celebrates the liberating power of consciousness. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he returns to an inexhaustible reservoir of sensations, keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

Biomedical Ethics and Decision-Making Matthew A. Butkus, 2022-02-11 Drawing from clinical experience, philosophy, psychology, and current health law and policy, *Biomedical Ethics and Decision-Making* is a detailed survey of persistent issues in health care ethics, emphasizing the complexities and nuances of practical decision-making and yielding a multifaceted and systematic approach to solving problems. As a useful resource for both students and clinicians, it includes references for further exploration of ethical issues as well as provocative questions for discussion in classroom and clinical settings. As a textbook, it stands alongside such standard works as Beauchamp's and Childress's *Principles of Biomedical Ethics*; DeGrazia's, Mappes's, and Ballard's *Biomedical Ethics*; Munson's *Intervention and Reflection*; and Vaughn's *Bioethics*. Besides presenting current dilemmas in health care, it reviews elements of cognitive psychology, describes common errors in critical thinking, offers techniques for evaluating and integrating evidence into ethical reasoning, assesses professionals and

professionalism, invites readers to dissect philosophical analyses to bolster their critical thinking skills, and provides opportunities to engage in self-reflection on contemporary challenges in health care policy and delivery.

Exprovement R.A. Mashelkar, Harsh Haladker, 2023-04-24 Can an outdated or failed solution in one industry bring disruption to another? Can a racing team improve industrial manufacturing productivity? Can science fiction offer entrepreneurs valuable lessons in innovative thinking? Such examples lie at the core of exprovement, which is an exponential improvement borne out of drawing parallels between the seemingly unrelated. Henry Ford revolutionized the automotive industry by comparing and correlating his business with the meat-packing industry. Through the various examples highlighted in this book, Hersh Haladker and Raghunath Mashelkar emphasize that searching for growth opportunities within an offering's existing industry usually results in incremental improvement, whereas exponential improvement can be achieved by drawing parallels from outside of the current context. This book will inspire leaders to look outward for parallels, keeping in mind that 'obvious' comparisons can at best lead to improvement, whereas 'unexpected' ones can lead to exponential improvement and perpetuate a legacy of innovation.

Film, Art, and the Third Culture Murray Smith, 2017-03-24 In the mid-1950s C.P. Snow began his campaign against the 'two cultures' - the debilitating divide, as he saw it, between traditional 'literary intellectual' culture, and the culture of the sciences, urging in its place a 'third culture' which would draw upon and integrate the resources of disciplines spanning the natural and social sciences, the arts and the humanities. Murray Smith argues that, with the ever-increasing influence of evolutionary theory and neuroscience, and the pervasive presence of digital technologies, Snow's challenge is more relevant than ever. Working out how the 'scientific' and everyday images of the world 'hang' together is no simple matter. In *Film, Art, and the Third Culture*, Smith explores this question in relation to the art, technology, and science of film in particular, and to the world of the arts and aesthetic activity more generally. In the first part of his book, Smith explores the general strategies and principles necessary to build a 'third cultural' or naturalized approach to film and art - one that roots itself in an appreciation of scientific knowledge and method. Smith then goes on to focus on the role of emotion in film and the other arts, as an extended experiment in the 'third cultural' integration of ideas on emotion spanning the arts, humanities and sciences. While acknowledging that not all of the questions we ask are scientific in nature, Smith contends that we cannot disregard the insights wrought by taking a naturalized approach to the aesthetics of film and the other arts.

Destination Bethlehem J. Barrie Shepherd, 2015-07-15 This book is intended as a devotional guide for the Advent season. Through the mediums of meditations, poetry, and prayer, it offers a spiritual resource for readers seeking to explore the many dimensions of this beloved season, and to deepen their appreciation of its mystery and wonder. Each day the reader is provided with either a prose meditation, based in Scripture, or a selection of poems, composed around the traditional themes of Advent/Christmas. The overall effect is that of a journey--a journey which moves, devotionally, through the days and weeks

of December, toward Bethlehem, the stable, and the manger. Images, incidents, impressions, and items from the daily news are woven together to form a rich and rewarding tapestry, a pathway leading onward, an open door into the quiet places of the soul. Christmas Eve and Day are given special treatment, followed by a final section covering New Year's Day and the twelve days of Christmas. The book also provides a source of creative imagery and language for clergy, and other worship leaders, as they face the challenges of speaking traditional truths in a new and inviting way. Yet another use would be as a small group study guide for Advent.

A Different Way Roger Payne, 2015-03-27 There is an urgent need for more debate and discussion in our churches because the integrity and credibility of our faith is at risk. Our integrity is at risk because it is not clear that we understand what it is that we profess. Our credibility is at risk because we seem unable to communicate it. We need to engage more

actively at the intellectual level and to be willing to examine the fundamentals of our faith more critically. And such discussion must start with a human rather than a divine perspective. It is as human beings that we are embodied as persons, it is as human beings that we engage with the world around us, and it is as human beings that we form relationships with the rest of the created order. And it is as a human being that that which we understand as God was embodied in the form of Jesus of Nazareth, thereby placing humanity at the pinnacle of creation and giving humanity the responsibility for the stewardship of the created order.

The Routledge Companion to the Sound of Space Emma-Kate Matthews, Jane Burry, Mark Burry, 2024-11-11 This companion explores a range of conceptual and practical relationships between sound and space across various disciplines, providing insights from technical, creative, cultural, political, philosophical, psychological, and physiological perspectives. The content spans a wide range of spatial typologies, from large reverberant buildings to modest and intimate ones, from external public squares to domestic interiors, and from naturally formed environments to highly engineered spaces. These compiled insights and observations explore the vast diversity of ways in which sonic and spatial realms interact. This publication therefore forms important bridges between the intricate and diverse topics of technology, philosophy, composition, performance, and spatial design, to contemplate the potential of sound and space as tools for creative expression and communication, as well as for technical innovation. It is hoped that by sharing these insights, this book will inspire practitioners, scholars, and enthusiasts to incorporate new perspectives and methodologies into their own work. Through a rich blend of theory, practice, and critical reflection, this volume serves as a valuable resource for anyone interested in exploring the intricacy of relationships between space and sound, whether they are students, professionals, or simply curious. Our companion provides a cross-section through shared territories between sonic and spatial disciplines from architecture, engineering, sound design, music composition and performance, urban design, product design, and much more.

A Journey into the Human Experience of Incurable Disease Malcolm de Roubaix, 2023-06-05 Incurable disease is a natural phenomenon, inherent to the human condition. This book critically investigates the uniquely human experience of and response to illness and treatment, which affects the body, the mind, and the very core of human existence and identity. Uncertainties regarding the outcomes of laboratory and other investigations that aid in the diagnosis and assessment of disease exacerbate the apprehension inherent to the diagnosis of incurable disease. An excessively scientific approach may disregard the suffering patient. The book begins by analysing the nature, meaning and significance of hope in the context of disease, and goes on to reflect on the language of medicine and the role of emotion, ideology and politics in disease treatment and research. The epilogue reflects on healing as distinct from physical cures. Without hope, there is no future; without healing, no holistic recovery. The final chapters are devoted to the end-of-life period of this journey. This book is a revision, extension, and reconceptualization of the original Afrikaans publication *Hoop, Heling en Harmonie: Dink Nuut Oor*

Siekte en Genesing, winner of the 2021 Andrew Murray Prize for Theological Publications.

Hope's Daughters R. Wayne Willis, 2014-08-01 This volume throws out a lifeline to all who are running low on hope--those going under, losing their grip, slipping away, falling, failing, listing, losing, lost--as well as to those looking to enliven and embolden their hope. Hope's Daughters takes a comprehensive, 360-degree approach to hope, drawing inspiration from nature, history, poetry, science, philosophy, religion, psychology, fiction, art, biography, sports, children, and current events. This hope reader is deeply personal, drawing on the author's thirty years spent in hospital chaplaincy plumbing the depths with patients, their families, and their caregivers. Willis writes not from some ivory tower, but out of the hot caldron of human suffering. As a lover of words, quotations, and stories, and one who aspired to serve others as a hope-prompter, Willis packs every page with a two-minute drill to jumpstart hope each day. For hurried people, this book removes life's husk and gets straight down to the kernel. As a cornucopia of wisdom and hope, Hope's Daughters is an eminently practical gift for those seeking to keep hope alive and well.

Human-Insect Interactions Sergey Govorushko, 2018-01-09 This book presents a 360-degree picture of the world of insects and explores how their existence affects our lives: the good, bad, and ugly aspects of their interactions with humankind. The Politics of Intimacy Anna Durnova, 2018-07-23 Debates on the end-of-life controversy are complex because they seem to hijack national and cultural traditions. Where previous books have focused on ideological grounds, The Politics of Intimacy explores dying as the site where policies are negotiated and implemented. Intimacy comprises the emotional experience of the end of life and how we acknowledge it—or not—through institutions. This process shows that end-of-life controversy relies on the conflict between the individual and these institutions, a relationship that is the cornerstone of Western liberal democracies. Through interviews with mourners, stakeholders, and medical professionals, examination of media debates in France and the Czech Republic, Durnová shows that liberal institutions, in their attempts to accommodate the emotional experience at the end of life, ultimately fail. She describes this deadlock as the “politics of intimacy,” revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience.

The Development of An Art History in the UAE Sophie Kazan Makhoul, 2024-10-15 This book draws together an oral and visual art history of a country that is extremely rich in culture and history but that is often overlooked or underestimated. By observing the country's history and visual culture and the artistic practices of select artists from the UAE, it considers the development of contemporary art from the UAE. This will increase accessibility to art by Emiratis and underline its wider relevance. There is a dearth of literature on contemporary art by Emiratis, and this may be one of the reasons contemporary art from the UAE is under-represented globally. In order to help the reader better understand art from the UAE, this book traces the country's historical make-up, its culture and contemporary art tradition through oral histories based on interviews with a wide variety of artists and people working in the art industries. It also explores this development using global art discourses that are relevant to art produced in the UAE today. This book also considers how cultural and artistic identities are formed and explores the political and socio-economic interests in the country that have stimulated art practices and appreciation. For so long, an exclusively Western narrative has dominated Art, and popular media portrays the Gulf's accomplishments in development and modernity with suspicion. Thanks to the UAE's espousal of the Internet and online communities over the last decade, this book is particularly timely. Following the pandemic, a wider understanding of global art discourses, values and perceptions are increasingly welcomed. Art from the UAE bridges the local and the global, giving a voice and a visual presence to a country's contemporary art tradition that has been widely overlooked. The UAE has a distinct visual arts tradition that relates to a broader and inclusive understanding of art centered on development and change.

Carnal Resonance Susanna Paasonen, 2024-02-06 An exploration of the modalities, affective intensities, and disturbing qualities of online pornography. Digital production tools and online networks have dramatically increased the general visibility, accessibility, and diversity of pornography. Porn can be accessed for free, anonymously, and in a seemingly endless range of niches, styles, and formats. In *Carnal Resonance*, Susanna Paasonen moves beyond the usual debates over the legal, political, and moral aspects of pornography to address online porn in a media historical framework, investigating its modalities, its affect, and its visceral and disturbing qualities. Countering theorizations of pornography as emotionless, affectless, detached, and cold, Paasonen addresses experiences of porn largely through the notion of affect as gut reactions,

intensities of experience, bodily sensations, resonances, and ambiguous feelings. She links these investigations to considerations of methodology (ways of theorizing and analyzing online porn and affect), questions of materiality (bodies, technologies, and inscriptions), and the evolution of online pornography. Paasonen discusses the development of online porn, focusing on the figure of the porn consumer, and considers user-generated content and amateur porn. She maps out the modality of online porn as hyperbolic, excessive, stylized, and repetitive, arguing that literal readings of the genre misunderstand its dynamics and appeal. And she analyzes viral videos and extreme and shock pornography, arguing for the centrality of disgust and shame in the affective dynamics of porn. Paasonen's analysis makes clear the crucial role of media technologies—digital production tools and networked communications in particular—in the forms that porn takes, the resonances it stirs, and the experiences it makes possible.

Materialities of Care Christina Buse, Daryl Martin, Sarah Nettleton, 2018-09-04 *Materialities of Care* addresses the role of material culture within health and social care encounters, including everyday objects, dress, furniture and architecture. Malady and Mortality Helen Thomas, 2016-06-22 This ground-breaking study examines visual and literary responses to, and representations of, illness, dying and death from the perspective of the chronically ill, their families and carers, medics, artists, photographers, authors, and academics. It encourages a re-examination of cultural taboos and visual and literary practices that engage with illness and death. Focusing upon a wide range of creative and critical engagements, this book makes a significant contribution to the medical humanities via its exploration of medical practice, literature and film, digital media studies, graphic design, and both contemporary and historical attitudes towards illness, death (including infant mortality), mourning and bereavement. For some, the experience of illness provokes feelings of exile, crisis or social critique, whilst for others it instigates utopian discourses predicated upon personal reflection, communication or connectivity, wherein the “self” is redefined beyond the parameters and constraints of the “body”.
