Drawing the Past, Volume 1 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Lawrence Abrams, Dorian L. Alexander, Max Bledstein, Peter Cullen Bryan, Stephen Connor, Matthew J. Costello, Martin Flanagan, Michael Fuchs, Michael Goodrum, Bridget Keown, Kaleb Knobloch, Christina M. Knopf, Martin Lund, Jordan Newton, Stefan Rabitsch, Maryanne Rhett, and Philip Smith History has always been a matter of arranging evidence into a narrative, but the public debate over the meanings we attach to a given history can seem particularly acute in our current age. Like all artistic mediums, comics possess the power to mold history into shapes that serve its prospective audience and creator both. It makes sense, then, that history, no stranger to the creation of hagiographies, particularly in the service of nationalism and other political ideologies, is so easily summoned to the panelled page. Comics, like statues, museums, and other vehicles for historical narrative, make both monsters and heroes of men while fueling combative beliefs in personal

versions of United States history. *Drawing the Past, Volume 1: Comics and the Historical Imagination in the United States*, the first book in a two-volume series, provides a map of current approaches to comics and their engagement with historical representation. The first section of the book on history and form explores the existence, shape, and influence of comics as a medium. The second section concerns the question of trauma, understood both as individual traumas that can shape the relationship between the narrator and object, and historical traumas that invite a reassessment of existing social, economic, and cultural assumptions. The final section on mythic histories delves into ways in which comics add to the mythology of the US. Together, both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world.

The Spirit and the Screen Steven Félix-Jäger, Chris E. W. Green, 2023-05-15 *The Spirit and the Screen* engages contemporary films from the perspective of pneumatology to give theologies of culture fruitful new perspectives that begin with the Spirit rather than other common theological contact points (Christology, anthropology, theological ethics, creation, eschatology, etc.). This book explores pertinent pneumatological issues that arise in film, as well as literary devices that draw allusions to the Spirit. It offers three main contributions: first, it explores how Christian understandings of the person and work of the Spirit illuminate the nature of film and film-making; second, it shows that there are in fact “Spirit figures” in film (as distinct from but inseparable from Christ-figures), even if sometimes they’re not intended as such, “Spirit-led” characters, are moved to act “prophetically,” against their inclinations and in excess of their skill or knowledge and with eccentric, life-giving creativity; third, it identifies subtle and explicit symbolizations of the Spirit in pop culture, symbolizations that requires deep, careful thinking about the Christian doctrine of the Spirit and generate new horizons for cultural analysis. The contributors of this book explore these issues, asking how Christian convictions and experiences of the Spirit might shape the way one thinks about films and film-making.

In Spirit and Truth Benny Thettayil, 2007 In the context of his conversation with the Samaritan woman the Johannine Jesus says the true worshipers will worship the Father in Spirit and truth (4:23). In this monograph Benny Thettayil undertakes a detailed exegetical study of the fourth evangelist's understanding of 'worship in Spirit and truth'. Part One is

devoted to a detailed exegetical analysis of John 4:19-26 focusing on the relationship between Jews and Samaritans, the meaning of pneuma and aletheia as well as the question whether Jesus reveals himself as the Messiah to the Samaritan woman. In Part Two Thettayil offers an extensive study of the replacement theme in the Fourth Gospel. He studies this issue in connection with the Johannine community and with the presentation of Jesus as the fulfilment of the temple. In his final chapter Thettayil enters into the difficult field of Johannine Replacement Theology, taking up the challenge of confronting the theological implications of the way the fourth evangelist presents judaism.

Superhero Rhetoric from Exceptionalism to Globalization Michael Arthur Soares, 2024-09-11 Superhero Rhetoric from Exceptionalism to Globalization: Up, Up and ...Abroad examines superhero narratives through the lens of American rhetoric and globalization. Michael Arthur Soares illustrates how deeply intertwined superhero narratives are with American political culture by analyzing, on the one hand, the rhetoric of American exceptionalism and the representation of American presidents in superhero narratives and, on the other, the prevalence of superhero rhetoric in speeches by American politicians. Turning toward the global mobility of the superhero genre, Soares then offers further insight into the ways in which cultural contexts inform transformations of superheroes and their narratives around the world and how American filmmakers have adjusted their narratives to guarantee their global reach and ability to place films in the global marketplace. Finally, the author considers real-life examples of licensed superhero iconography embodied by individuals around the world who seek to make change in their communities. Ultimately, the chapters examine the journey of superhero rhetoric and how it reaches out to global audiences, across cultural borders and back again.

The Amazing Transforming Superhero! Terrence R. Wandtke, 2011-11-16 This collection of essays analyzes the many ways in which comic book and film superheroes have been revised or rewritten in response to changes in real-world politics, social mores, and popular culture. Among many topics covered are the jingoistic origin of Captain America in the wake of the McCarthy hearings, the post-World War II fantasy-feminist role of Wonder Woman, and the Nietzschean influences on the sidekick revolt in the 2004 film *The Incredibles*.

Lilith: The Power of the Woman's Spirit in the Age of Aquarius Ed Russo, 2014-08-06 Embrace the darkness for there you will find the light. We all have been told in this patriarchal system that to look for salvation is to look upward and outward to a god or gods to worship. We are not here to worship, but to look inside ourselves and embrace who we are and grow to our full potential. Inanna is the archetypical Goddess of love and war. Her descent into the Underworld is a reflection

of our journey of going inward to face our true nature. When we fight this, we then are at war with nature. Lilith is Inanna's handmaiden as we ourselves can also become partners with Inanna. Realizing who we are we then embrace the balance with the female archetype with the male archetype which will bring us wholeness as women become stronger and men and women come to love themselves. This new perspective is what is taken place as we enter into the Age of Aquarius.

Wonderpowers: the Power of Truth Will Save the World Maggie Moline, 2010-09-14 What we are thinking is what we attract and create, so this book looks at our collective consciousness to see what we have collectively been thinking and doing wrong since the beginning of time to create all of the problems in the world. Then, as we awaken, we can begin to rebuild our consciousness and world from the ground up to create a new foundation with new programs and thinking that do serve us. As we look at the role that religion and government has played, we can also arrive with a new understanding and direction of where to go from here, starting with learning to think globally and become World Citizens! We must unite with our new collective consciousness of World Peace and act accordingly, as 'The Power of Truth will save the World!'

Fat Tactics Erec Smith, 2018-11-23 This book explores and analyzes the ways fat acceptance activists have advocated through language and tactical action. Using Anthony Giddens' concept of Structuration in the make-up of ideology, the book identifies how fat acceptance activists use signification, domination, and legitimation to strengthen their cause. Thus, their actions are both rhetorical and tactical. Fat—considered a descriptor and not a negative label among activists—is highly stigmatized for arbitrary reasons in various areas of life ranging from the fashion industry to health care. This book shows how fat acceptance activists work to remedy this situation.
