**William A. Ross, W. Edward Glenny**

**The Western Canon** Harold Bloom, 2020-06-11 The literary critic defends the importance of Western literature from Chaucer and Shakespeare to Kafka and Beckett in this acclaimed national bestseller. NOMINATED FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD Harold Bloom's *The Western Canon* is more than a required reading list—it is a heroically brave, formidably learned defense of the great works of literature that comprise the traditional Western Canon. Infused with a love of learning, compelling in its arguments for a unifying written culture, it argues brilliantly against the politicization of literature and presents a guide to the essential writers of the western literary tradition ( *The New York Times Book Review*). Placing William Shakespeare at the center of the canon, Bloom examines the literary contributions of Dante Alighieri, John Milton, Jane Austen, Emily Dickinson, Leo Tolstoy, Sigmund Freud, James Joyce, Pablo Neruda, and many others. Bloom's book, much-discussed and praised in publications as diverse as *The Economist* and *Entertainment Weekly*, offers a dazzling display of erudition and passion. An impressive work...deeply, rightly passionate about the great books of the past.—Michel Dirda, *The Washington Post Book World*

*The Biblical Canon Lists from Early Christianity* Edmon L. Gallagher, John D. Meade, 2017 A volume of texts and translations of canon-lists in early Christianity, specifically from the first four centuries CE on the grounds that this is the most formative period in the development of the early Christian canon.

**The Biblical Canon** Lee Martin McDonald, 2006-11-01 This is the thoroughly updated and expanded third edition of the successful *The Formation of the Christian Biblical Canon*. It represents a fresh attempt to understand some of the many perplexing questions related to the origins and canonicity of the Bible.

*Lists and Catalogues in Ancient Literature and Beyond* Rebecca Laemmle, Cédric Scheidegger Laemmle, Katharina Wesselmann, 2021-02-22 Lists and catalogues have been en vogue in philosophy, cultural, media and literary studies for more than a decade. These explorations of enumerative modes, however, have not yet had the impact on classical scholarship that they deserve. While they routinely take (a limited set of) ancient models as their starting point, there is no comparably comprehensive study that focuses on antiquity; conversely, studies on lists and catalogues in Classics remain largely limited to individual texts, and – with some notable exceptions – offer little in terms of explicit theorising. The present volume is an attempt to close this gap and foster the dialogue between the recent theoretical re-appraisal of enumerative modes and

scholarship on ancient cultures. The 16 contributions to the volume juxtapose literary forms of enumeration with an abundance of ancient non-, sub- or para-literary practices of listing and cataloguing. In their different approaches to this vast and heterogenous corpus, they offer a sense of the hermeneutic, epistemic and methodological challenges with which the study of enumeration is faced, and elucidate how pragmatics, materiality, performativity and aesthetics are mediated in lists and catalogues.

**T&T Clark Handbook of Septuagint Research** William A. Ross, W. Edward Glenny, 2021-01-14 Students and scholars now widely recognize the importance of the Septuagint to the history of the Greek language, the textual development of the Bible, and to Jewish and Christian religious life in both the ancient and modern worlds. This handbook is designed for those who wish to engage the Septuagint in their research, yet have been unsure where to turn for guidance or concise, up-to-date discussion. The contributors break down the barriers involved in the technical debates and sub-specialties as far as possible, equipping readers with the tools and knowledge necessary to conduct their own research. Each chapter is written by a leading Septuagint scholar and focuses upon a major area of research in the discipline, providing an overview of the topic, key debates and views, a survey or demonstration of the methods involved, and pointers towards ongoing research questions. By exploring origins, language, text, reception, theology, translation, and commentary, with a final summary of the literature, this handbook encourages active engagement with the most important issues in the field and provides an essential resource for specialists and non-specialists alike.

*The Law, The Prophets, and The Writings* Andrew M King, Joshua M Philpot, William R Osborne, 2021-07-05 In *The Law, the Prophets, and the Writings*, eighteen evangelical scholars analyze the Old Testament through a historical, literary, and theological hermeneutic, providing new insights into the meaning of the Scriptures.

Queer Ideas Martin Duberman, Alissa Solomon, 2016-08-15 Exploring questions of sexuality and gender, this volume brings together ten core thinkers in the field of lesbian and gay studies and provides an essential introduction to this interdisciplinary field as well as the processes by which new—and queer—ideas are thought into being. The collection begins with Joan Nestle, exploring the outsider status of lesbians through the complex life of a working-class black lesbian born in the South, who lived in New York and experienced the transition from complete marginalization to gay pride. It ends with Judith Butler, who speaks on broadening our concept of human rights in the aftermath of September 11. The collection also includes Edmund White on queer fiction and criticism, Eve Kosofsky Sedgwick on the dialogics of love, John D'Emilio on gay

civil rights activist Bayard Rustin, Esther Newton on being butch, and lectures by Barbara Smith, Monique Wittig, Samuel R. Delany, and Cherrie Moraga. Alisa Solomon and Martin Duberman of CLAGS discuss the genesis of the lecture series and reflect on the evolution of lesbian and gay studies over its first ten years.

**Cyclopædia of Biblical, Theological, and Ecclesiastical Literature** John McClintock, 1874

*Hebrew Life and Literature* Bernhard Lang, 2016-12-05 Bernhard Lang, known for his contributions over several decades to biblical anthropology, offers in this volume a selection of essays on the life and literature of the ancient Hebrews. The subjects range from the Hebrew God, the world-view of the Bible, and the formation of the scriptural canon, to peasant poverty, women's work, the good life, and prophetic street theatre. The stories of Joseph, Samson, and the expulsion from Paradise are analysed, and in a departure from the Old Testament, the priestly origins of the Eucharist are considered. Insight into the Hebrew mentality is facilitated by the arrangement of the essays, reflecting the three strata of the ancient society: the peasants, with their common concerns of fertility and happiness; warriors, their martial pursuits, and the divine Lord of War; and the wise - prophets, priests, and sages.

**The Old Testament: Canon, Literature and Theology** John Barton, 2016-02-17 This collection of John Barton's work engages with current concern over the biblical canon, in both historical and theological aspects; with literary reading of the Bible and current literary theory as it bears on biblical studies; and with the theological reading and use of the biblical text. John Barton's distinctive writing reflects a commitment to a 'liberal' approach to the Bible, which places a high value on traditional biblical criticism and also seeks to show how evocative and full of insight the biblical texts are and how they can contribute to modern theological concerns. This invaluable selection of published writings by one of the leading authorities on biblical text and canon, also includes new essays and editorial introductions from the author.

*Unruly Books* Esther Brownsmith, Liv Ingeborg Lied, Marianne Bjelland Kartzow, 2024-12-12 This volume explores the idea of the unruly book, from books now known by their titles alone to books that subverted structures of power and gender. The contributors show how these books functioned as "sticky" objects, and they examine the story of what such books signified to the people who wrote, read, discussed, yearned for, or even prohibited them. The books examined are those of the first millennium of the Common Era, and the writings of Judaism, Christianity, Islam and related traditions. In particular, the contributors examine the bounty of books within this period that are hard to pin down, whether extant, lost, or imagined - books that challenge modern scholars to reconceptualize our notions of books (biblical or otherwise), religion, manuscript culture, and intellectual history. Through the critical analyses presented in this volume, the contributors negotiate the diverse stories told by unruly books and show that by listening to the stories that books tell, we learn more about the worlds that imagined and discussed them.

**Evangelical Dictionary of Theology (Baker Reference Library)** Walter A. Elwell, 2001-05-01 Fifteen years after its

original publication comes a thoroughly revised edition of the Evangelical Dictionary of Theology. Every article from the original edition has been revisited. With some articles being removed, others revised, and many new articles added, the result is a completely new dictionary covering systematic, historical, and philosophical theology as well as theological ethics.

**The Apocrypha through History** Edmon L. Gallagher, 2025-03-19 The deuterocanonical books, otherwise called the Apocrypha, have been a part of Christian Bibles for as long as there has been a Christian Bible. For just as long, there have been disputes about their authority. Are they canonical Scripture, or merely edifying literature? These opposing positions can be found in the Church Fathers of the fourth and fifth centuries, who in turn influenced the entire subsequent discussion. The deuterocanonical books were almost always considered beneficial, often canonical, though there emerged with the Reformation in the sixteenth century Christian writers who disputed even the value of these books, suggesting that they might pose dangers to the faithful. The Apocrypha through History surveys the entire history of this issue, with a concentration on materials in Hebrew, Greek, and Latin (for the earlier period) or English and German (for the later period). Edmon L. Gallagher explores the origins of the deuterocanonical books and their reception in Judaism and Christianity, with separate chapters on the New Testament, the patristic period, the Latin West, the Greek East, the Reformation, and the English Bible. At each stage, the book investigates who considered the deuterocanonical books to be fully canonical--or not--and why? The Apocrypha through History provides a thorough yet accessible examination of one aspect of the history of the Bible, concluding with a chapter reflecting on whether it makes a difference if one's bible includes the deuterocanonical books.

*Confronting Our Canons* Joan Lipman Brown, 2010 The contents of this book cover what a Canon is and why it matters, the Canon backstory, modern Canons, factors that make a work Canonical, the literary Canon, and much more.

*The Professions and Civic Life* Gary J. Schmitt, 2016-06-10 Professions are institutions which, through their small size, self-governing elements, and sense of social mission, can assist in maintaining a sound civic culture. As mediating institutions in our democratic society that are neither entirely birthed by the state nor are entirely private, the individual professions—such as the legal and education professions, journalism, economics, architecture, or the military—arguably present practical avenues through which to teach civic behavior and to restore Americans' broken trust. This volume on the professions and civic life undertakes a unique and timely examination of twelve individual professions to see how each affects the character of American citizenship and the civic culture of the nation through their practices and ethos. Among the questions each essay in the volume addresses are: What is distinctive—or not—about the specific profession as it came to be practiced in the United States? Given the specialized knowledge, training, and sometimes licensing of a profession, what do the professions perceive to be their role in promoting the larger common good? How can we bring professionals' expert knowledge to bear on social problems in an open and deliberative way? Is the ethic of a particular profession as it

understands itself today at odds with the American conception of self-government and a healthy civic life? Through analysis of these questions, each chapter presents a rich treatment of how the twelve longstanding professions of political science, teaching, the law, the military, economics, medicine, journalism, literature, science, architecture, music, and history help support and challenge the general public's civic behavior in general and their attachment to the American regime in particular.

The Cambridge History of Latina/o American Literature John Morán González, Laura Lomas, 2018-02-22 The Cambridge History of Latina/o American Literature emphasizes the importance of understanding Latina/o literature not simply as a US ethnic phenomenon but more broadly as an important element of a trans-American literary imagination. Engaging with the dynamics of migration, linguistic and cultural translation, and the uneven distribution of resources across the Americas that characterize Latina/o literature, the essays in this History provide a critical overview of key texts, authors, themes, and contexts as discussed by leading scholars in the field. This book demonstrates the relevance of Latina/o literature for a world defined by the migration of people, commodities, and cultural expressions.
