Social Alternatives in Southern Europe and Latin America Montserrat Duch-Plana,Josep M. Pons-Altés,2024-03-19

This book deals with the evolution of initiatives connected to the social and solidarity economy and their political cultures and educational implications in the south of Europe and in Latin America. Employing a comparative perspective, the contributors present 11 studies of these trajectories in Argentina, Chile, Portugal, France, Italy, Spain, and Catalonia in order to engender familiarity with social tributary practices and projects in the Latin world. As the cyclical crises of capitalism and their resulting inequalities have created proposals of reform and brought them into action, certain shared ideological influences and policies have emerged across these societies. Faced with the interpretative schemes used for the Anglo-Saxon sphere, which have been the usual reference in international research, this volume's geographical and cultural matrix of analysis helps fill a longstanding gap in this field. The book will be of interest to scholars, educators, and students specialising in the history and political science of the social and solidarity economy sectors, as well as professionals involved in cooperatives, mutual aid societies, and associations.

An Economic History of the Spanish Welfare State Sergio Espuelas,2025-04-15 This monograph analyses the evolution of the welfare state in Spain from qualitative and quantitative perspectives. It basically relies on estimates of public social spending from 1850 to the present and offers comparisons with the rest of Europe. As a whole, the volume sheds light on the historical, political, and economic conditions at play during the relatively late development of the Spanish welfare state. Three key driving factors are explored: the political regime, social inequality, and Spain's exposure to international markets. While economic backwardness and demographic factors explain part of the story, Espuelas demonstrates that inequality

explains much of the pre-1936 gap; the lack of democracy and the Franco dictatorship were crucial up to the 1970s, and globalization, rather than having a clear positive or negative effect, has mainly influenced the way social policy is financed. This volume will be of interest to advanced students and researchers of economic history, welfare states, European history, and social policy.

Historias del hecho religioso en Colombia Jorge Enrique Salcedo Martínez, S. J., José David Cortés Guerrero, 2021-06-23 En la década de los noventa, el estudio de la historia del hecho religioso en Colombia comenzó a explorar escenarios diferentes al catolicismo debido a varios factores. El primero afectó a todas las ciencias sociales en Occidente: la crisis de los grandes paradigmas ejemplificados en el final del socialismo real, la disolución de la URSS y la caída del Muro de Berlín. El segundo, vinculado con el anterior, fue la crisis del discurso excesivamente racionalista e ilustrado que pronosticaba, desde la década de los sesenta, la debacle de la religión. Por el contrario, lo que se vivió fue el reverdecimiento de las creencias, entre ellas las religiosas. El tercero tiene que ver con la explosión temática de la historia en Colombia, es decir, con la manera como diversos temas, entre ellos el hecho religioso, pasaron a ser objeto de investigación por parte de historiadores profesionales. El cuarto se relaciona con la Constitución Política de 1991, en la que quedó plasmada la libertad religiosa, que derivó en el reconocimiento y aumento de credos diferentes al católico en la cotidianidad. Treinta años después es notorio el auge de la historia en Colombia, por las múltiples temáticas que han surgido y se han consolidado. Ejemplo de ello es este libro que trata sobre las diversas historias del hecho religioso en el país.

Organizing the Blind Roberto Garvía, 2016-11-10 This book is a case study which narrates the history of the National Organization of the Spanish Blind (ONCE), established in 1937 during the Spanish Civil War. Contrary to other affluent countries where most blind people live on welfare benefits, the Spanish blind enjoy full employment. Furthermore, the average income of the Spanish blind is higher than that of the sighted. Why is this so? Why the blind, and not the deaf mute, or any other group of disabled people? This book shows that ONCE answers these questions. The book explains ONCE'S origins, the shifting strategies that the organization has pursued to adapt to an ever-changing environment, its original goals and the way they have mutated and been interpreted, its conflicting relationship with an authoritarian regime, its struggle to

find its place in a democratic regime, and its relations with other groups of disabled people. A historical narrative, the book lies at the intersection between disability and organization studies, history and sociology. It will be of interest to all scholars of disability studies, the sociology of work, the history of medicine and contemporary Spanish history.

Adolfo López Mateos Rogelio Hernández Rodríguez,2015-11-05 Adolfo López Mateos ocupa un espacio particular en los recuerdos históricos nacionales, y es el ex presidente que se recuerda con más afecto. Pero su vida política y el desempeño de su gobierno no han sido reconstruidos satisfactoriamente. La presente obra reconstruye la biografía del ex mandatario pero sobre todo contextualiza su paso por la política nacional. El propósito ha sido situar y explicar cada momento de López Mateos y no sólo hacer un listado de sus ocupaciones.

Anunnaki Reptilianos: Historias Extraterrestres de Cuando los Dioses Caminaron y Vivieron Con La Humanidad (2 Libros en 1) Henry Krane,Ana Lorens,2023-07-19 Somos la creación de los dioses, somos la prueba viviente de su llegada desde las estrellas... Muchas son las culturas que nos hablan de la existencia de unos seres Reptilianos considerados como dioses: Los Anunnaki. Hay muchas evidencias, rastros que estos seres han dejado en nuestra historia. Los antiguos indicaron y representaron a estos dioses en sus pinturas, escritos, y por sobre todo, sus edificaciones, las cuales son imposibles de replicar en nuestra actualidad. Sus conocimientos tanto tecnológicos como su conciencia del universo influenciaron en nuestra historia... Incluso, hasta nuestros días... No volverás a ser el mismo luego de que conozcas los secretos de este libro...

Historias de acá Elda González Martínez,Asunción Merino Hernando,2007 Argentina, a lo largo de su historia como país independiente, se ha caracterizado por ser receptor de poblaciones de origen europeo y de las repúblicas limítrofes. Sin embargo, desde mediados del siglo XX, simultáneamente a este fenómeno comenzó a producirse otro de signo inverso: por diversas causas los argentinos comenzaron a emigrar, aumentando el flujo a partir de la crisis institucional y socioeconómica que envolvió al país a principios de este siglo. Esta última etapa se caracterizó porque los que emigraron fueron, en general, jóvenes de sectores de clase media urbana que intentaban escapar del desempleo, la inseguridad o el desanimo. De como desarrollan su vida en España trata este libro, un espacio que se abre para que cuenten sus historias de acá.

Los derechos humanos Carmen Llopis,2001-03-01 Los Derechos Humanos se aprenden y se practican en la vida cotidiana. Esta obra es una construcción colectiva de un grupo de educadores y educadoras que han querido responder a la propuesta de Naciones Unidas en la que se incitaba en la década 1995-2000 a elaborar y difundir materiales y programas para que la ciudadanía tome conciencia de la necesidad de defender y promover los Derechos Humanos. El libro se ha estructurado en dos partes. La primera recoge el proceso histórico-jurídico de los Derechos Humanos y el estudio de la

Constitución española desde el enfoque de la Declaración Universal. En la segunda parte se presentan experiencias de distintos Centros educativos y culturales de diversas Comunidades Autónomas de España que están trabajando este tema en los últimos años. Con esta publicación, la Fundación InteRed en colaboración con el Ayuntamiento de Madrid, quiere facilitar un proceso educativo y formativo en la promoción de los Derechos Humanos como norma básica de convivencia democrática.

Old Age and Urban Poverty in the Developing World P. Lloyd-Sherlock, 1997-07-23 Many countries in the developing world are facing a rapid acceleration in population ageing. To date, this problem has generated little interest either from academics or policy-makers. Studies which focus exclusively on social security are of little relevance for the majority of elderly in these regions, for whom the possibilities of saving or making pension contributions are remote. This book takes a more comprehensive approach, combining analysis of social security issues in all developing countries with micro-level case studies of poor urban elderly survival strategies in Buenos Aires.

Personas mayores y diversidad funcional física e intelectual durante la transición a la democracia Emilia Martos Contreras, 2016-12-21 Esta tesis abarca un largo periodo de estudio desde los orígenes del franquismo hasta la implantación del sistema político democrático, revisando tanto los cambios en el ámbito nacional como la realidad concreta en un espacio local que es la provincia de Almería. Los principales objetos de estudio son la diversidad funcional y la vejez, que actúan como ejes conductores para hacer una aproximación novedosa a la realidad social de la España contemporánea. Esta investigación, pionera en muchos aspectos, maneja un amplísimo fondo documental, que engloba entre otros, fuentes orales, material hemerográfico, audiovisual y archivístico, siendo esta recopilación uno de sus valores añadidos más importantes. Se trata, en su conjunto, de una gran obra compiladora, multidisciplinar en muchos aspectos y que pretende abrir una nueva vía de investigación.

The History of Capitalism in Mexico Enrique Semo, 2014-07-03 What lies at the center of the Mexican colonial experience? Should Mexican colonial society be construed as a theoretical monolith, capitalist from its inception, or was it essentially feudal, as traditional historiography viewed it? In this pathfinding study, Enrique Semo offers a fresh vision: that the conflicting social formations of capitalism, feudalism, and tributary despotism provided the basic dynamic of Mexico's social and economic development. Responding to questions raised by contemporary Mexican society, Semo sees the origin of both backwardness and development not in climate, race, or a heterogeneous set of unrelated traits, but rather in the historical interaction of each social formation. In his analysis, Mexico's history is conceived as a succession of socioeconomic formations, each growing within the womb of its predecessor. Semo sees the task of economic history to analyze each of these formations and to construct models that will help us understand the laws of its evolution. His premise is that economic history contributes to our understanding of the present not by formulating universal laws, but by studying the laws of

development and progression of concrete economic systems. The History of Capitalism in Mexico opens with the Conquest and concludes with the onset of the profound socioeconomic transformation of the last fifty years of the colony, a period clearly representing the precapitalist phase of Mexican development. In the course of his discussion, Semo addresses the role of dependency—an important theoretical innovation—and introduces the concept of tributary despotism, relating it to the problems of Indian society and economy. He also provides a novel examination of the changing role of the church throughout Mexican colonial history. The result is a comprehensive picture, which offers a provocative alternative to the increasingly detailed and monographic approach that currently dominates the writing of history. Originally published as *Historia del capitalismo en México* in 1973, this classic work is now available for the first time in English. It will be of interest to specialists in Mexican colonial history, as well as to general readers.

Instituciones, gobernanza y economía Ángela M., Rojas Rivera, 2024-06-30 El análisis institucional se propone aportar en la construcción de teorías más completas de la organización social, asumiendo la existencia de la diversidad y la complejidad en las interacciones humanas. Representa la aspiración a construir un enfoque integrador y constituye el referente central de este libro. Instituciones, gobernanza y economía, obedece a la necesidad de difundir herramientas para comprender y solucionar problemas de gobernanza colectiva, agudizados en nuestra época actual de subprovisión de bienes públicos, deterioro ambiental, debilitamiento de las comunidades y polarización política. A ellos se suman las demandas urgentes de América Latina y el Caribe, estancadas ante la persistente desigualdad económica y la debilidad del Estado. Reúne la exposición de los principales conceptos y análisis institucionalistas, y pone en diálogo a diversos autores cuando es posible.
