Mots croisés Bárbara Bragato,2024-07-11 À la frontière entre le portugais et le français, Mots croisés (Palavras cruzadas) est un livre qui trouve son origine dans les notes de voyage écrites depuis 2010, lorsque j'ai atterri pour la première fois en France. Au cours de ces quatorze années, marquées par de multiples traversées de l'Atlantique, de nouvelles relations se sont nouées entre les mots et la distance. Dans le désir de la rencontre, les géographies et les sémantiques révélaient leur incertitude. Entre les corps, les lieux, les synonymes insoutenables. Des mots croisés uniquement sur le papier. Na fronteira entre o português e o francês, Palavras cruzadas (Mots croisés) é um livro que parte de anotações de viagens feitas desde a primeira vez que pousei na França, em 2010. Neste intervalo de quatorze anos, perpassado por diversas travessias no Atlântico, novas relações se desenhavam entre a palavra e a distância. No desejo do encontro, geografias e semânticas apontavam sua incerteza. Dos corpos, dos lugares, dos sinônimos insustentáveis. Palavras cruzadas apenas no papel.

Images Sunil Manghani,2013 *Images: Critical and Primary Sources* is a major multi-volume work of reference that brings together seminal writings on the image. Taking an interdisciplinary approach, the essays range across the domains of philosophy, history, art, aesthetics, literature, science, anthropology, critical theory and cultural studies. The essays reveal a wide set of perspectives, problematics and approaches, helping to frame a rich, encompassing view of what we can broadly term 'image studies'. The four volumes are arranged thematically, each separately introduced and with the essays structured into specific sections for easy reference. Volume 1: *Understanding Images* establishes conceptual, historical, ideological and philosophical framings for understanding and defining the image; followed in Volume 2: *The Pictorial Turn* with a focus on the most enduring and constitutive question of the image: its relationship to, with and against text and textuality. Volume 3: *Image Theory* offers representative materials covering key theoretical approaches for analyzing, interpreting and critiquing the image. Finally, Volume 4: *Image Cultures* examines a wide range of social and cultural contexts of the image, which covers aspects of visual evidence, image and memory, visual methodologies, scientific imaging and the practical engagement of image-makers. *Images: Critical and Primary Sources* offers a major scholarly resource for any researchers involved in the

study of the image and visual culture.

L'enfant et les images de la littérature enfantine Jacqueline Danset-Léger, 1980 Un examen de la littérature enfantine actuelle montre que celle-ci donne une place prépondérante aux images. Il convient alors de se demander ce que font les enfants des images et ce que les images leur font : ces questions font l'objet de nombreuses discussions alimentées par des études et expériences variées dont l'auteur donne ici un vaste panorama orientant ses réflexions dans les axes suivants : les réactions des enfants devant les images, devant les images réalistes, devant les images incongrues, devant les images complexes ; la lecture de l'image et l'association des images ; le déchiffrement des histoires en images

Magritte Alex Danchev, 2021-11-30 The first major biography of the pathbreaking, perpetually influential surrealist artist and iconoclast whose inspiration can be seen in everyone from Jasper Johns to Beyoncé—by the celebrated biographer of Cézanne and Braque In this thought-provoking life of René Magritte (1898-1967), Alex Danchev makes a compelling case for Magritte as the single most significant purveyor of images to the modern world. Magritte's surreal sensibility, deadpan melodrama, and fine-tuned outrageousness have become an inescapable part of our visual landscape, through such legendary works as *The Treachery of Images* (*Ceci n'est pas une pipe*) and his celebrated iterations of *Man in a Bowler Hat*. Danchev explores the path of this highly unconventional artist from his middle-class Belgian beginnings to the years during which he led a small, brilliant band of surrealists (and famously clashed with André Breton) to his first major retrospective, which traveled to the United States in 1965 and gave rise to his international reputation. Using 50 color images and more than 160 black-and-white illustrations, Danchev delves deeply into Magritte's artistic development and the profound questions he raised in his work about the very nature of authenticity. This is a vital biography for our time that plumbs the mystery of an iconoclast whose influence can be seen in everyone from Jasper Johns to Beyoncé.

Le monde des images Léon Daudet, 2024-09-26 Le monde des images (Suite de l'Hérodo) de Léon Daudet est une exploration captivante et introspective de la perception humaine et des visions intérieures. En tant que suite à son oeuvre précédente *L'Hérodo*, Daudet continue à examiner les mystères de l'esprit humain, en se concentrant cette fois-ci sur le rôle des images mentales et des perceptions. Le livre plonge dans l'univers des images mentales, ces visions et représentations internes qui habitent l'esprit humain. Daudet explore comment ces images influencent nos émotions, nos pensées et nos actions. À travers une série de réflexions philosophiques et d'analyses psychologiques, il tente de comprendre la nature de ces images et leur impact sur notre conscience et notre subconscient. Daudet s'appuie sur des exemples personnels et

littéraires pour illustrer ses théories, mêlant des récits autobiographiques avec des analyses de cas célèbres. Il examine également les travaux de grands penseurs et artistes qui ont exploré les images mentales dans leurs œuvres, offrant une perspective riche et multidimensionnelle sur le sujet. Le livre aborde également la question de la mémoire et du rêve, deux domaines où les images mentales jouent un rôle crucial. Daudet décrit comment les souvenirs et les rêves sont façonnés par nos expériences et nos perceptions, et comment ils peuvent influencer notre réalité quotidienne. Il discute des mécanismes par lesquels l'esprit crée et manipule ces images, et des implications pour notre compréhension de la réalité. En tant que suite de L'Hérédo, Le monde des images approfondit les thèmes de l'hérédité et de la transmission des traits psychologiques et mentaux. Daudet explore comment les images mentales peuvent être influencées par des facteurs génétiques et environnementaux, et comment elles peuvent être transmises de génération en génération. Léon Daudet, avec son style caractéristique, combine érudition et accessibilité, rendant des concepts complexes compréhensibles pour un large public. Il utilise une prose riche et descriptive pour donner vie à ses idées, capturant l'imagination du lecteur tout en le faisant réfléchir profondément sur la nature de l'esprit humain.

René Magritte Patricia Allmer, 2009 René Magritte offers a rethinking of Magritte's art from a position informed by contemporary developments in art theory. The book employs a wide range of literary and philosophical/cultural theoretical frameworks to analyze Magritte's art. It offers close readings of specific images, paying attention to neglected aspects of Magritte's work, discussing the significance of cabinets of curiosities and encyclopedias, trompe l'oeil, framing and forgeries. It addresses a range of intertextual relations between Magritte's work and that of other Surrealist artists and the art-historical tradition. This highly readable text explores how Magritte's art challenges conventional notions of originality, canonicity and coherence, revealing his work as being shaped by co-operations and co-options. It demonstrates that uncertainty, incoherence and negation lie at the core of Magritte's œuvre.

Des mots et des couleurs (tome 2) Philippe Bonnefis, Pierre Reboul, Jean-Pierre Guillerm, 1979 Sept textes qui donnent

à lire quelques stratégies exemplaire suscitées, dans des écritures diverses, par l'altérité Des mots et des couleurs. Entre le rappel des couleurs oubliées hantant le mythe chrétien et les torsions de l'histoire immédiate manipulée par un artiste, ce sont les failles de l'expression classique, les couleurs chez Beaudelaire, les Salomés érites et peintes, la lettre à l'oeuvre dans la peinture de Knopff, la culture et l'espace pictural défaits par l'écriture proustienne. Autant d'occasions de jouir des subversions programmées par l'autorité trop établie du lisible sur le visible dans la tradition culturelle occidentale et plus particulièrement française. Il s'agit d'autant d'errances par rapport au chemin obligé qui menait des mots aux figures en feignant l'oubli des couleurs. Mise en perspective, la question n'en reste pas moins ici fortement centrée sur la fin du XIX^e siècle, centrage délibéré car les mots pas plus que les couleurs n'échappent à leur moment. Celui qui est pris pour cible est, on le sait, déterminant quant à la critique productrice des économies représentatives tant picturales que littéraires. Autre contrainte observée: celle de ne retenir que des pratiques mettant en cause des tableaux effectifs. C'est dans la pression d'un réel de la peinture que se manifeste l'inscription d'imaginaires de l'espace et de la couleur dans des écritures différenciées et non exclusivement littéraires. Dans ces limites et selon une diversité d'approche recherchée, l'ensemble de ces textes voudrait indiquer la fécondité critique d'un domaine que le premier volume Des mots et des couleurs contribua efficacement à défricher en 1979.

Les aphasies Sophie Chomel-Guillaume,Gilles Leloup,Isabelle BERNARD,2021-06-29 La prise en charge du patient aphasique a connu ses dernières années de considérables avancées. La « philosophie » même de la rééducation a évolué, en se détachant d'une remédiation du langage et de la parole issue des conceptions classiques d'un support cérébral organisé en centres, au profit d'une conception en réseaux des activités de langage, et en développant des approches écologiques et pragmatiques traitant au sens large la communication. La rigueur de l'approche en neuropsychologie cognitive et de l'approche fonctionnelle se sont ainsi associées pour mettre en place des programmes thérapeutiques personnalisés et adaptés au patient.Cet ouvrage se propose de faire le tour des connaissances actuelles liées aux aphasies, depuis leur compréhension et leur diagnostic jusqu'à leur rééducation. Après un rappel de l'histoire des aphasies et du fonctionnement normal du langage, les auteurs traitent de la démarche diagnostique, évaluation pluridisciplinaire qui s'appuie sur les examens neurologiques, aphasiologiques et neuropsychologiques. Les conduites de rééducations de l'aphasie chez l'adulte sont ensuite développées, non comme une somme de techniques, mais plus comme un cadre de réflexion sur la remédiation en aphasiologie. En fin d'ouvrage, des études de cas permettent d'illustrer et d'appliquer à des situations concrètes l'ensemble des connaissances et des notions abordées.Cette seconde édition propose une mise à jour de l'ensemble des données : les différentes parties ont été revues et étoffées notamment une partie entièrement consacrée à l'intervention orthophonique qui réunit et enrichit les démarches diagnostiques et la rééducation qui étaient séparées dans la précédente édition. Les illustrations sont également maintenant disponibles en couleur et les études de cas cliniques ont été entièrement

renouvelés. Ce livre s'adresse à tous ceux qui s'intéressent à l'aphasie et à sa prise en charge, orthophonistes, neuropsychologues, neurologues, médecins rééducateurs et étudiants.

Claude Simon Bérénice Bonhomme, 2010 La critique simonienne s'est déjà penchée sur les rapports de l'oeuvre de Claude Simon à l'image, peinture ou photographie, mais le lien au cinéma n'a donné lieu qu'à peu d'études approfondies. Cette recherche met donc au jour les liens complexes de Claude Simon à l'image cinématographique et fait porter l'effort d'analyse sur ce dialogue toujours renouvelé entre écriture et réalisation filmique, afin de montrer dans quelle mesure le passage d'un langage à un autre influence notamment le processus créatif chez Claude Simon. L'écrivain a commencé à écrire un découpage pour l'adaptation de La Route des Flandres dès 1961, mais le projet n'a pas abouti. Ce que, dès lors, cet ouvrage tente de mettre en évidence c'est l'histoire d'un rendez-vous manqué dont la dynamique va pourtant enrichir toute une oeuvre littéraire.
