The Mad Scientists' Club Complete Collection Bertrand R. Brinley,2010-11-01 The gang's all here, as are the stories, all 14 of them. Yep, that's right. All 12 individual tales and the two novels combined into one book. The book is big enough that your friends will notice it and ask you what's in it. You can proudly tell them that you have the complete Mad Scientists' Club works in your hands and can find anything they might want to know about the gang. Even better, you can carry this around wherever you go and have every story right at your fingertips. And, like all paperbacks, after a while it will become dog-eared from constant use as you read and re-read the exploits of the seven junior geniuses of Mammoth Falls. Written between 1961 and 1986, here is the Complete Collection of Bertrand R. Brinley's Mad Scientists' Club stories from The Mad Scientists' Club, The New Adventures of the Mad Scientists' Club, The Big Kerplop! and The Big Chunk of Ice. All complete with illustrations by Charles Geer.

Works Cited Brandon R. Schrand,2020-04-15 Doing things by the book acquires a whole new meaning in Brandon R. Schrand's memoir of coming of age in spite of himself. The works cited are those books that serve as Schrand's signposts as he goes from life as a hormone-crazed, heavy-metal wannabe in the remotest parts of working-class Idaho to a reasonable facsimile of manhood (with a stop along the way to buy a five-dollar mustard-colored M. C. Hammer suit, so he'll fit in at college). The Adventures of Huckleberry Finn informs his adolescent angst over the perceived injustice of society's refusal to openly discuss boners. The Great Gatsby serves as a metaphor for his indulgent and directionless college days spent in a drunken stupor (when he wasn't feigning interest in Mormonism to attract women). William Kittredge's Hole in the Sky parallels his own dangerous adulthood slide into alcoholism and denial. With a finely calibrated wit, a good dose of humility, and a strong supporting cast of literary characters, Schrand manages to chart his own story--about a dreamer thrown out of school as many times as he's thrown into jail--until he finally sticks his landing.

The Mad Scientist Raymond McDonald,1908

Gothic Science Fiction S. MacArthur,2015-05-25 Gothic Science Fiction explores the fascinating world of gothic influenced science fiction. From Frankenstein to Doctor Who and from H. G Wells to Stephen King, the book charts the rise of a genre and follows the descent into darkness that consumes it.

Unbored Joshua Glenn,Elizabeth Foy Larsen,2013-07-18 Unbored is the book every modern child needs. Brilliantly walking the line between cool and constructive, it's crammed with activities that are not only fun and doable but that also get kids standing on their own two feet. If you're a kid, you can: -- Build a tipi or an igloo -- Learn to knit -- Take stuff apart and fix it -- Find out how to be constructively critical -- Film a stop-action movie or edit your own music -- Do parkour like James Bond -- Make a little house for a mouse from lollipop sticks -- Be independent! Catch a bus solo or cook yourself lunch -- Make a fake exhaust for your bike so it sounds like you're revving up a motorcycle -- Design a board game -- Go camping (or glamping) -- Plan a road trip -- Get proactive and support the causes you care about -- Develop your taste and decorate your own room -- Make a rocket from a coke bottle -- Play farting games There are gross facts and fascinating stories, reports on what stuff is like (home schooling, working in an office...), Q&As with inspiring grown-ups, extracts from classic novels, lists of useful resources and best ever lists like the top clean rap songs, stop-motion movies or books about rebellion. Just as kids begin to disappear into their screens, here is a book that encourages them to use those tech skills to be creative, try new things and change the world. And it gets parents to join in. Unbored is fully illustrated, easy to use and appealing to young and old, girl and boy. Parents will be comforted by its anti-perfectionist spirit and humour. Kids will just think it's brilliant.

Boys' Life ,1961-09 Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

Gearheads Brad Stone, 2007-11-01 In the early nineties, a visionary special-effects guru named Marc Thorpe conjured a field of dreams different from any the world had seen before: It would be framed by unbreakable plastic instead of cornstalks; populated not by ghostly ballplayers but by remote-controlled robots, armed to the steely teeth, fighting in a booby-trapped ring. If you built it, they'd come all right.... In *Gearheads*, Newsweek technology correspondent Brad Stone examines the history of robotic sports, from their cultish early years at universities and sci-fi conventions to today's televised extravaganzas -- and the turmoil that threatened the whole enterprise almost from the beginning. By turns a lively historical narrative, a legal thriller, and an exploration of a cultural and technological phenomenon, *Gearheads* is a funny and fascinating look at the sport of the future today.

Boys' Life ,1962-11 Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.
